On June 30, 2010, the Authority's Selection Panel ("Panel") short-listed fourteen firms, which were invited to interview. At the interview, each respondent provided a presentation of their qualifications and responded to prepared questions. After the interview, the Panel evaluated the fourteen respondents using weighted criteria of four factors (i.e., the organization's overall experience and skill, experience of personnel who would interact with Authority staff in the performance of services, contractor's submission form describing similar projects completed and the company's responsibilities, and eligibility for small business participation under the Authority Policy 5.12, *Preference to Small Business*).

Upon conclusion of the evaluation process, the short-listed respondents were ranked as follows:

Funding is available within the Facilities Management Operations & Maintenance budget for Major Maintenance and the Authority's Capital Improvement Program budget for capitalized maintenance projects

Environmental Review:

- A. This Board action is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act (CEQA), as amended. 14 Cal. Code Regs. Section 15378. This Board action is not a "project" subject to CEQA. Pub. Res. Code Section 21065.

Equal Opportunity Program:

The Authority's small business program promotes the utilization of small, local, disadvantaged, and other business enterprises, on all contracts, to provide equal opportunity for qualified firms. By providing education programs, making resources available, and communicating through effective outreach, the Authority strives for diversity in all contracting opportunities.

The Authority has a Disadvantaged Business Enterprise ("DBE") Plan as required by the Department of Transportation, 49 CFR Part 26. The DBE Plan calls for the Authority to submit an annual overall goal for DBE participation on all federally funded projects.

This project does not utilize federal funds; therefore, it will not be applied toward the Authority's over-all DBE goal.
