## AIRPORT NOISE DISCLOSURE STATEMENT

**Date:** \_\_\_\_\_

**To:** Name: \_\_\_\_\_

Company: \_\_\_\_\_

Phone(s) #: \_\_\_\_\_

Fax #: \_\_\_\_\_

**Subject Property:** \_\_\_\_\_

According to the records of the San Diego County Regional Airport Authority, it appears that the subject property resides (Within / Outside) the \_\_\_\_\_ decibel Community Noise Equivalent Level (CNEL) for the \_\_\_\_\_ annual contour for San Diego International Airport.

The above property is in close proximity to a major airport. You should expect aviation activity above or near your property at all times of the day and night by all categories and classes of aviation, from small propeller airplanes to large jets. Residents may find associated aircraft noise and overflights to be annoying and/or disruptive to the enjoyment of the property.

Buyers are strongly advised to visit the property and surrounding area at various times of the day and night. Different conditions may impact the purchasing decision on an individual basis.

Note: The State of California and the Federal Aviation Administration recognize the 65 decibel (CNEL) or greater contour as the defined airport noise impact area (N.I.A.) for SDIA. However, specific individuals may have greater or lesser sensitivity to environmental noise.
