CONTENTS

Chapter		Page
	EXECUTIVE SUMMARY	
1	INTRODUCTION AND BACKGROUND .....	1-1
1.1	Policy Context.....	1-1
1.2	Study Objectives.....	1-1
1.3	Project Overview .....	1-2
1.4	San Diego County Airport System .....	1-2
1.4.1	Characteristics.....	1-3
1.4.2	Airport Sponsors and Roles.....	1-4
1.5	Summary of Aviation Activity .....	1-9
1.5.1	Commercial Activity.....	1-10
1.5.2	General Aviation and Military Activity.....	1-12
1.6	Planning Challenges .....	1-13
1.7	Coordination and Outreach.....	1-16
1.8	AMAP Integration.....	1-16
2	STRATEGIC ASSESSMENT .....	2-1
2.1	Objectives .....	2-1
2.2	Assessment of System Airports.....	2-1
2.2.1	San Diego International Airport .....	2-1
2.2.2	McClellan-Palomar Airport .....	2-4
2.2.3	Montgomery Field.....	2-6
2.2.4	Brown Field Municipal Airport .....	2-8
2.2.5	Gillespie Field .....	2-11
2.2.6	Ramona Airport.....	2-13
2.2.7	Oceanside Municipal Airport.....	2-15
2.2.8	Fallbrook Community Airpark .....	2-17
2.2.9	Borrego Valley Airport.....	2-17
2.2.10	Ocotillo Airport .....	2-20
2.2.11	Agua Caliente Airport .....	2-20
2.2.12	Jacumba Airport .....	2-23
2.2.13	Tijuana Rodriguez International Airport.....	2-23
2.3	Key Findings and Recommendations .....	2-27
3	AIRPORT SYSTEM OPTIMIZATION.....	3-1
3.1	Factors Affecting Aviation and Surface Capacity .....	3-1
3.1.1	Funding, Policy, and Political Factors.....	3-1
3.1.2	Surface, Rail, and Cross Border Initiatives .....	3-2

CONTENTS (*continued*)

Chapter	Page
3 AIRPORT SYSTEM OPTIMIZATION ( <i>continued</i> )	
3.2 System Optimization Strategies .....	3-4
3.2.1 Change in Airport Capability and/or Capacity .....	3-4
3.2.2 Change in Airport User or Market Served .....	3-4
3.2.3 Change in Airport Fleet Mix.....	3-5
3.2.4 Federal, State and/or Local Aviation Initiatives .....	3-5
3.2.5 Changes to Surface Infrastructure .....	3-7
4 DEMAND FINDINGS AND BASELINE SCENARIO.....	4-1
4.1 Demand Findings.....	4-1
4.1.1 Historic Growth in Regional Aviation Demand.....	4-1
4.1.2 Air Service Background.....	4-4
4.1.2.1 San Diego International Airport .....	4-4
4.1.2.2 Los Angeles International Airport.....	4-6
4.1.2.3 Tijuana Rodriguez International Airport.....	4-7
4.1.3 Aviation Industry Trends and Outlooks .....	4-9
4.1.3.1 Commercial Airline Industry .....	4-9
4.1.3.2 General Aviation Activity .....	4-10
4.1.3.3 Air Cargo Activity.....	4-11
4.2 Previous Estimates of Regional Aviation Capacity.....	4-11
4.3 Baseline Scenario .....	4-12
4.3.1 Facility and Policy Assumptions .....	4-12
4.3.2 Cost Estimates and Implementation Timeline.....	4-17
4.3.3 Market Reactions.....	4-18
4.3.4 Baseline Findings.....	4-20
5 ALTERNATIVE SCENARIOS.....	5-1
5.1 Overview of Alternative Scenarios.....	5-1
5.2 Commercial Passenger Optimization .....	5-2
5.2.1 Scenario 1A: Full Build-out of the ITC and North Side Terminal at San Diego International .....	5-2
5.2.2 Scenario 1B: Preserve San Diego International’s Airfield Capacity for Commercial Passenger Service.....	5-3
5.2.3 Scenario 1C: Enhance Commercial Passenger Service at McClellan-Palomar .....	5-4
5.2.4 Scenario 1D: Introduce Commercial Passenger Service at Brown Field Municipal Airport .....	5-5
5.2.5 Scenarios 1E/F: Up-gauge San Diego International’s Aircraft Fleet Mix .....	5-6

CONTENTS (*continued*)

Chapter	Page
5 ALTERNATIVE SCENARIOS ( <i>continued</i> )	
5.3 Enhanced Utilization of Tijuana .....	5-7
5.3.1 Scenario 2A: Facilitate Border Crossings .....	5-7
5.3.2 Scenario 2B: Aviation Passenger Cross Border Facility .....	5-9
5.3.3 Scenario 2C: Cross Border Airport Terminal .....	5-10
5.4 California High Speed Rail .....	5-12
5.4.1 Scenario 3A: HSR Station at Downtown San Diego.....	5-14
5.4.2 Scenario 3B: HSR Station at San Diego International Airport .....	5-15
5.5 General Aviation Optimization.....	5-15
5.5.1 Scenario 4A: Enhance McClellan-Palomar Airport for High-end/Corporate General Aviation.....	5-16
5.5.2 Scenario 4B: Enhance Brown Field Municipal Airport for High-end/Corporate General Aviation.....	5-18
5.5.3 Scenario 4C: Enhance Gillespie Field for Mixed-use General Aviation .....	5-19
5.6 Air Cargo Optimization .....	5-21
5.6.1 Scenario 5A: Introduce Air Cargo Service at Brown Field Municipal Airport .....	5-21
6 ALTERNATIVE SCENARIO FINDINGS .....	6-1
6.1 Commercial Passenger Optimization Scenarios.....	6-1
6.1.1 Scenario 1A: Full Build-out of the ITC and North Side Terminal at San Diego International .....	6-1
6.1.2 Scenario 1B: Preserve San Diego International’s Airfield Capacity for Commercial Passenger Service.....	6-3
6.1.3 Scenario 1C: Enhance Commercial Passenger Service at McClellan-Palomar .....	6-4
6.1.4 Scenario 1D: Introduce Commercial Passenger Service at Brown Field Municipal Airport .....	6-6
6.1.5 Scenarios 1E/F: Up-gauge San Diego International’s Aircraft Fleet Mix .....	6-6
6.2 Enhanced Utilization of Tijuana Scenarios.....	6-7
6.2.1 Scenario 2A: Facilitate Border Crossings .....	6-7
6.2.2 Scenario 2B: Aviation Passenger Cross Border Facility .....	6-9
6.2.3 Scenario 2C: Cross Border Airport Terminal .....	6-12
6.3 California High Speed Rail Scenarios .....	6-13
6.3.1 Scenario 3A: HSR Station at Downtown San Diego.....	6-14
6.3.2 Scenario 3B: HSR Station at San Diego International Airport .....	6-15

CONTENTS (*continued*)

Chapter	Page
6 ALTERNATIVE SCENARIO FINDINGS ( <i>continued</i> )	
6.4 General Aviation Optimization Scenarios.....	6-16
6.4.1 Scenario 4A: Enhance McClellan-Palomar Airport for High-end/Corporate General Aviation.....	6-17
6.4.2 Scenario 4B: Enhance Brown Field Municipal Airport for High-end/Corporate General Aviation.....	6-17
6.4.3 Scenario 4C: Enhance Gillespie Field for Mixed-use General Aviation .....	6-18
6.5 Air Cargo Optimization Scenarios.....	6-20
6.6 Summary of Findings .....	6-20
Appendix A Exhibits	
Appendix B Econometric Model	
Appendix C Alternative Scenario Details and Cost Estimates	
Appendix D Comments Received on RASP Report and Responses	

TABLES

	Page
1-1 San Diego County Airport System .....	1-4
1-2 Actual and Forecast Aircraft Operations—San Diego County Airport System.....	1-11
4-1 San Diego International Airport Capacity Findings From Previous Studies.....	4-12
4-2 Baseline Scenario—Cost Estimates and Potential Funding Sources.....	4-17
5-1 Number of Active General Aviation Aircraft by Aircraft Type in the U.S. (2008).....	5-16
5-2 Breakdown of Corporate and Non-Corporate Operations by Aircraft Type .....	5-17

FIGURES

	Page
1-1 RASP Approach and San Diego County Airport System .....	1-3
1-2 Baseline Facilities and Operational Data .....	1-7
1-3 Existing Runway Lengths .....	1-14
1-4 Airfield Demand and Capacity at General Aviation Airports .....	1-15
2-1 San Diego International, Airport Facilities and Existing Land Uses .....	2-2
2-2 McClellan-Palomar Airport, Airport Facilities and Existing Land Uses .	2-5
2-3 Montgomery Field Airport, Airport Facilities and Existing Land Uses...	2-7
2-4 Brown Field Municipal Airport, Airport Facilities and Existing Land Uses .....	2-10
2-5 Gillespie Field Airport, Airport Facilities and Existing Land Uses .....	2-12
2-6 Ramona Airport, Airport Facilities and Existing Land Uses .....	2-14
2-7 Oceanside Municipal, Airport Facilities and Existing Land Uses .....	2-16
2-8 Fallbrook Community Airpark, Airport Facilities and Existing Land Uses .....	2-18
2-9 Borrego Valley Airport, Airport Facilities and Existing Land Uses .....	2-19
2-10 Ocotillo Airport, Airport Facilities and Existing Land Uses.....	2-21
2-11 Agua Caliente Airport, Airport Facilities and Existing Land Uses .....	2-22
2-12 Jacumba Airport, Airport Facilities and Existing Land Uses .....	2-24
2-13 Tijuana Rodriguez International Airport, Airport Facilities and Existing Land Uses .....	2-25
2-14 Strategic Assessment Findings.....	2-28
4-1 Historical Annual Passenger Enplanements – RASP Study Area.....	4-2
4-2 Compound Annual Growth Rate (1998-2007).....	4-3
4-3 Indexed Growth in San Diego Metropolitan Statistical Area (Indexed to 1990).....	4-3
4-4 2008 Airline Market Share .....	4-4
4-5 Top 100 Destinations from San Diego International Airport.....	4-5
4-6 Historical Airline Market Share at San Diego International Airport.....	4-5

FIGURES (continued)

	Page
4-7 Seats Offered on Southwest vs. Other Airlines .....	4-6
4-8 San Diego County Resident and Visitor Use of LAX (2008).....	4-7
4-9 Originating Airports for San Diego County Residents Traveling to Mexico (2006).....	4-8
4-10 Distribution of Border Crossings by Point of Entry .....	4-9
4-11 Estimated Time for Border Crossings by Point of Entry .....	4-9
4-12 Historical Trend in Commercial Aviation Activity .....	4-10
4-13 Impact of Airfield Capacity Constraint at San Diego International Airport.....	4-13
4-14 Regional Transportation Plan—2010 Proposed Improvements .....	4-14
4-15 Regional Transportation Plan—2020 Proposed Improvements .....	4-15
4-16 Regional Transportation Plan—2030 Proposed Improvements .....	4-16
4-17 Baseline Scenario – Implementation Schedule .....	4-18
4-18 Baseline “Do-Nothing” Scenario .....	4-19
4-19 Baseline Scenario – Projected Passenger Enplanements at Southern and Baja California Airports .....	4-20
4-20 Projected Annual Passenger Enplanements at Southern California Airports – Baseline Scenario .....	4-21
4-21 Baseline Scenario – Projected San Diego International Enplanements.....	4-22
4-22 Baseline Scenario – Projected San Diego Resident and Visitor Enplanements Distribution at RASP Study Area Airports .....	4-22
4-23 Baseline Scenario – San Diego County Suppressed Aviation Passenger Demand .....	4-23
5-1 Scenarios 1E/1F – San Diego International Airport’s Fleet Mix.....	5-6
5-2 Current U.S. Passenger Access to Tijuana Airport .....	5-8
5-3 Aviation Passenger Cross Border Facility.....	5-10
5-4 Cross Border Airport Terminal.....	5-11
5-5 Proposed California High Speed Rail Alignment.....	5-12
5-6 Potential Use of High Speed Rail as an Alternative to Air Travel.....	5-13
5-7 High Speed Rail for Access to Airport.....	5-13

FIGURES (continued)

	Page
5-8 Time and Cost Assumptions for Various Mode Choices.....	5-14
5-9 Potential General Aviation Traffic Shift to McClellan-Palomar .....	5-18
5-10 Potential General Aviation Traffic Shift to Brown Field.....	5-20
5-11 Potential General Aviation Traffic Shift to Gillespie Field .....	5-21
6-1 Scenario 1A—SAN Enplanement Projections.....	6-2
6-2 Scenarios 1A, B, C—Effect on Suppressed Aviation Passenger Demand	6-2
6-3 Scenario 1B—SAN Enplanement Projections.....	6-3
6-4 Scenario 1C—McClellan-Palomar Enplanement Projections .....	6-5
6-5 Scenario 1C—SAN Enplanement Projections .....	6-5
6-6 Scenarios 1E/F—SAN Enplanement Projections .....	6-7
6-7 Scenario 2A—Tijuana Rodriguez Enplanement Projections.....	6-8
6-8 Scenario 2A – SAN Enplanement Projections.....	6-8
6-9 Scenarios 2A, B, C—Effect on Suppressed Aviation Passenger Demand	6-9
6-10 Scenario 2B —SAN Enplanement Projections.....	6-10
6-11 Scenario 2B—Tijuana Rodriguez Enplanement Projections .....	6-10
6-12 Scenario 2B—Effect on Domestic Airport Choice .....	6-11
6-13 Scenario 2B—Effect on International Airport Choice .....	6-12
6-14 Scenario 2C—Tijuana Rodriguez Enplanement Projections.....	6-13
6-15 Scenario 2C—SAN Enplanement Projections .....	6-13
6-16 Scenarios 3A/3B—SAN Enplanement Projections .....	6-14
6-17 Airport Choice for Northern California Trips, San Diego Residents and Visitors in 2030.....	6-15
6-18 Scenarios 3A/3B—Effect on Suppressed Aviation Passenger Demand ..	6-16
6-19 Scenario 4A—SAN Enplanement Projections.....	6-17
6-20 Scenarios 4A, B, C—Effect on Suppressed Aviation Passenger Demand	6-18
6-21 Scenario 4B—SAN Enplanement Projections.....	6-19
6-22 Scenario 4C—SAN Enplanement Projections .....	6-19
6-23 Summary of Findings .....	6-21
