Subject: Departures

I live in South Mission Beach and my community is being almost demonized by the amount of departures going directly over my neighborhood now. I have lived here for 55 years and appreciate the past customs of dividing departures between the different neighborhoods.

Today, I am writing to urge you to please modify the Open SID 290 departure so that it includes all of the nighttime departures (10 PM to 11:30 PM), including those currently using PADRZ.

THANK YOU,

Unfortunately I did not sign up in advance for public comment for the meeting today. I am urging you to please modify the Open SID 290 departure so that it includes all of the nighttime, 10 pm to 11:30 pm, departures, including those currently using PADRZ.

Thank you
Cathy
