

SAN DIEGO COUNTY  
REGIONAL AIRPORT AUTHORITY  
**AUDIT COMMITTEE**

Item No.  
**3**

Meeting Date: **NOVEMBER 14, 2011**

**Subject:**

**External Auditor's Fiscal Year Ended June 30, 2011, Reports: A) Audited Financial Statements, B) Compliance (Single Audit) Report, C) Passenger Facility Charge Compliance Report, D) Customer Facility Charge Compliance Report, and E) Report to the Audit Committee**

**Recommendation:**

Staff recommends that the Audit Committee forward this item to the Board for acceptance.

**Background/Justification:**

Generally accepted auditing standards and government auditing standards require that an independent external auditor perform an annual audit to obtain reasonable assurance that the financial reports are free of material misstatement, whether caused by error, fraudulent financial reporting or misappropriation of assets.

The external auditor, McGladrey & Pullen, LLP, performed the annual audit of the Authority's financial statements for the fiscal year ended June 30, 2011 (See Attachments A through E). The financial statements indicate that the Authority was in a sound financial position as of June 30, 2011.

**Fiscal Impact:**

None

**Authority Strategies:**

This item supports one or more of the Authority Strategies, as follows:

- |   |  |  |  |   |
|---|--|--|--|---|
| <input type="checkbox"/> Community Strategy | <input type="checkbox"/> Customer Strategy | <input type="checkbox"/> Employee Strategy | <input checked="" type="checkbox"/> Financial Strategy | <input checked="" type="checkbox"/> Operations Strategy |
|---|--|--|--|---|

**Environmental Review:**

1. This Board action, as an administrative action, is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act (CEQA), as amended. 14 Cal. Code Regs. §15378. This Board action is not a "project" subject to CEQA, Cal. Pub. Res. Code §21065.
2. This Board action is not a "development" as defined by the California Coastal Act. Cal. Pub. Res. Code §30106.

**Equal Opportunity Program:**

Not applicable

**Prepared by:**

MARK A. BURCHYETT  
CHIEF AUDITOR

# **San Diego County Regional Airport Authority**

Financial Report  
June 30, 2011

## Contents

Independent Auditor's Report	1
Financial Section	
Management's discussion and analysis	2-16
Basic financial statements:	
Balance sheets	17-18
Statements of revenues, expenses and change in net assets	19-20
Statements of cash flows	21-22
Notes to financial statements	23-58

## Independent Auditor's Report

To the Members of the Board  
San Diego County Regional Airport Authority  
San Diego, CA

We have audited the accompanying basic financial statements of the San Diego County Regional Airport Authority (the Airport Authority) as of and for the years ended June 30, 2011 and 2010, as listed in the table of contents. These financial statements are the responsibility of the Airport Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Airport Authority as of June 30, 2011 and 2010, and the changes in its financial position and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2011 on our consideration of the Airport Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis, as listed in the table of contents, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

*McGladrey & Pullen, LLP*

San Diego, CA

## **SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY**

### **MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE PERIOD JULY 1, 2010 TO JUNE 30, 2011**

#### **INTRODUCTION**

This section of the San Diego County Regional Airport Authority's (the Airport Authority) Comprehensive Annual Financial Report presents a narrative overview and analysis of the financial activities of the Airport Authority for the fiscal years ended June 30, 2011 and 2010.

The Airport Authority was established on January 1, 2002, as an independent agency. On January 1, 2003, the operations and assets of San Diego International Airport (SDIA), transferred from the San Diego Unified Port District (District) to the Airport Authority. The Airport Authority adopted a June 30 fiscal year and produced its first audited financial statements for the six months ended June 30, 2003.

#### **USING THE FINANCIAL STATEMENTS**

The financial section of this annual report consists of three parts: Management's Discussion and Analysis (MD&A), the basic financial statements, and the notes to the financial statements. The report includes the following three basic financial statements: the balance sheet, the statement of revenues, expenses and change in net assets, and the statement of cash flows. The accompanying notes to the financial statements are essential to a full understanding of the data contained in the financial statements.

The comparative Balance Sheets depict the Airport Authority's financial position as of a point in time—June 30, 2011, and June 30, 2010—and include all assets and liabilities of the Airport Authority. The Balance Sheets demonstrate that the Airport Authority's assets minus liabilities equal net assets. Net assets represent the residual interest in the Airport Authority's assets after liabilities are deducted. Net assets are displayed in three components: invested in capital assets, net of related debt; restricted; and unrestricted.

The comparative Statements of Revenues, Expenses and Change in Net Assets report total operating revenues, operating expenses, nonoperating revenues and expenses, and change in Airport Authority net assets for the years ended June 30, 2011 and 2010. Revenues and expenses are categorized as either operating or nonoperating, based upon management's policy as established in accordance with definitions set forth in Governmental Accounting Standards Board (GASB) No. 33 and GASB No. 34. Significant recurring sources of the Airport Authority's revenues, including Passenger Facility Charges (PFC), Customer Facility Charges (CFC) and investment income, are reported as nonoperating revenues. The Airport Authority's interest expense is reported as nonoperating expense. Capital grant contributions represent grants for capital improvement purposes.

The comparative Statements of Cash Flows present information showing how the Airport Authority's cash and cash equivalents position changed during the fiscal year. The Statements of Cash Flows classify cash receipts and cash payments resulting from operating activities, capital and related financing activities, and investing activities.

The Airport Authority is a self-sustaining entity receiving most of its revenues through airline user charges and rents from the concessionaires operating at or near SDIA. Since the Airport Authority is not funded by tax revenues, accounts are maintained in an enterprise fund on the accrual basis of accounting. Under accrual accounting, revenues are recognized as soon as they are earned, and expenses are recognized as soon as a liability is incurred, regardless of the timing of related cash inflows and outflows. Users of SDIA's facilities provide most of the revenues to operate, maintain, and acquire necessary services and facilities.

## ***SAN DIEGO INTERNATIONAL AIRPORT***

### ***History of Ownership***

The public policy decision to transfer responsibility for SDIA from the District to the newly created Airport Authority emanated from recommendations made by the San Diego Regional Efficiency Commission (Commission). The Commission was established to evaluate regional governance in San Diego County and report to the California State Legislature on measures to improve it.

Because of the significant regional consequences of airport development and operations, the Commission concluded that a regional decision-making process should address the future development of airport facilities in San Diego County. In October 2001, the enabling legislation, Assembly Bill 93 (AB 93) established the composition and jurisdiction of the Authority's governing body in a manner that is designed to reflect the collective interests of the entire San Diego region.

The policymakers recognized the complexity of transferring a commercial airport to a newly created entity. To ensure a smooth transition, the Airport Authority was vested with the responsibility to develop and execute an Airport Transition Plan with the complete support and cooperation of the District, the Federal Aviation Administration and the State of California.

### ***Legislative Background***

AB 93 was signed into California State law in October 2001. AB 93 established the Airport Authority on January 1, 2002, as a local agency of regional government with jurisdiction throughout the County of San Diego. Subsequent legislative changes to AB 93 were introduced and passed in California Senate Bill 1896 (the Act). The amendment addresses several points pertaining to the transfer of aviation employees, date of transfer, property leases, property acquisition and purchase of services from the District.

On January 1, 2008, Senate Bill 10, the San Diego County Regional Airport Authority Reform Act, was enacted into law expanding the responsibilities of the Airport Authority. The Airport Authority is vested with five principal responsibilities:

- (1) Operation of SDIA.
- (2) Planning and operation of any future airport that could be developed as a supplement or replacement to SDIA.
- (3) Development of comprehensive airport land use compatibility plans for the airports in the County of San Diego.
- (4) Serving as the region's Airport Land Use Commission.
- (5) Preparation of a Regional Aviation Strategic Plan, which was completed in fiscal year 2011.

### ***Transfer of Assets and Liabilities/Joint Audit***

The Airport Authority and District collaboratively developed a financial Memorandum of Understanding (MOU) outlining the essential aspects of the Airport Transfer, including the timely transfer and identification of assets and liabilities relating specifically to SDIA's asset and operations transfer on January 1, 2003. The MOU addresses the transfer process, litigation matters, utility obligations and treatment of employees.

The Airport Authority and the District commissioned a joint audit in accordance with the Act. Independent auditors, McGladrey & Pullen, LLP, issued an audit report dated June 13, 2003, on the Airport Authority's balance sheet as of January 1, 2003. In addition, they prepared an audit report dated October 17, 2003, on the Airport Authority's finances for the first six months of operation ending June 30, 2003.

### ***Airport Activities Highlights***

After experiencing enplanement growth in fiscal years 2008, the Airport Authority experienced a decline in enplanements in fiscal years 2009, 2010 and 2011 as did almost all commercial airports across the country due to the downturn in the economy.

The changes in the SDIA's major activities for the current and prior three fiscal years are as follows:

	FY 2009	FY 2010	FY 2011
Enplaned Passengers	8,535,774	8,453,886	<b>8,441,120</b>
% increase (decrease)	(9.1) %	(1.0) %	<b>(0.2) %</b>
Total Passengers	17,073,886	16,917,595	<b>16,868,732</b>
% increase (decrease)	(9.1) %	(0.9) %	<b>(0.3) %</b>
Aircraft Operations	206,675	194,508	<b>186,181</b>
% increase (decrease)	(11.8) %	(5.9) %	<b>(4.3) %</b>
Freight and Mail (in tons)	120,782	125,513	<b>129,961</b>
% increase (decrease)	(16.4) %	3.9 %	<b>3.5 %</b>
Landed Weight (in thousands)	11,279	10,893	<b>10,606</b>
% increase (decrease)	(9.7) %	(3.4) %	<b>(2.6) %</b>

SDIA is a destination airport and is not a hub for any airlines. Further, there is a balanced mixture of SDIA travelers of 50 percent leisure and 50 percent business. These factors generally add to the stability of SDIA enplanements in comparison to most airports. However, SDIA continued to decline in enplanements by 0.2 percent in fiscal year 2011 compared to 2010, and by 1.0 percent in fiscal year 2010 compared to 2009, as the U.S. and local economies went into a steep recession. Prior to the economic downturn, SDIA showed healthy growth of 5.6 percent in passenger enplanements in fiscal year 2008, despite continued financial turmoil in the airline industry.

Overall SDIA experienced declines in aircraft operations of 4.3 percent, an increase in freight and mail of 3.5 percent, and decreased landed weight of 2.6 percent in fiscal year 2011. Most of these reductions are attributed to the economic recession. In comparison to fiscal years 2009 and 2010 most of the declines have leveled off.

**Statement of Revenues, Expenses and Change in Net Assets (in thousands)**

The metric 'Change in Net Assets' is an indicator of whether the Authority's overall financial condition has improved or deteriorated during the fiscal year. Net assets consistently increased from a healthy 9.2 percent in 2010 to another healthy increase of 8.3 percent for the year ended June 30, 2011. Following is a summary of the statements of revenues, expenses and change in net assets (in thousands):

	FY2009	FY2010	FY2011
Operating revenues	\$ 130,977	\$ 133,695	\$ 144,007
Operating expenses	(153,474)	(159,712)	(166,979)
Nonoperating revenues, net	35,913	45,937	43,419
Capital grant contributions	4,645	27,350	26,355
Increase in net assets	18,061	47,270	46,802
Net assets, beginning of year	495,121	513,182	560,452
Net assets, end of year	\$ 513,182	\$ 560,452	\$ 607,254

Detailed descriptions of the components of operating revenues and expenses, and nonoperating revenues and expenses are described in the sections following.

## FINANCIAL HIGHLIGHTS

### Operating Revenues (in thousands)

	FY 2010	FY 2011	From 2010 to 2011	
			Increase (Decrease)	% Change
Airline revenue:				
Landing fees	\$ 18,672	\$ 18,578	\$ (94)	(0.5) %
Aircraft parking fees	3,406	2,921	(485)	(14.3) %
Building rentals	22,971	26,980	4,009	17.5 %
Security surcharge	11,900	14,887	2,987	25.1 %
Other aviation revenue	1,585	1,597	12	0.8 %
Total airline revenue	58,534	64,963	6,429	11.0 %
Non airline terminal rent	864	869	5	0.6 %
Concession revenue	36,249	37,103	854	2.4 %
Parking and ground transportation revenue	30,296	31,645	1,349	4.5 %
Ground rentals	5,923	7,787	1,864	31.4 %
Other operating revenue	1,829	1,640	(189)	(10.3) %
Total operating revenue	\$ 133,695	\$ 144,007	\$ 10,312	7.7 %

	FY 2009	FY 2010	From 2009 to 2010	
			Increase (Decrease)	% Change
Airline revenue:				
Landing fees	\$ 18,689	\$ 18,672	\$ (17)	(0.1) %
Aircraft parking fees	3,221	3,406	185	5.7 %
Building rentals	22,195	22,971	776	3.5 %
Security surcharge	10,204	11,900	1,696	16.6 %
Other aviation revenue	1,565	1,585	20	1.3 %
Total airline revenue	55,874	58,534	2,660	4.8 %
Non airline terminal rent	862	864	2	0.2 %
Concession revenue	36,280	36,249	(31)	(0.1) %
Parking and ground transportation revenue	31,492	30,296	(1,196)	(3.8) %
Ground rentals	5,776	5,923	147	2.5 %
Other operating revenue	693	1,829	1,136	163.9 %
Total operating revenue	\$ 130,977	\$ 133,695	\$ 2,718	2.1 %

Fiscal year 2011 compared to 2010: Airline revenue billed to the airlines on a progressive cost recovery system was slightly higher in fiscal year 2011 in comparison to 2010 by approximately \$6.4 million, due to the graduated rate increase from 50 percent to 55 percent for building rentals and 55 percent to 70 percent for security surcharge. Parking revenues increased by approximately \$1.3 million for 2011 due to rate increases for short term parking effective July, 2010 and also long term parking had rate increases in two locations in April, 2011. Ground rentals increased by \$1.9 million due to new lease agreements with FedEx, Southwest, and UPS.

### ***Operating Revenues (Continued)***

Fiscal year 2010 compared to 2009: Airline revenue billed to the airlines on a progressive cost recovery system was slightly higher in fiscal year 2010 in comparison to 2009 due to the graduated rate increase from 45 percent to 55 percent. Parking revenues decreased by approximately \$1.2 million for 2010 due to reduced enplanements and transactions compared to 2009. The 2010 increase in other operating revenue is primarily due to the federal grant reimbursement of approximately \$1.0 million for the Regional Aviation Strategic Plan (RASP), a requirement of SB 10.

#### **San Diego County Regional Airport Authority Fiscal Year Ended June 30, 2011 Operating Revenues**

**Operating Expenses (in thousands)**

	FY 2010	FY 2011	From 2010 to 2011	
			Increase (Decrease)	% Change

Total operating expenses	\$ 153,475	\$ 159,712	\$ 6,237	4.1 %

### ***Operating Expenses (Continued)***

Fiscal year 2011 compared to 2010: Fiscal year 2011 operating expenses before depreciation and amortization expense are only slightly higher, growing \$553 thousand, 0.5 percent, from \$117.3 million to \$117.8 million, when compared to 2010. Contributing to this increase are the following: increased salaries and benefits expense, \$2.9 million, primarily due to increased costs of medical and retirement benefits; increased security and safety by \$1.2 million due to utilization of emergency services reflecting the increased costs of salaries and benefits; and business development by \$242 thousand, due to marketing and promotions for the new British Airways daily international flight.

The small 2011 increase was due to continued cost containment and was also reflected by decreased contractual services by \$1.9 million, primarily due to decreased consultants for airport planning; decreased utilities by \$458 thousand due to implementation of energy and efficiency modifications to existing equipment; decreased maintenance by \$1.1 million due to decreased elevator and escalators expenses; equipment and systems decreased by \$321 thousand due to replacement schedule of computers and small equipment replaced in 2010; and insurance expense decreased by \$100 thousand, due to negotiated premium savings.

Total operating expenses increased \$7.3 million from \$159.7 million to \$166.9 million, or 4.5 percent, primarily due to depreciation and amortization expense of \$6.7 million. In fiscal year 2011, \$51.3 million of capital projects were completed and placed in service. They consisted of \$32 million in Taxiway C improvements, \$5 million in airfield signs, \$4 million in parking improvements, \$2 million in roadway access improvements, \$1 million in waterline fire suppression improvements, and many smaller projects.

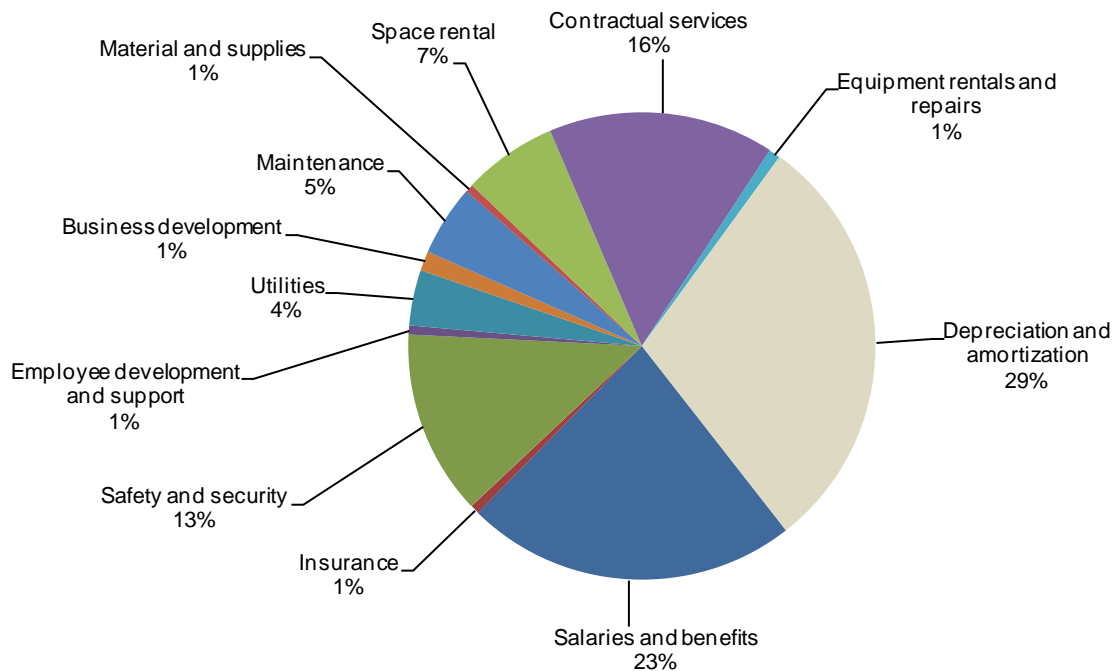

Fiscal year 2010 compared to 2009: Fiscal year 2010 operating expenses before depreciation and amortization expense are only slightly higher, growing \$2.0 million, or 1.7 percent, from \$115 million to \$117 million, when compared to 2009. Contributing to this increase are the following: increased salaries and benefits expense, \$645 thousand, primarily due to increase costs of medical and retirement benefits, (the continued hiring freeze contributes to a lower increased variance); increased contractual services, \$534 thousand, primarily due to a new Federal Acquisition Regulation 150 study to map qualified homeowners as candidates for the Quieter Home Program; increased security and safety by \$201 thousand, due to the required utilization of the Port Authority Harbor Police reflecting the increased costs of their salaries and benefits; increased maintenance expenses by \$1.2 million, due to increased maintenance of escalators, elevators, air conditioning system and pavement restriping; increased equipment and systems, \$213 thousand, due to replacement of small computer equipment and servers.

The small 2010 increase was due to continued cost containment and was also reflected by decreased materials and supplies expense by \$228 thousand, and business development expense by \$476 thousand, resulted from decreased travel and recovery of bad debt; as well as, decreased equipment rentals and repairs by \$116 thousand, primarily due to decreased costs of tenant leasehold improvements.

Total operating expenses increased \$6.2 million from \$153.5 million to \$159.7 million, or 4.1 percent, primarily due to depreciation and amortization expense of \$4.2 million. In fiscal year 2010, \$48 million of capital projects were completed and placed in service. They consisted of \$6 million in Terminal 1 electrical upgrades, \$7 million in security improvements, \$6 million in replacement of escalators, \$4 million in software for the engineering department, \$3.4 million in renovation and build out of offices, \$1 million, airport terminal EVIDS (Electronic Visual Information Display System), and many smaller projects.

***Operating Expenses (Continued)***

**San Diego County Regional Airport Authority Fiscal Year Ended June 30, 2011  
Operating Expenses**

**Nonoperating Revenues and Expenses (in thousands)**

	FY 2010	FY 2011	From 2010 to 2011	
			Increase (Decrease)	% Change
Passenger facility charge	\$ 34,049	\$ 33,998	\$ (51)	(0.1) %
Customer facility charge	10,783	10,986	203	2.0 %
Quieter Home Program, net	(1,629)	(3,359)	(1,730)	(106.2) %
Joint Studies Program	(245)	(129)	116	47.7 %
Interest income	6,667	10,100	3,433	51.4 %
Interest expense	(2,684)	(8,084)	(5,400)	51.5 %
Other nonoperating income (expenses)	(1,004)	(93)	911	(90.8) %
Nonoperating revenues, net	\$ 45,937	\$ 43,419	\$ (2,518)	5.5 %

	FY 2009	FY 2010	From 2009 to 2010	
			Increase (Decrease)	% Change
Passenger facility charge	\$ 33,219	\$ 34,049	\$ 830	2.5 %
Customer facility charge	1,695	10,783	9,088	536.1 %
Quieter Home Program, net	(5,574)	(1,629)	3,945	70.8 %
Joint Studies Program	(179)	(245)	(66)	(36.9) %
Interest income	9,434	6,667	(2,767)	(29.3) %
Interest expense	(2,998)	(2,684)	314	10.5 %
Other nonoperating income (expenses)	316	(1,004)	(1,320)	423.8 %
Nonoperating revenues, net	\$ 35,913	\$ 45,937	\$ 10,024	27.9 %

**Passenger Facility Charges (PFCs)** were established by Congress in 1990 as part of the Aviation Safety and Capacity Expansion Act of 1990. The Authority collects a \$4.50 PFC from revenue enplaned passengers to pay for the cost to design and construct eligible Airport capital projects or to repay debt service issued to build such projects. PFCs are collected by the air carriers when passengers purchase their tickets and are remitted to the Authority the month following collection less a \$0.11 administration fee.

**Customer Facility Charges (CFCs)** in May, 2009 the Authority began collecting a \$10 per contract CFC on rental cars, which fees are authorized under Section 1936 of the California Civil Code and approved by legislation under Senate Bill 1510. The revenues collected will be used to plan and construct a consolidated rental car facility and improved transportation system. The rental car agencies remit to the Authority collection of the fee monthly.

**Quieter Home Program** includes sound attenuation construction improvements at all eligible single-family and multifamily dwellings with six or fewer units located in the Year 2000 65 dB Community Noise Equivalent Level contour. The project is eligible for the Airport Improvement Program (AIP). From inception to June 30, 2011, the Airport Authority has spent \$119.4 million and received reimbursement for \$96.2 million.

**Interest income** is derived from interest earned by the Airport Authority on investments, commercial paper reserves, bond reserves, Build America Bond rebates on 2010 Series B bond and notes receivable from the District.

### ***Nonoperating Revenues and Expenses (Continued)***

**Interest expense** includes interest paid and accrued on the 2005 and 2010 Series Bonds and Commercial Paper Series A, B and C.

**Other nonoperating income (expense)** includes proceeds and expenses for legal settlements, gain (loss) on the sale of fixed assets, unrealized gain (loss) on investments, and other miscellaneous revenue and expenses.

### ***Capital Grant Contributions***

The Airport Authority receives Airport Improvement Program (AIP) entitlement and discretionary grants through the Federal Aviation Administration (FAA) and other Federal and state organizations. These funds are recognized as revenue as the work is completed on the eligible projects. Variances relate to the amount of work completed on eligible projects during the fiscal year.

Fiscal year 2011 compared to 2010: Nonoperating revenue (net) decreased by \$2.5 million, or 5.5 percent. This is primarily due to the Quieter Home Program which decreased \$1.7 million, due to the timing of when invoices were paid to become eligible for FAA grant reimbursement. Interest expense increased \$5.4 million, due to the \$573 million 2010 bond issuance in October, 2010. Offsetting the decrease was the \$203 thousand increase in CFCs, \$116 thousand decrease in Joint studies, \$3.4 million increase in interest income on Build American bonds rebate on the 2010 Series B bonds issued October, 2010, and \$911 thousand increase in other nonoperating expenses.

Fiscal year 2010 compared to 2009: Nonoperating revenue (net) increased by \$10.0 million, or 27.9 percent. This is primarily due to the \$9.1 million of collection of CFCs, which began May, 2009. PFCs have slightly increased by \$830 thousand, due to the timing of when passengers book their flights, compared to the overall reduction of enplanements, at 1.2 percent. The Quieter Home Program increased \$3.9 million as a result of an expanded program and the timing of when invoices were paid to become eligible for FAA grant reimbursement. Interest income decreased \$2.8 million, primarily due to decreased rate of return on invested funds and interest expense decreased \$315 thousand, due to lower interest rates and despite a larger outstanding commercial paper balance. Other nonoperating expenses compared to 2009 increased \$1.3 million due to unrealized losses on market value of investments.

## **Assets, Liabilities and Net Assets**

The balance sheets present the financial position of the Airport Authority at June 30, 2009, 2010 and 2011. The statements include all assets, liabilities and net assets of the Airport Authority. A summary comparison of the Airport Authority's assets, liabilities and net assets at June 30, 2009, 2010, and 2011 is as follows:

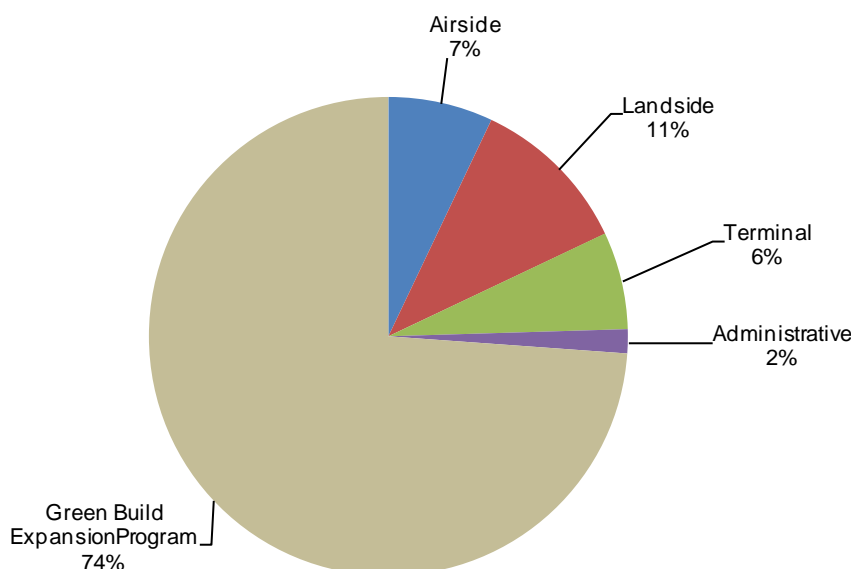

<i>(in thousands)</i>	FY2009	FY2010	FY2011
<b>Assets</b>			
Current assets	\$ 78,954	\$ 128,219	\$ 110,397
Capital assets, net	380,549	483,717	625,421
Noncurrent assets	231,716	212,207	610,823
<b>Total assets</b>	<b>\$ 691,219</b>	<b>\$ 824,143</b>	<b>\$ 1,346,641</b>
<b>Liabilities</b>			
Current liabilities	\$ 47,029	\$ 56,219	\$ 82,149
Long-term liabilities	131,007	207,472	657,238
<b>Total liabilities</b>	<b>178,036</b>	<b>263,691</b>	<b>739,387</b>
<b>Net Assets</b>			
Invested in capital assets, net of related debt	249,498	275,556	357,275
Bond reserves, unapplied PFCs and other restricted	167,827	139,672	147,513
Unrestricted	95,858	145,224	102,466
<b>Total net assets</b>	<b>513,183</b>	<b>560,452</b>	<b>607,254</b>
<b>Total liabilities and net assets</b>	<b>\$ 691,219</b>	<b>\$ 824,143</b>	<b>\$ 1,346,641</b>

As of June 30, 2011, the Airport Authority's assets exceeded liabilities by \$607 million, a \$47 million increase over June 30, 2010 and comparing 2010 to 2009, another \$47 million increase over June 30, 2009. The largest portion of the Airport Authority's net assets represents its investment in capital assets, less the amount of associated debt outstanding. The Airport Authority uses these capital assets to provide services to its passengers and other users of SDIA; consequently, these assets cannot be sold or otherwise liquidated. Although the Airport Authority's investment in its capital assets is reported net of related debt, it is noted that the funds required to repay this debt must be provided annually from operations. The remaining unrestricted net assets of \$102 million as of June 30, 2011, \$145 million as of 2010 and \$96 million as of 2009, may be used to meet any of the Airport Authority's ongoing obligations. As of June 30, 2011, 2010, and 2009 management has designated unrestricted funds in the amount of \$16 million, \$21 million and \$6 million, respectively, for capital contract commitments funded by Airport Authority cash, earthquake insurance and unspent commercial paper for capital projects. In addition, as of fiscal years ended 2011, 2010, and 2009, management has designated unrestricted net assets of \$8 million, \$6 million and \$5 million respectively for operating and insurance contingencies.

### **Capital Asset and Capital Improvement Program**

The funds used for capital improvements or to expand SDIA's facilities are derived from several sources, including the FAA, Transportation Security Administration or TSA and AIP grants, PFCs, CFCs, debt and SDIA funds. In fiscal year 2011, SDIA's \$1.2 billion capital improvement program (CIP) was funded under two debt options. A pay-as-you-go approach utilizing commercial paper program, for short-term funding needs and long term funding needs included 2010 Airport Revenue Bonds to be used for the \$864 million Terminal Development Program/ "The Green Build." The Green Build is projected to be completed by 2013. The current CIP, which includes projects through 2015, consists of \$156 million for airside projects, \$74.4 million for landside projects, \$120 million for terminal projects, and \$26 million for administrative projects. The current SDIA CIP does not include noise reduction, and related projects.

**Capital Improvement Program (CIP) Projects by Type**

Among the larger projects undertaken during fiscal year 2011 was the Taxiway C improvements, \$32 million, to expand the taxiway in compliance with FAA requirements.

Additional information of the Airport Authority's capital assets can be found in Note 4 to the financial statements on pages 39-40 of this report.

## ***Capital Financing and Debt Management***

In October 2005, the Airport Authority sold \$56.3 million of San Diego County Regional Airport Authority Airport Revenue Refunding Bonds Series 2005. This refunded the outstanding Series 1995 Airport revenue bonds that were issued by the District in 1995 through the California Maritime Infrastructure Authority for the expansion of Terminal 2. The Series 2005 Bonds were issued in the aggregate principal amount of \$56.3 million and were structured as serial bonds that bear interest at rates ranging from 4.5 percent to 5.25 percent maturing in fiscal years 2007 to 2021. Interest on the bonds is payable semiannually on January 1 and July 1 of each year.

The Series 2005 Bonds are payable solely from and secured by "Pledged Revenues." Pledged Revenues are defined as all revenues and other cash receipts of the Airport Authority's airport operations, reduced by operation and maintenance expenses. Pledged Revenues do not include cash received from Passenger Facility Charges, PFCs, or federal grants.

The Series 2005 Bonds require that charges for services be set each fiscal year at rates sufficient to produce Pledged Revenues of at least 125 percent of debt service for that year.

As of June 30, 2011, \$41.2 million in bonds were outstanding. The ratings of the Series 2005 Bonds as of June 30, 2011 and 2010, are A+/A1/A+ by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively. Additionally, the Airport Authority holds a fully funded debt service reserve equal to one year's annual debt service.

On October 5, 2010, the Airport Authority issued \$572.6 million of Series A, B and C subordinate airport revenue bonds. The subordinate Series 2010 Bonds were issued to finance certain capital improvements at SDIA, fund a portion of the interest accruing on the subordinate Series 2010 Bonds through and including January 1, 2013, refund \$142.2 million of the Airport Authority's outstanding commercial paper notes, fund the subordinate reserve fund and pay the costs of issuance of the subordinate Series 2010 Bonds.

The Series A and B bonds were structured as serial bonds that bear interest at rates ranging from 2 percent to 5 percent and mature in fiscal years 2012 to 2041. The Series C bonds were issued as Build America Bonds and include a cash subsidy payment from the U. S. Treasury equal to 35 percent of interest payable. The interest rate on the Series C bonds, net of subsidy, is 4.31 percent and the bonds mature in fiscal year 2041.

The subordinate Series 2010 Bonds are special obligations of the Airport Authority, payable from and secured by (a) a pledge of subordinate net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system and all amounts necessary to pay debt service on and fund the reserves for the senior bonds; and (b) certain funds and accounts held by the subordinate trustee under the subordinate indenture. The subordinate Series 2010 Bonds were issued with a pledge of and lien on subordinate net revenues on parity with the Airport Authority's subordinate commercial paper notes. In addition, the Airport Authority has irrevocably committed a portion of the Passenger Facility Charges, PFCs, it has received and expects to receive through 2016. The amounts of irrevocably committed PFCs are \$14.7 million, for fiscal year 2013, and \$19 million annually for fiscal years 2014 through 2016. As of June 30, 2011, the principal balance on the subordinate Series 2010 Bonds was \$572.6 million.

As of June 30, 2011, \$21.5 million in commercial paper was outstanding. The commercial paper program was established in 1997 to fund the then-approved CIP and related Terminal 2 expansion projects. The Airport Authority's outstanding commercial paper, Series A (non AMT), Series B (AMT) and Series C (taxable) is secured by a pledge of airport revenues, subordinated to the pledge of net airport revenues securing the payment of the Series 2005 Bonds. The authorized program provides for borrowings up to \$250 million through September 1, 2027. Each commercial paper note matures at the end of a period not to exceed 270 days and can be continually rolled into another issuance until the earlier of September 10, 2014, or five days prior to the date. At that time, the total outstanding principal becomes due. The commercial paper notes require that the charges for services be set each year at rates sufficient to produce Pledged Revenues of at least 1.10 times the debt service on subordinate obligations, including the commercial paper notes, for that year.

Each series of notes are additionally secured by an irrevocable letter of credit issued by Lloyds TSB Bank plc and is rated A-1 by Standard & Poor's and P-1 by Moody's Investors Service. The letter of credit expires on September 10, 2014. Interest on the notes is paid at a rate based on the market for similar commercial paper notes.

Additional information of the Airport Authority's long-term debt can be found in Note 5 to the financial statements on pages 41-45 of this report.

The SDIA's PFC program was established in 1994, and currently authorizes the imposition of a \$4.50 fee on enplaning passengers. There are currently four active applications which provide collection authority through October 2036. A ninth application is expected to be approved January 2012.

FAA entitlement and discretionary grants are awarded on a federal fiscal year running October 1 through September 30. The Airport Authority has received approximately \$10.1 million in grant awards for the federal fiscal year ended September 30, 2011, and \$51.6 million in 2010. Grant awards are recognized as income/contributions as eligible expenses are incurred.

### **REQUEST FOR INFORMATION**

This financial report is designed to provide a general overview of the Airport Authority's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed in writing to the Accounting Department, P.O. Box 82776, San Diego, CA 92138. The Accounting Department can also be reached at (619) 400-2807. A copy of the financial report is available at [www.san.org](http://www.san.org).

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies

**Reporting entity:** The San Diego County Regional Airport Authority (the Airport Authority), an autonomous public agency, was established as a result of legislation, Assembly Bill 93 (2001), as modified by Senate Bill 1896 (2002), which together comprise the San Diego County Regional Airport Authority Act (the Act). The Act required, among other things, the transfer of the assets and operations of the San Diego International Airport (SDIA) from the San Diego Unified Port District (the District) to the Airport Authority. Effective January 1, 2003 (inception), the District transferred all airport operations and certain related assets and liabilities to the Airport Authority, pursuant to the Act and the Memorandum of Understanding (MOU) dated as of December 31, 2002, between the Airport Authority and the District, which implemented the Act.

Senate Bill 10, the San Diego County Regional Airport Authority Reform Act, was effective January 1, 2008. Responsibilities of the Airport Authority include, among other things, the operation, maintenance, development, management and regulation of SDIA and its facilities. In addition, the Airport Authority has the responsibility to plan or to expand the existing SDIA. Under one of the requirements of Senate Bill 10, the Airport Authority completed a Regional Aviation Strategic Plan and by December 31, 2013 the Airport Authority will prepare and adopt an Airport Multimodal Accessibility Plan. In addition, the Airport Authority acts as the Airport Land Use Commission within San Diego County.

In accordance with the Codification of Governmental Accounting and Financial Reporting Standards, the basic financial statements include all organizations, agencies, boards, commissions and authorities for which the Airport Authority is financially accountable. The Airport Authority has also considered all other potential organizations for which the nature and significance of their relationships with the Airport Authority are such that exclusion would cause the Airport Authority's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing the majority of an organization's governing body and (1) the ability of the Airport Authority to impose its will on that organization or (2) the potential for that organization to provide specific benefits to, or impose specific financial burdens on, the Airport Authority. Based on these criteria, there are no other organizations or agencies which should be included in these basic financial statements.

**Measurement focus and basis of accounting:** The accounting policies of the Airport Authority conform to accounting principles generally accepted in the United States of America applicable to state and local government agencies, and as such, the Airport Authority is accounted for as a proprietary fund. The basic financial statements presented are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. This measurement focus emphasizes the determination of the change in Airport Authority net assets. Private sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed by the Airport Authority to the extent that those standards do not conflict with or contradict guidance of the GASB. The Airport Authority also has the option of following subsequent private-sector guidance for its activities subject to the same limitation. The Airport Authority has elected to follow the standards set by the GASB, as opposed to subsequently issued private sector guidance.

The financial statements are presented in accordance with GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and related GASB pronouncements.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

**Evaluation of long-lived assets:** The Airport Authority accounts for long-lived assets under GASB No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. The Airport Authority's capital assets include property, equipment and infrastructure assets. A capital asset is considered impaired if both the decline in service utility of the capital asset is large in magnitude and the event or change in circumstances is outside the normal life cycle of the capital asset. The Airport Authority is required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Common indicators of impairment include evidence of physical damage where restoration efforts are needed to restore service utility, enactment or approval of laws or regulations setting standards that the capital asset would not be able to meet, technological development or evidence of obsolescence, a change in the manner or expected duration of use of a capital asset or construction stoppage. This Statement requires the Airport Authority to report the effects of capital asset impairments in its financial statements when they occur and to account for insurance recoveries in the same manner. The Airport Authority's management has determined that no impairment of capital assets currently exists.

**Use of estimates:** The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Investments:** Investments in the state and county investment pools are recorded at fair value based upon the Airport Authority's pro rata share of the fair value provided by the state and county investment pools for the entire respective pool. Guaranteed investment contracts are recorded at contract value. All other investments are stated at fair market value based on quoted market prices.

**Tenant lease receivables:** Tenant lease receivables are carried at the original invoice amount for fixed-rent tenants and at estimated invoice amount for concession (variable) tenants, less an estimate made for doubtful receivables for both fixed-rent and concession tenants, based on a review of all outstanding amounts. Management determines the allowance for doubtful accounts by evaluating individual tenant receivables and considering a tenant's financial condition and credit history and current economic conditions. Tenant lease receivables are written off when deemed uncollectible. Recoveries of tenant lease receivables previously written off are recorded when received.

**Restricted assets:** Funds are set aside as restricted, and they are not available for current expenses, when constraints placed on their use are legally enforceable due to either:

- Externally imposed requirements by creditors (such as through debt covenants), grantors or contributors.
- Laws or regulations of other governments.
- Constitutional provisions or enabling legislation.

The Airport Authority's policy is to use restricted resources before unrestricted resources for expenses incurred for which both restricted and unrestricted net assets are available.

**Designated assets:** The Airport Authority's management designates funds for capital projects and other specific commitments; these funds would otherwise be available for operations. At June 30, 2011 and 2010, management had designated funds for specific approved capital projects, unspent commercial paper draws and other commitments totaling \$8,148,558 and \$20,895,687, respectively.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

**Capital assets:** Capital assets are recorded at cost, except for property contributed by third parties, which is recorded at fair market value at the date of contribution, less an allowance for accumulated depreciation. The Airport Authority capitalizes incremental overhead costs and interest cost associated with the construction of capital assets.

Capital assets are defined by the Airport Authority as assets with an initial, individual cost of more than \$5,000 and an initial useful life of one year or greater. Depreciation is computed by use of the straight-line method over the following estimated useful lives:

Land improvements	30 to 40 years
Runways, taxiways, roads and parking areas	5 to 30 years
Buildings, structures and improvements	5 to 30 years
Machinery and equipment	3 to 10 years

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as construction in process as projects are constructed.

**Net pension asset:** The Airport Authority budgets for a 90 percent funding ratio with respect to its defined pension plan which results in additional contributions to the plan over its annual required contribution (ARC). The difference between the Airport Authority's actual contributions and ARCs results in a net pension asset.

**Airport Improvement Program (AIP):** The District initially received approval from the Federal Aviation Administration (FAA) for Airport Improvement Program (AIP) grants. These grants transferred to the Airport Authority, effective January 1, 2003. AIP grants are authorized and disbursed by the FAA under the Airway Improvement Act of 1982, as amended, which provides funding for airport planning and development projects at airports included in the National Plan of Integrated Airport Systems. As such, the AIP grants must be used to pay for the allowable costs of approved projects. Receipts from federal programs are subject to audit to determine if the funds were used in accordance with the applicable regulations. The Airport Authority believes that no significant liabilities to the Airport Authority would result from such an audit.

**Passenger facility charges (PFC):** The District initially received approval from the FAA to impose a PFC at SDIA. The approval for the PFC was transferred by the FAA to the Airport Authority, effective January 1, 2003. The PFC program is authorized by the Aviation Safety and Capacity Expansion Act of 1990 (the Expansion Act). In accordance with the Expansion Act, the Airport Authority's AIP Passenger Entitlement Apportionment is reduced by certain percentages, dependent upon the level of PFC received by the Airport Authority.

In accordance with the program, the PFC revenue must be used to pay allowable costs for approved capital projects. As of June 30, 2011 and 2010, accrued PFC receivables totaled \$5,121,210 and \$5,015,518, respectively, and there were \$54,819,295 and \$57,894,537 PFC amounts collected but not yet applied for approved capital projects as of June 30, 2011 and 2010, respectively.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

On May 20, 2003, the FAA approved the Airport Authority's PFC charge per enplaned passenger from \$3.00 to \$4.50, beginning August 1, 2003. Currently, impose and use authority of \$1.3 billion from four active applications allows collection through October 1, 2036. The Airport Authority has formally closed three previously approved applications and withdrawn one pending application which has been integrated in a ninth application to impose and use of approximately \$42 million in PFC revenue. The ninth application is in process with completion anticipated by January 2012. In accordance with the Aviation Investment Reform Act (AIR-21), airports imposing a \$4.50 collection level are required to reduce AIP Passenger Entitlement Apportionment to 75 percent.

**Customer facility charges (CFC):** The Airport Authority received approval in May 2009 from the State of California under Section 1936 of the California Civil Code to impose a \$10 CFC per contract on rental cars at SDIA.

In accordance with the program, the CFC revenue must be used to pay allowable costs for approved capital projects. As of June 30, 2011 and 2010, accrued CFC receivables totaled \$1,029,040 and \$1,235,660, respectively. CFC amounts collected, including interest, but not yet applied for approved capital projects as of June 30, 2011 and 2010 were \$20,974,319 and \$10,841,385, respectively.

**Retentions payable:** The Airport Authority enters into construction contracts that may include retention provisions such that a certain percentage of the contract amount is held for payment until completion of the contract and acceptance by the Airport Authority. The Airport Authority's policy is to record the retention payable only after completion of the work and acceptance of the contractor invoices have occurred. Retentions payable on completed contracts are included with accounts payable on the accompanying balance sheets. Amounts related to unpaid retentions on uncompleted contracts are included in accrued liabilities.

**Compensated absences:** All employees of the Airport Authority earn annual leave that is paid upon termination or retirement. Annual leave is accrued at current rates of compensation.

**Airport Authority net assets:** Invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Invested in capital assets, net of related debt, excludes unspent debt proceeds.

Restricted net assets represent amounts that are appropriated or legally segregated for a specific purpose. Airport Authority net assets are reported as restricted when there are limitations imposed on its use, either through the enabling legislation adopted by the Airport Authority or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Invested in capital assets, net of related debt, as of June 30 is as follows:

	2011	2010
Capital assets	\$ 1,133,349,818	\$ 942,837,888
Less accumulated depreciation	(507,928,798)	(459,120,465)
Less outstanding debt	(268,145,985)	(208,160,919)
Invested in capital assets, net	\$ 357,275,035	\$ 275,556,504

## San Diego County Regional Airport Authority

### Notes to Financial Statements

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

Restricted net assets as of June 30 are as follows:

	2011	2010
Bond reserves:		
Operations and maintenance reserve	\$ 29,773,617	\$ 30,230,832
Operations and maintenance subaccount reserve	9,924,539	10,076,944
Revenue and replacement reserve	5,400,000	5,400,000
Bond reserve with Trustee	5,395,610	5,395,610
Debt service principal	4,760,000	3,105,000
Commercial paper reserve	63,115	63,686
Commercial paper held by Trustee	12,855	12,853
Small Business Development Bond Guarantee	4,000,000	4,000,000
Passenger facility charges unapplied	54,819,295	57,894,537
Passenger facility charges receivable	5,121,210	5,015,518
Customer facility charges unapplied	20,974,319	10,841,385
Customer facility charges receivable	1,029,040	1,235,660
Owner Controlled Insurance Program (OCIP) loss reserve	6,239,213	6,400,000
Total restricted net assets	\$ 147,512,813	\$ 139,672,025

Unrestricted net assets as of June 30 include designations of net assets that represent tentative management plans that are subject to change, consisting of:

	2011	2010
Operating contingency	\$ 2,000,000	\$ 2,000,000
Insurance contingency (Note 9)	5,223,990	4,349,994
Net pension asset	7,760,767	8,317,080
Capital projects and other commitments (Note 12)	924,568	18,545,693
	\$ 15,909,325	\$ 33,212,767

**Revenue classifications:** Revenue is recognized when earned. The Airport Authority will classify revenues as operating or nonoperating based on the following criteria:

Operating revenues are from the revenue sources that constitute the principal ongoing activities of the Airport Authority's operations. The major components of the Airport Authority's operating revenue sources consist of landing fees and terminal building and ground rentals, concession and parking fees, and other miscellaneous fees and charges. Landing fees and terminal building rates are charged on the basis of recovery of actual costs for operating and maintaining the SDIA airfield and terminal areas. Ground rentals consist mainly of rent received for leased cargo facilities. Concession fees are determined as a percentage of gross monthly revenues generated by each concession lessee's monthly operations. Parking fees are generated from the airport parking lots.

Nonoperating revenues are from revenue sources related to financing activities and other activities, which do not constitute the principal ongoing activities of the Airport Authority's operations. The major components of the nonoperating revenue sources are interest income from cash and investments, certain legal settlement income, PFCs, CFCs and grant revenue related to the Quieter Home Program.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

**Expense classifications:** The Airport Authority will classify expenses as operating or nonoperating based on the following criteria:

Operating expenses relate to the principal ongoing activities of the Airport Authority's operations. The major components of the Airport Authority's operating expense sources consist of salaries and benefits, contractual services, space rental, utilities, maintenance, equipment and systems, materials and supplies, insurance, employee development and support, business development, and equipment rentals and repairs.

Nonoperating expenses relate to financing, investing and other activities that do not constitute the principal ongoing activities of the Airport Authority's operations. The major components of nonoperating expenses sources are expenditures for the Quieter Home program, interest expense and other nonoperating expenses such as legal settlements and unrealized loss on investments.

**Federal grants:** When a grant agreement is approved and all eligibility requirements have been met, the expenditures are recorded as a federal grant receivable and as a capital grant contribution or nonoperating grant revenue, as appropriate.

**Cash and cash equivalents:** For purposes of the statements of cash flows, cash and cash equivalents includes unrestricted and designated cash on hand, demand deposits, commercial paper and repurchase agreements collateralized by the U.S. government or agency obligations with original maturities of three months or less from the date of acquisition.

**Deferred bond costs:** The revenue bond original discount and the revenue bond original issue premium, along with issuance costs, are deferred and amortized over the term of the bonds, using the effective interest rate method.

**Implementation of new accounting pronouncement:** GASB Statement No. 59, *Financial Instruments Omnibus*, was issued in June 2010 and implemented by the Airport Authority for the year ended June 30, 2011. This Statement updates and improves existing standards regarding financial reporting of certain financial instruments and external investment pools.

**Pronouncements issued, but not yet effective:** The GASB issued pronouncements prior to June 30, 2011 that have an effective date that may impact future financial presentations. Management has not currently determined what, if any, impact implementation of the following Statements may have on the financial statements of the Airport Authority:

- GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*
- GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*
- GASB Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*
- GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*
- GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*
- GASB Statement No. 64, *Derivative Instruments: Application of Hedge Accounting Termination Provisions—an amendment of GASB Statement No. 53*

**Reclassifications:** Certain reclassifications have been made to the 2010 financial information in order to conform to the 2011 presentation. These reclassifications had no impact on net income or Airport Authority net assets.

Local Agency Investment Fund	None	N/A	None	None
San Diego County Investment Pool	None	N/A	None	None
		Two highest ratings		
Certificates of deposit	None		None	None
Investment agreements	None	N/A	None	None

The primary objective of the Airport Authority's investment policy is to invest public funds in a manner that will provide the highest security of the funds under management while meeting the daily cash flow demands of the Airport Authority. Assets of the Airport Authority that are not bond proceeds, which are invested in securities as permitted in the bond indenture, are described in the preceding table. In addition, there are various credit criteria as defined in the Airport Authority's investment policies:

- Banker's acceptances, eligible for purchase by the Federal Reserve System and are rated in the highest category by a nationally recognized statistical organization (NRSRO).
- Commercial paper of prime quality of the highest ranking or of the highest letter and number rating as provided for by an NRSRO.
- Negotiated certificates of deposit (NCD) issued by state or chartered bank or a state or federal savings institution, shall be rated "A" or better by an NRSRO. NCDs with an "A" rating shall be limited to 24 months maximum maturity; "AA"-rated NCDs shall be limited to 36 months.

---

#### Note 2. Cash and Investments and Subsequent Event (Continued)

- Medium-term notes issued by corporations organized and operating within the United States shall be rated “A” or better by an NRSRO for maturities less than 24 months and “AA” for maturities less than or equal to 36 months.
- U.S. government-sponsored agencies rated “AAA/Aaa” issued mortgage-backed security with a maximum of five years maturity.
- Money market mutual funds with management companies that are money market funds registered with the Securities and Exchange Commission (SEC), investing in the securities and obligations as authorized by California Government Code 53601. These companies shall either: (1) attain the highest ranking or the highest letter and numerical rating provided by not less than two of the three largest nationally recognized rating services, or (2) retain an investment advisor registered with the SEC with not less than five years experience investing in the securities and obligation market as authorized by California Government Code 53601, subdivision (a) to (m) inclusive, and with assets under management in excess of \$500 million.

**Investments held by Trustee:** The Airport Authority has monies held by trustees pledged for the security and payment of certain debt instruments as required by the debt agreements. The Series 2005 Bonds require the Airport Authority to maintain reserve accounts with a bond trustee for security and the payment of the bonds. At June 30, 2011 and 2010, the investments held by the Trustee related to the Series 2005 Bonds were \$9,718,078 and \$9,635,701, respectively, which included the July 1 payment in the amount of \$4,309,613 and \$4,227,238, respectively. The subordinate Series 2010 Bonds require the Airport Authority maintain a reserve account and deposit all unused bond proceeds with a bond trustee. At June 30, 2011, the amount held by the Trustee related to the subordinate Series 2010 Bond was \$387,197,643, which included the July 1 payment in the amount of \$2,247,976. The commercial paper notes require the Airport Authority to maintain an interest reserve account with the note Trustee. At June 30, 2011 and 2010, the commercial paper interest held by the Trustee was \$12,855 and \$12,853, respectively.

**Disclosures related to interest rate risk:** Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment is, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways the Airport Authority manages its exposure to interest rate risk is by purchasing a combination of shorter-term and longer-term investments and by timing cash flows from maturities. These staggered maturities also provide consistent cash flow and fulfill liquidity needs for operations. The Airport Authority monitors interest rate risk inherent in its portfolio by measuring the segmented time distribution of its portfolio. The Airport Authority has no specific limitations with respect to this metric.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

#### Note 2. Cash and Investments and Subsequent Event (Continued)

Information about the sensitivity of the fair values of the Airport Authority's investments (including investments held by bond trustee) to market rate fluctuations is provided by the following table, which shows the distribution of the entity's investments by maturity as of June 30, 2011:

Investment Type	Total	12 Months or Less	13 to 24 Months	25 to 60 Months	More Than 60 Months
Investments subject to interest					
rate risk:					
CAMP	\$ 23,363	\$ 23,363	\$ -	\$ -	\$ -
LAIF	146,923,132	146,923,132	-	-	-
SDCIP	268,584,597	268,584,597	-	-	-
Commercial paper	3,490,340	3,490,340	-	-	-
U.S. Treasury notes	11,037,820	8,034,880	3,002,940	-	-
U.S. agency securities	74,017,386	15,094,998	11,994,370	46,928,018	-
Guaranteed investment contract	5,394,063	-	-	-	5,394,063
Total investments subject to interest rate risk	509,470,701	442,151,310	14,997,310	46,928,018	5,394,063
Deposits not subject to interest					
rate risk:					
Money market funds	76,595,074	76,595,074	-	-	-
Certificates of deposit	36,007,476	36,007,476	-	-	-
Total deposits not subject to interest rate risk	112,602,550	112,602,550	-	-	-
	<u>\$ 622,073,251</u>	<u>\$ 554,753,860</u>	<u>\$ 14,997,310</u>	<u>\$ 46,928,018</u>	<u>\$ 5,394,063</u>

**Custodial credit risk (deposits):** Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Airport Authority maintains deposits at several institutions in order to minimize custodial credit risk. These deposits are collateralized by various instruments such as U.S. government securities (guaranteed) or U.S. agency securities (government sponsored). California Government Code requires a minimum of 105 percent collateralization of these deposits which are authorized by the Airport Authority's investment policy. Insurance through the Federal Deposit Insurance Corporation (FDIC) may be applicable to the first \$250,000 of institutional deposit accounts, with any balance above this amount covered by the collateralization requirement.

**Custodial credit risk (investments):** Custodial credit risk for investments is the risk that the Airport Authority will not be able to recover the value of its investments in the event of a counterparty failure. The Airport Authority uses third-party banks' custody and safekeeping services for its registered investment securities. Securities are held in custody at third-party banks registered in the name of the Airport Authority and are segregated from securities owned by those institutions or held in custody by those institutions. Certificates of deposit held by the Airport Authority's third-party custodians are fully insured by the FDIC, as the individual amounts do not exceed the FDIC-insured limits, or collateralized in accordance with the California Government Code.

# San Diego County Regional Airport Authority

## Notes to Financial Statements

### Note 2. Cash and Investments and Subsequent Event (Continued)

**Disclosures related to credit risk:** Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of an investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of June 30, 2011 for each investment type:

Investment Type	Total	Unrated	AAA/Aaa	A-1+/P-1
Investments subject to credit rate risk:				
CAMP	\$ 23,363	\$ -	\$ 23,363	\$ -
SDCIP	268,584,597	-	268,584,597	-
LAIF	146,923,132	146,923,132	-	-
Commercial paper	3,490,340	-	-	3,490,340
U.S. Treasury notes	11,037,819	- (1)	11,037,820	-
U.S. agency securities	58,922,387	- (1)	58,922,388	-
Guaranteed investment contract	20,489,061	-	20,489,061	-
Total investments subject to credit risk	509,470,699	146,923,132	359,057,229	3,490,340
Deposits subject to credit risk:				
Money market funds	76,595,074	76,595,074	-	-
Certificates of deposit	36,007,476	36,007,476	-	-
Total deposits subject to credit risk	112,602,550	112,602,550	-	-
	<u>\$ 622,073,249</u>	<u>\$ 259,525,682</u>	<u>\$ 359,057,229</u>	<u>\$ 3,490,340</u>

Source: Standard & Poor's, Moodys and Fitch

- (1) On August 5, 2011, Standard & Poor's (S&P) lowered the long-term sovereign credit rating of U.S. Government debt obligations from AAA to AA+. On August 8, 2011, S&P also downgraded the long-term credit ratings of U.S. government-sponsored enterprises. To date, Moody's and Fitch have maintained Aaa and AAA ratings, respectively, for both U.S. Government and U.S. government-sponsored enterprises' debt obligations. While there has been no immediately apparent adverse impact to the Authority's investment portfolio from the S&P action, the ultimate impacts on global markets and our business, financial condition, and liquidity are unpredictable given the unprecedented nature of negative credit rating actions with respect to U.S. government obligations.

**Concentration of credit risk:** The investment policy of the Airport Authority contains no limitations on the amount that can be invested by any one issuer beyond that stated above. Investments that represent 5 percent or more of the Airport Authority's investments as of June 30, 2011 are as follows:

Issuer	Type	Fair Value	Percentage of Portfolio
East West Bank	Money market funds and certificates of deposit	\$ 58,267,979	9.16%
Federal National Mortgage Assoc.	U.S. agency securities	46,105,368	7.24%
		<u>\$ 104,373,347</u>	<u>16.40%</u>

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 2. Cash and Investments and Subsequent Event (Continued)

**Investment in state investment pool:** The Airport Authority is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The Airport Authority's investment in this pool is reported in the accompanying financial statements at fair value based upon the Airport Authority's pro rata share of the amortized cost basis provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of each portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF.

**Investment in county investment pool:** The Airport Authority is a voluntary participant in the San Diego County Investment Pool (SDCIP) that is regulated by California Government Code Section 16429 under the oversight of the County Treasurer of San Diego. The Airport Authority's investment in this pool is reported in the accompanying financial statements at fair value based upon the Airport Authority's pro rata share of the amortized cost basis provided by SDCIP for the entire SDCIP portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by SDCIP.

**Investment in California Asset Management Program Pool:** The Airport Authority is a voluntary participant in the California Asset Management Program Pool (CAMP or the Pool), which was established under provisions of the California Joint Exercise of Powers Act to provide California Public Agencies with comprehensive investment management services. The Airport Authority's investment in the Pool are reported in the accompanying financial statements at the net asset value per share as provided by CAMP.

CAMP is exempt from registration with the Securities and Exchange Commission under the Investment Company Act of 1940, but operates in a manner consistent with SEC Rule 2a-7, "Money Market Funds," of that Act. Accordingly, the Pool meets the definition of a "2a-7 like pool" set forth in GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. While the Pool itself is exempt from SEC registration, the Pools Investment advisor and administrator, PFM Asset management LLC, is registered with the SEC as an investment advisor under the Investors Advisors Act of 1940. PFM Asset Management LLC has filed with the California Department of Corporations, as well as various other states, as an investment advisor under the state security laws. In addition, CAMP also meets the definition of "Municipal Fund Security" outlined by Municipal Rulemaking Board (MSRB) Rule 0-12. Therefore, contacts with prospective investors relating to shares of the pool are conducted through PFM Asset Management's wholly owned subsidiary, PFMAM, Inc., a broker/dealer that is registered with the SEC and MSRB, and is a member of (FINRA). CAMP files an income tax return annually with the Internal Revenue Service, though the new income of the Pool is generally exempt from federal income tax.

**Small business development bond guarantee:** The Airport Authority has established a \$4,000,000 line of credit with Union Bank, which is collateralized with a certificate of deposit. This line will be utilized to issue letters of credit to surety companies who are partnering with the Airport Authority to provide bonding assistance to contractors accepted into the bonding assistance program. Both the Airport Authority and the sureties participate in the risk under this program. The objective of this program is to ensure that local small, disadvantaged, disabled veteran, and other business enterprises have every opportunity to do business with the Airport Authority.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### **Note 2. Cash and Investments and Subsequent Event (Continued)**

**Investment recovery:** In fiscal year 2010, the Airport Authority recognized a loss of \$166,515 on its investment in the Primary Liquidity Fund operated by The Reserve Money Management Corporation of New York (The Reserve Fund), the original investment of which was \$12,157,575. During fiscal year 2011, the Airport Authority received a payment \$49,238 from the fund that was reported as an investment recovery. Additionally, The Reserve Fund reduced the undistributed balance by \$93,400 for fees and expenses of the liquidation. The remaining undistributed balance of the investment in The Reserve Fund as of June 30, 2011 and 2010 was \$23,838 and \$166,515, respectively. The Airport Authority will continue to recognize amounts received from The Reserve Fund, if any, in the period collected.

#### **Note 3. Notes Receivable**

As part of the transfer of airport operations, pursuant to the MOU, the District issued a \$50,000,000 unsecured promissory note to the Airport Authority. Pursuant to an agreement with the District that commenced on January 1, 2006, the note is amortized over 25 years and matures on December 31, 2030, subordinate to all bond indebtedness of the District, at a fixed interest rate of 5.5 percent per annum. On October 3, 2005, the Airport Authority's Board authorized the District to issue an \$8,000,000 promissory note in favor of Carnival Corporation on parity with the \$50,000,000 note. At June 30, 2011 and 2010, the balance of the note receivable was \$43,993,521 and \$45,221,133, respectively. The current portion recorded on the note for the years ended June 30, 2011 and 2010 was \$1,290,520 and \$1,227,612, respectively.

As part of the transfer of airport operations, pursuant to the Act, the District reimburses the Airport Authority for the fair market value of the Pond 20 property. The District is required to pay the Airport Authority monthly principal and interest payments over a 10-year period at an interest rate of 5.25 percent. A receivable for the Pond 20 property was recorded by the Airport Authority on January 1, 2003 at the District's preliminary appraised value of \$2,378,000. Pursuant to the settlement agreement with the District, the negotiated appraised value was \$3,329,000. Repayment terms remain unchanged. June 30, 2011 and 2010, the note receivable was recorded at a value of \$616,954 and \$1,002,132, respectively. The current portion recorded on the note for the years ended June 30, 2011 and 2010 was \$405,893 and \$385,178, respectively.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 5. Debt (Continued)

**Commercial paper Series A and B:** On September 6, 2007, the Board authorized issuance of \$250,000,000 of subordinate commercial paper. Proceeds from the issuance were designated to be used to finance further improvements to SDIA. Subordinate obligations issued or incurred under the program is secured by a pledge of airport revenues, subordinated to the pledge of net airport revenues securing payment of the Series 2005 Bonds with parity to the subordinate Series 2010 Bonds revenue. Each commercial paper note matures at the end of a period not to exceed 270 days. Each issuance can be rolled into another issuance. The commercial paper is classified as a long-term liability because the Airport Authority has an irrevocable letter of credit provided by Lloyds TSB Bank that expires no later than September 10, 2014 and is available if the commercial paper is not reissued. If the letter of credit is drawn upon and is not paid off within 90 days of being drawn upon, quarterly payments equal to the amount drawn will be paid. Interest is paid at a rate based on the market for similar commercial paper notes held by the bank. The commercial paper notes are rated A-1 by Standard & Poor's and P-1 by Moody's Investors Service.

On October 6, 2010 and October 13, 2010, the Airport Authority refinanced \$115,776,000 and \$26,400,000, respectively, of Series A, B and C commercial paper with proceeds from the sale of subordinated Series 2010 Bonds. At June 30, 2011, the principal amount outstanding for Series B was \$21,509,000. The principal amounts of Series A and C were \$0. The average annual interest rates for Series A, B and C were 0.26 percent, 0.31 percent and 0.30 percent, respectively.

At June 30, 2010, the principal amount outstanding for Series A was \$67,376,000, with an average annual interest rate of 0.36 percent; the principal amount outstanding for Series B was \$57,254,000, with an average annual interest rate of 0.40 percent; and the principal amount outstanding for Series C was \$39,800,000, with an average annual interest rate of 0.35 percent.

Commercial paper interest expense for the years ended June 30, 2011 and 2010 amounted to \$189,788 and \$165,947, respectively, including accrued interest of \$63,115 and \$55,866, respectively.

The commercial paper notes require that the charges for services be set each year at rates sufficient to produce pledged revenues at least 110 percent times the debt service for that year. In addition, the commercial paper notes require the Airport Authority to maintain an interest reserve account with the note trustee and to reserve a certain amount in the Airport Authority's books. At June 30, 2011 and 2010, the amount held by the trustee was \$12,855 and \$12,853, respectively, and the amount reserved by the Airport Authority was \$63,115 and \$63,686, respectively.

**Airport Revenue Bonds, Series 2005 and Refunded Series 1995:** In fiscal year 1996, the California Maritime Infrastructure Authority issued Airport Revenue Bonds (Series 1995 Bonds) for the District, pursuant to a trust agreement dated December 1, 1995. The proceeds of the Series 1995 Bonds, together with investment income thereon, were used solely to pay a portion of the construction and installation of the West Terminal Expansion at SDIA, fund a Reserve Account and pay certain expenses in connection with the issuance of the Series 1995 Bonds. In conjunction with the transfer of airport operations to the Airport Authority on January 1, 2003, these bond obligations were assumed by the Airport Authority. The Series 1995 Bonds were issued in the aggregate principal amount of \$76,690,000, consisting of \$29,895,000 in serial bonds and \$46,795,000 in term bonds.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 5. Debt (Continued)

On November 9, 2005, the Airport Authority issued airport revenue refunding bonds. Series 2005 Bonds were issued in the aggregate principal amount of \$56,270,000 to refund outstanding Series 1995 Bonds. The Series 2005 Bonds were structured as serial bonds that bear interest at rates ranging from 4.5 percent to 5.25 percent and mature in fiscal years 2007 to 2021. The bonds were issued at a premium of \$3,333,300, with deferred amounts on refunding of \$3,400,800, which are being amortized over the life of the bonds. Interest on the bonds is payable semiannually on January 1 and July 1 of each year. Interest expense for the years ended June 30, 2011 and 2010 amounted to \$2,089,225 and \$2,244,475, respectively, including accrued interest of \$1,044,612 and \$1,122,237, respectively. The principal balance on the Series 2005 Bonds as of June 30, 2011 and 2010 was \$41,225,000 and \$44,330,000, respectively.

The Series 2005 Bonds are payable solely from and secured by pledged revenues. Pledged revenues are defined as all revenues and other cash receipts of the Airport Authority's airport operations, reduced by operation and maintenance expenses. Pledged revenues do not include cash received from PFCs or federal grants.

The Series 2005 Bonds require that charges for services be set each fiscal year at rates sufficient to produce pledged revenues at least 125 percent times the debt service for that year. In addition, the Series 2005 Bonds require the Airport Authority to maintain a reserve account with the bond trustee and to reserve certain amounts in the Airport Authority's books, as shown in Note 2. At the years ended June 30, 2011 and 2010, the amount held by the trustee was \$5,394,063 and \$5,394,063, respectively. An additional amount of \$4,309,613 and \$4,227,238 was held at June 30, 2011 and 2010, respectively, for the July 1 payments. The total amount reserved by the Airport Authority for 2011 and 2010 was \$45,098,156 and \$45,707,776, respectively. The underlying public ratings of the Series 2005 Bonds as of June 30, 2011 and 2010 are A+/A1/A+ by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively.

The required debt service payments for the Series 2005 Bonds for the fiscal years ending June 30 are as follows:

<u>Years Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	\$ 3,265,000	\$ 2,007,600	\$ 5,272,600
2013	3,430,000	1,840,225	5,270,225
2014	3,610,000	1,664,225	5,274,225
2015	3,790,000	1,479,225	5,269,225
2016	3,985,000	1,299,794	5,284,794
2017-2021	23,145,000	3,164,569	26,309,569
	<u>\$ 41,225,000</u>	<u>\$ 11,455,638</u>	<u>\$ 52,680,638</u>

A cumulative rebate liability relating to arbitrage of the Series 2005 Bonds was recorded for \$46,417 and \$183,422 as of the fiscal years ended June 30, 2011 and 2010, respectively. Ninety percent of the cumulative rebate liability is due to the United States no later than 60 days after July 1, 2011. Additionally, should the bonds be retired prior to July 1, 2011, 100 percent of the accumulated rebate liability will be due and payable within 60 days of the retirement date.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 5. Debt (Continued)

**Subordinate Series 2010 Bonds:** On October 5, 2010, the Airport Authority issued \$572,565,000 of Series A, B and C subordinate airport revenue bonds. The subordinate Series 2010 Bonds were issued to finance certain capital improvements at SDIA, fund a portion of the interest accruing on the subordinate Series 2010 Bonds through and including January 1, 2013, refund \$142,176,000 of the Airport Authority's outstanding commercial paper notes, fund the subordinate reserve fund and pay the costs of issuance of the subordinate Series 2010 Bonds.

The Series A and B bonds were structured as serial bonds that bear interest at rates ranging from 2.00 percent to 5.00 percent and mature in fiscal years 2012 to 2041. The Series C bonds were issued as Build America Bonds and include a cash subsidy payment from the U.S. Treasury equal to 35 percent of interest payable. The Build America Bonds interest subsidy for the year ended June 30, 2011 was \$3,691,431. The interest rate on the series C bonds, net of the subsidy, is 4.31 percent and the bonds mature in fiscal year 2041. The bonds were issued at a premium of \$26,154,344, which is being amortized under the effective interest method over the life of the bonds. The premium amortization for fiscal year 2011 was \$1,069,464. Interest on the subordinate Series 2010 Bonds is payable semiannually on January 1 and July 1 of each year. Interest expense for the year ended June 30, 2011 amounted to \$13,029,402, of which \$7,476,170 was capitalized to various capital projects. The principal balance on the subordinate Series 2010 Bonds as of June 30, 2011 was \$572,565,000.

The subordinate Series 2010 Bonds are special obligations of the Airport Authority, payable solely from and secured by (a) a pledge of subordinate net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system and all amounts necessary to pay debt service on and fund the reserves for the senior bonds; and (b) certain funds and accounts held by the subordinate trustee under the subordinate indenture. The subordinate Series 2010 Bonds were issued with a pledge of and lien on subordinate net revenues on parity with the Airport Authority's subordinate commercial paper notes. In addition, the Airport Authority has irrevocably committed a portion of the Passenger Facility Charges, PFCs, it received and expects to receive through 2016. The amount of irrevocably committed PFCs are; \$14,703,838, \$19,208,838, \$19,206,113 and \$19,209,388 for fiscal years 2013, 2014, 2015 and 2016, respectively.

The subordinate Series 2010 Bonds require that charges for services be set each fiscal year at rates sufficient to produce pledged revenues at least 110 percent times the debt service for that year. In addition, the subordinate Series 2010 Bonds require the Airport Authority to maintain a reserve account with the bond Trustee. The amount held by the Trustee as of June 30, 2011 was \$387,197,643, which included the July 1 payment.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 5. Debt (Continued)

The required debt service payments for the subordinate Series 2010 Bonds for the fiscal years ending June 30 are as follows:

<u>Years Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	\$ 715,000	\$ 31,762,248	\$ 32,477,248
2013	980,000	31,745,298	32,725,298
2014	1,000,000	31,720,498	32,720,498
2015	5,785,000	31,594,948	37,379,948
2016	8,665,000	31,318,098	39,983,098
2017-2021	49,550,000	149,979,317	199,529,317
2022-2026	62,945,000	136,240,023	199,185,023
2027-2031	80,190,000	118,557,929	198,747,929
2032-2036	161,025,000	85,746,886	246,771,886
2037-2041	201,710,000	31,615,634	233,325,634
	<u>\$572,565,000</u>	<u>\$680,280,879</u>	<u>\$ 1,252,845,879</u>

**Compensated absences:** Employee vacation that vests is recorded when earned. Accumulated sick leave is not accrued because employee rights to receive compensation for the unused portion terminate upon severance of employment.

**Line of credit:** In 2009 the Airport Authority established a \$4,000,000 line of credit with Union Bank, which is collateralized with a certificate of deposit. This line will be utilized to issue letters of credit to surety companies who are partnering with the Airport Authority to provide bonding assistance to contractors accepted into the bonding assistance program at the Airport Authority. As of June 30, 2011, nothing had been drawn on the line of credit and four letters of credit were issued, totaling \$1,297,957, for projects in progress. One of the letters of credit is due to expire January 19, 2012 and the remaining three will expire on February 27, 2012.

#### Note 6. Defined-Benefit Plan

**Plan description:** The Airport Authority's defined-benefit pension plan is separately administered by the City of San Diego's City Employees' Retirement System (CERS). The San Diego County Regional Airport Authority Retirement Plan and Trust provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CERS is an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for the City of San Diego, the District and the Airport Authority, administered by the Retirement Board of Administration (the CERS Board). San Diego City Charter Section 144 and San Diego Municipal Code Sections 24.0100 et seq. assign the authority to establish and amend the benefit provisions of the plans that participate in CERS to the CERS Board. Additionally, the Airport Authority also contributes to the Federal Social Security Program. The CERS Board issues a publicly available financial report that includes financial statements and required supplementary information for CERS. The financial report may be obtained by writing to the San Diego City Employees' Retirement System, 401 B Street, Suite 400, San Diego, California 92101.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 6. Defined-Benefit Plan (Continued)

**Funding policy:** The City of San Diego municipal code requires member contributions to be actuarially determined to provide a specific level of benefit. Member contribution rates, as a percentage of salary, vary according to age at entry, benefit tier level and certain negotiated contracts, which provide for the Airport Authority to pay a portion of the employees' contributions. The Airport Authority contribution rate, as determined through actuarial valuation, was 16.60 percent for 2011, 12.08 percent for 2010 and 12.69 percent for 2009, and is expressed as a percentage of covered payroll.

**Annual pension cost:** For the years ended June 30, 2011, 2010 and 2009, the annual pension cost included in salaries and benefits was \$6,289,996, \$4,999,976 and \$4,926,093, respectively, for the CERS pension. Comparing 2010 to 2009, total membership increased by 4 percent. The increase was attributable to both the growth in inactive membership, terminated vested, disabled, retirees and beneficiaries and active membership. The active member payroll increased by 3.7 percent, which is slightly below the assumed payroll inflation of 4 percent. The actuarial liability increased by 12.6 percent but the actuarial value of assets increased by 24.4 percent. The funding ratio increased from 86.9 percent as of June 30, 2009 to 96 percent as of June 30, 2010. CERS employs a commonly used actuarial smoothing method on the market value that dampens market volatility, so the actuarial value of assets did not increase as much as the market value (31.8 percent).

As of June 30, 2011, significant actuarial assumptions are as follows:

- The rates of retirement are assumed that retirement will occur, provided they have at least five years of service on the later of attained age or the earlier of age 62 or 55 and at least 20 years of service.
- Termination rates vary based on selected ages and years of service. The rates range from age 20 at 12.78 percent to age 60 at 2.78 percent. Additionally, 20 percent of terminating employees with at least five years of service at termination are assumed to subsequently work for a reciprocal employer and receive 4.50 percent pay increases per year.
- Disability rates are assumed to be 60 percent from industrial disability retirements. Nonindustrial disability retirement is subject to a service requirement.
- Mortality rates for active Airport Authority members were set to the RP2000 Combined Healthy table projected to 2008.
- Mortality rates for retired Airport Authority members were set to the RP2000 Combined Healthy table.
- The investment return assumption was 7.75 percent.
- The inflation assumption was 4.00 percent.
- Cost of living adjustments were 2.00 percent.
- The actuarial funding method is entry age normal.
- The amortization method is level percent closed.
- The asset valuation method is expected value method.
- The remaining amortization period is 24.481 years; this includes 11 years for the outstanding balance of the 2007 UAL, 15 years for experience gains and losses, 30 years for changes in methods and assumptions, 20 years for benefit changes.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### **Note 6. Defined-Benefit Plan (Continued)**

As of September 2006, the actuarial value of assets was equal to the market value of assets. The following year, the actuarial value was calculated by accepting 100 percent of the expected asset value plus 25 percent of the difference between the actual market value next year and the expected asset value. Any unfunded actuarially accrued liability would be funded as a level percentage of projected payrolls over a closed 18-year period. On September 16, 2004, the Airport Authority made a contribution payment in the amount of \$3,900,000, in addition to the ARC, to reflect a desired funded ratio of 90 percent. On June 21, 2005, the Airport Authority made an additional contribution of \$1,000,000. During the year ended June 30, 2006, the Airport Authority made an additional contribution of \$513,627. On June 30, 2010, the Airport Authority made a contribution of \$4,600,000 to increase the funded rate reported in the January 2010 CERS 2009 actuarial calculation from 86.9 percent to the desired funded ratio of 90 percent. At June 30, 2011, 2010 and 2009, the total contribution of \$10,013,627 less amortization of \$2,252,860, \$1,696,547 and \$1,395,790, respectively, is recorded as a net pension asset of \$7,760,767, \$8,317,080 and \$4,017,837, respectively. The contributions are being amortized over an 18-year period.

The Airport Authority's contribution for fiscal year 2012 measured as a percentage of membership payroll decreased from 16.60 percent to 15.06 percent. The required beginning-of-year contribution paid July 1, 2011 decreased by \$400,000.

\* Per audited financials, not per actuarial valuation date.

#### Note 7. Employees' Deferred Compensation Plan

The Airport Authority offers its employees a deferred compensation plan, which was created in accordance with Internal Revenue Code (IRC) Section 457. The plan, which is available to all full-time Airport Authority employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, total disability, death or unforeseeable emergency.

The plan is administered by the Airport Authority and contracted to an unrelated financial institution. Under the terms of an IRC Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by the financial institution, until paid or made available to the employees or beneficiaries, are held in trust for employees.

As such, employee assets to be held in the IRC Section 457 plans are not the property of the Airport Authority and are not subject to the claims of the Airport Authority's general creditors. In accordance with GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—a rescission of GASB Statement No. 2 and an amendment of GASB Statement No. 31*, employee assets are not reflected in the Airport Authority's financial statements.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### **Note 8. Other Postemployment Benefits**

In addition to pension benefits as described in Notes 6 and 7, the Airport Authority provides other postemployment benefits (OPEB).

The Airport Authority provides medical, dental and \$10,000 life insurance postretirement benefits for nonunion employees hired prior to May 1, 2006 and union employees hired prior to October 1, 2008. The employees are eligible for these benefits if they retire from active employment after age 55 with 20 years of service or age 62 with five years of service.

**Plan description:** As of May 8, 2009, the Board approved entering into an agreement with the California Employer's Retiree Benefit Trust (CERBT) fund. The CERBT fund is an irrevocable Section 115 trust. This is managed by California Public Employees Retirement System (CalPERS). CalPERS administers pension and health benefits for approximately 1.6 million California public employees, retirees and their families. CalPERS was founded in 1932 and is the largest public pension fund in the United States, managing more than \$1.879 billion in assets for more than 2,500 California employers. In 1988 and 2007, enabling statutes and regulations were enacted which permitted CalPERS to form the CERBT fund, a Section 115 Trust, for the purpose of receiving employer contributions that will prefund health and other postemployment benefit costs for retirees and their beneficiaries. Financial statements for CERBT may be obtained from CalPERS at P.O. Box 942709, Sacramento, CA 94229-2709.

**Funding policy:** CERBT requires a valuation of the liabilities and annual costs for benefits by an approved actuarial consulting firm. It is the Airport Authority's intent to budget and prefund the ARCs. As of May 9, 2009, the agreement with CERBT was approved.

**Annual OPEB cost and actuarial methods and assumptions:** The July 1, 2009 actuarial valuation for the ARC, net of the employer contribution, was \$1,713,000 for fiscal year 2011, \$1,733,000 for 2010 and \$1,429,000 for 2009. The ARC was determined as part of an actuarial evaluation using the entry-age-actuarial-cost method, with unfunded liabilities amortized over a closed 30-year amortization period, which is the method utilized by CERBT. The actuarial assumptions used by CERBT include (a) a 7.75 percent investment rate of return, net of administrative expenses, and (b) projected salary increases of 3.25 percent. The inflation component ranged from 11 percent to 5 percent from one to seven years for medical and 7 percent to 5 percent for dental.

The entry-age-normal method spreads plan costs for each participant from entry date to the expected retirement date. Under the entry-age-normal cost method, the plan's normal cost is developed as a level percentage of payroll spread over the participants' working lifetime. The actuarial accrued liability is the cumulative value, on the valuation date, of prior service costs. For retirees, the actuarial accrued liability is the present value of all projected benefits.

The plan costs are derived by making certain specific assumptions as to the rates of interest, mortality, turnover and the like, which are assumed to hold for many years into the future. Actual experience may differ somewhat from the assumptions and the effect of such differences is spread over all periods. Due to these differences, the costs determined by the valuation must be regarded as estimates of the true plan costs.

### Note 9. Risk Management

The Airport Authority has developed a comprehensive Risk Management Program, including workers' compensation, which includes risk transfer, loss prevention, loss control and claims administration. The Airport Authority maintains \$50 million in limits for primary owners' and operators' general liability insurance with a War, Hijacking and Other Perils endorsement. The war endorsement may be terminated at any time by the underwriters and terminates automatically upon the outbreak of war (whether there has been a declaration of war or not) between any two or more of the following: France, the People's Republic of China, the Russian Federation, the United Kingdom or the United States, and certain provisions of the endorsement are terminated upon the hostile detonation of any weapon of war employing atomic or nuclear fission and/or fusion or other like reaction or radioactive force or matter. The Airport Authority maintains \$450 million of general liability insurance in excess of the \$50 million primary liability coverage. The Airport Authority's coverage includes a variety of retentions or deductibles.

## **San Diego County Regional Airport Authority**

### **Notes to Financial Statements**

---

#### **Note 9. Risk Management (Continued)**

The cost of earthquake coverage remains exorbitant and is not available in significant amounts. The Federal Emergency Management Agency (FEMA) and the California Disaster Assistance Act (CDDA) are designed to assist public entities such as the Airport Authority in the event of a catastrophe. FEMA will pay up to 75 percent of a loss and CDDA will pay a minimum of 25 percent of the balance for nationally declared disasters. In addition, the California legislature has paid any remaining loss costs for all declared disasters since 1989. The Airport Authority in the past relied on these laws to pay loss costs beneath the attachment point for insurance coverage and above the coverage limit purchased. Effective July 1, 2007, based on the status of these laws and the condition of the insurance marketplace, the Airport Authority removed the purchase of commercial earthquake insurance from the Risk Management Program and increased reliance on the laws designed to assist public entities. As of June 30, 2011 and 2010, the Airport Authority had \$5,223,990 and \$4,349,994 respectively, for an earthquake contingency reserve. This reserve is intended to increase as deemed by management.

A \$2,000,000 contingency reserve has been established, within unrestricted net assets, by the Airport Authority's management to respond to uninsured and underinsured catastrophic losses. This fund is maintained pursuant to Board action only; there is no requirement that it be maintained.

The Airport Authority participates in an insurance purchasing program, with a \$1 billion pooled limit to provide all risk and flood coverage on physical assets. During fiscal year 2011, there were no significant reductions in insurance coverage from the prior year. For each of the past three fiscal years, settlements have not exceeded insurance coverage.

The Airport Authority has an active loss prevention program, staffed by a full-time risk manager, a risk analyst, a safety manager and a safety analyst. In addition, insurer property and casualty loss control engineers conduct safety surveys on a periodic basis. Employees receive regular safety training and claims are monitored using a Web-based claims information system.

#### **Note 10. Lease Revenues**

The Airport Authority leases certain of its capital assets, such as loading bridges and building space, to signatory airlines and other tenants under operating leases. A majority of the lease payments are determined each year based upon actual costs of the airport. Such costs are allocated pro rata to each tenant based upon factors such as landed weights, enplanements, square footage, acres, etc. A majority of the Airport Authority's lease commitments are on a month-to-month basis and accordingly are not reflected in the schedule below.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 10. Lease Revenues (Continued)

The minimum future lease payments to be received under the above operating lease agreements as of June 30 are as follows:

<u>Years Ending June 30,</u>	<u>Amount</u>
2012	\$ 10,173,845
2013	7,396,982
2014	5,552,412
2015	4,485,090
2016	2,640,169
2017-2020	4,000,000
	<u>\$ 34,248,498</u>

The Airport Authority entered into a five-year lease agreement on January 9, 2009 with the San Diego World Trade Center (World Trade Center) for office space, with a fair market value of \$440,000. In lieu of rental payments, the Airport Authority received a 40 percent ownership of the World Trade Center license, which has a fair market value of \$440,000. The license is an intangible asset with no expiration date, and is included in non-depreciable assets in Note 4. As of June 30, 2011 and 2010, the Airport Authority recognized lease revenue of \$86,996 for each year under the World Trade Center lease.

For the past three years the Airport Authority has planned for a new concession program at SDIA to replace the primary concession tenant whose lease will expire December 2012. The Concession Development Program (CDP) will incorporate additional concession opportunities from the Terminal 2 West, The Green Build, and Terminal 2 East expansion projects and a new concept for most of the existing locations beginning in December 2012. In February, 2011, eight food service and eight retail concession packages were released for request for proposal. When completed, the CDP will expand from the current approximately 60,000 square feet to approximately 85,000 square feet of food service and retail space. At full build-out in 2014, the number of food service and retail concession locations will increase from 55 to 86.

#### Note 11. Lease Commitments

##### Capital Leases:

**Office equipment leases:** The Airport Authority entered into capital lease agreements for office equipment that require monthly lease payments of \$14,806.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 11. Lease Commitments (Continued)

The following is a schedule of future lease payments applicable to \$760,332 of assets capitalized under lease agreements, and the net present value of the future lease payments as of June 30, 2011:

<u>Years Ending June 30,</u>	<u>Amount</u>
2012	\$ 177,671
2013	177,671
2014	177,671
2015	25,131
Total lease payments	558,144
Less amount representing interest	(38,278)
Present value of future lease payments	<u>\$ 519,866</u>

#### Operating Leases:

**General Dynamics lease:** The Airport Authority is required, by legislation mandating the transfer of airport operations from the District, to lease from the District 89.75 acres of the former General Dynamics property on Pacific Highway adjacent to SDIA for 66 years commencing January 1, 2003. The lease agreement calls for predetermined rents through December 31, 2005, with future rents based upon a market rate established in late 2005 by an appraisal (or arbitration). The amended lease agreement calls for rent payments of \$6,750,000 annually through December 31, 2068. The Airport Authority received a credit for \$375,000 in reduced rent based on a previous lease agreement for the property in September 2006. The changes in terms for this lease were approved by the Airport Authority's Board on July 25, 2006. A portion of the land is leased to the District for employee parking for District administration building employees and is leased back by the District at the same fair market value rent paid by the Airport Authority.

**SDIA lease:** The Airport Authority is leasing from the District 480 acres of land on North Harbor Drive for \$1 per year, for 66 years, through December 31, 2068.

**Teledyne Ryan lease:** The Airport Authority is leasing from the District 46.88 acres on North Harbor Drive referred to as the Teledyne Ryan lease that commenced on January 1, 2005 and expires December 31, 2068, with \$3 million in annual rent.

**Other District leases:** The Airport Authority leases from the District three additional properties adjacent to SDIA. These properties require monthly rentals of \$86,083, \$12,521 and \$4,589 and expire in December 2013, December 2013 and April 2012, respectively. The Airport Authority received credits of \$106,452 in reduced rent based on previous lease agreements for the properties during fiscal year 2006.

On July 24, 2006, the Airport Authority's Board approved a lease with the District for the property located at 2415 Winship Lane, known as the Sky Chef property. The term of the lease is 60 years with \$350,000 in annual rent and commenced September 1, 2006.

Under current law, in the event SDIA is relocated and the District leases are no longer used by the Airport Authority for airport purposes, all District leases will terminate and use of the property will revert to the District.

**Building lease:** The Airport Authority leased modular buildings from an unrelated third party that requires monthly rental of \$1,366 through the expiration date of August, 2013.

# San Diego County Regional Airport Authority

## Notes to Financial Statements

### Note 11. Lease Commitments (Continued)

**Deferred rent (benefit) liability:** The Airport Authority accrues rent expense for its leases with predetermined escalating payments by the straight-line method over the respective lease terms. The accumulated benefit of the reduced scheduled payments of those leases is recorded as a deferred rent liability of \$0 and \$450,073 as of June 30, 2011 and 2010, respectively.

The future rental commitment under the above operating lease agreements as of June 30 are due as follows:

<u>Years Ending June 30,</u>	<u>Amount</u>
2012	\$ 11,428,105
2013	11,382,352
2014	10,741,176
2015	10,100,000
2016	10,100,000
2017-2021	50,500,000
2022-2026	50,500,000
2027-2031	50,500,000
2032-2036	50,500,000
2037-2041	50,500,000
2042-2046	50,500,000
2047-2051	50,500,000
2052-2056	50,500,000
2057-2061	50,500,000
2062-2066	50,500,000
2067-2069	25,250,000
	<u>\$ 584,001,633</u>

The total rental expense charged to operations for the years ended June 30 consists of the following:

	<b>2011</b>	2010
Rental payments made	<b>\$ 11,356,478</b>	\$ 11,355,972
(Decrease) in accumulated benefit of reduced rents	<b>(450,073)</b>	(450,073)
	<b><u>\$ 10,906,405</u></b>	<u>\$ 10,905,899</u>

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 12. Commitments and Contingencies

**Commitments:** As of June 30, 2011 and 2010, the Airport Authority had significant commitments for capital expenditures and other matters as described below:

- i. The Airport Authority has funds which have been classified as current assets, primarily for the unpaid contractual portion of capital projects that are currently in progress, and will not be funded by grants or additional debt, but will be funded through Airport Authority cash. These amounts are for the estimated cost of capital projects that have been authorized by the Board for construction planning to proceed and for the contractual costs of upgrading certain major equipment. At June 30, 2011 and 2010, these funds totaled \$924,568 and \$1,537,894, respectively, and are classified on the accompanying balance sheets as cash and investments designated for specific capital projects and other commitments.
- ii. Support services: As part of the MOU, services provided by the District Harbor Police are required to be purchased by the Airport Authority as long as SDIA continues to operate at Lindbergh Field. At the time of the transfer, the Airport Authority entered into a Master Services Agreement, a Police Services Agreement and a Communications Services Agreement with the District, which described the services that the Airport Authority could purchase and the manner of calculating the payments for such services. The largest amount that became payable under any of these agreements is under the Police Services Agreement, which is for Harbor Police services. The District provided monthly billings to the Airport Authority, with payment generally due 30 days after the date of the invoice, and provision of appropriate supporting documentation. During the years ended June 30, 2011 and 2010, the Airport Authority expensed \$14,132,510 and \$13,467,406, respectively, for these services.
- iii. In addition, the Airport Authority has a profit sharing plan as defined under Section 401(a) of the IRC. Under the plan, eligible employees receive annual discretionary employer contributions. Airport Authority contributions are immediately vested by the participants. For fiscal years 2011 and 2010, \$150,000 and \$145,000 were deposited, respectively.
- iv. Major contracts:
  - During 2007 the Airport Authority Board approved a contract with The Jones Payne Group for \$30 million for on-call architectural and engineering consultant services and support services associated with the capital improvement and airport master plan programs. At June 30, 2011, approximately \$15.9 million had been spent and the remaining contract is due to be completed during fiscal year 2012.
  - During 2006 the Airport Authority Board approved a contract with AECOM Aviation for \$37.8 million for program management and support services associated with the capital improvement program, major maintenance program and airport master plan program. The Board approved additional increases totaling \$43.9 million in fiscal years 2009 and 2010. In 2011, the Board approved \$45 million additional funds and approximately \$85.2 million had been spent to date. The remaining contract is due to be completed during fiscal year 2014.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 12. Commitments and Contingencies (Continued)

- In 2009 the Board approved two design-build contracts for the Terminal Expansion Program, or The Green Build. The program is estimated to cost \$864 million. The Green Build began in fiscal year 2010 and the projected completion date is 2013. The Green Build provides for 10 additional passenger gates, a new dual-level roadway at Terminal 2 and additional aircraft remain-overnight parking areas. The first Green Build contract was approved for the Terminal 2 West Building and Airside Expansion to Turner/PCL/FCI Joint Venture for \$14 million. Additional amounts were approved in fiscal years 2009, 2010 and 2011, for \$110.4 million, \$228 million and \$79 million respectively. As of June 30, 2011, \$132.1 million had been spent and the contract is due to be completed during fiscal year 2013.
- The second contract awarded was for the Terminal 2 Landside Improvements with the Kiewit/Sundt Joint Venture for \$43.8 million approved in 2009 and additional approvals in 2010 and 2011 for \$76.2 million and \$135 million respectively. As of June 30, 2011, \$58.2 million had been spent for the Kiewit/Sundt Joint Venture contract. This contract is scheduled for completion in fiscal year 2013.

**Contingencies:** As of June 30, 2011, the Airport Authority is subject to contingencies arising from legal matters as described below:

The Airport Authority has leases and operating agreements with various tenants. These agreements typically include provisions requiring the tenant/operators to indemnify the Airport Authority for any damage to property or losses to the Airport Authority as a result of the tenant's operations. Also, the leases and operating agreements typically require the Airport Authority to be named as an additional insured under certain insurance policies of the tenants/operators. The Airport Authority also tenders these claims to its own insurers once they become asserted claims. Thus, according to the Airport Authority's legal counsel, when these types of claims are asserted against the Airport Authority, the Airport Authority not only vigorously opposes them but also vigorously seeks contribution and/or indemnity from all tenants/operators involved, from the tenants'/operators' insurers and from its own insurers. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to these matters, or the probability or remoteness of any outcome.

## San Diego County Regional Airport Authority

### Notes to Financial Statements

---

#### Note 12. Commitments and Contingencies (Continued)

##### **Teledyne Ryan Industries, Inc. (TDY)/Allegheny Technologies Inc. and San Diego Unified Port District**

The former TDY property consists of approximately 47 acres of property located at 2701 N. Harbor Drive, San Diego, California. During 2004 the Airport Authority initiated litigation against the District. The litigation (State Court Case 779490 and Federal Case 3:03CV1146) has concluded and resulted in a comprehensive settlement agreement between the District, the Airport Authority and TDY. The property is still the subject of a Cleanup and Abatement Order (CAO) that names TDY as the only responsible party for the contamination on the site.

**CAO No. R9-2004-0258:** This action is ongoing and involves an order by the California Regional Water Quality Control Board, San Diego Region, entitled CAO No. R9-2004-0258, Code No. ICU:02-0381.05 for TDY Industries, Inc., TDY Holdings, LLC, Teledyne Ryan Aeronautical Company and Allegheny Technologies Incorporated, 2701 North Harbor Drive, San Diego, California, dated October 4, 2004, ordering the cleanup and abatement of the Property pursuant to California Water Code Section 13304. The demolition of the buildings and improvements currently located on the property are the joint financial responsibility of the District and the Airport Authority. The Airport Authority's share of the cost is estimated to be \$7 million and will result in the creation of a long-term capital asset. As a result, the Airport Authority will capitalize its share of the demolition costs as these costs are incurred.

##### **Accurate Engineering Integrated Construction Services, Inc.**

Accurate Engineering Integrated Construction Services, Inc. (AEICS) and the Airport Authority entered into a contract dated June 16, 2010 for work related to the Authority's Quieter Home Program (QHP), Project 380506 (the Contract). On June 13, 2011, the Authority gave AEICS a Notice of Default for failure to comply with the Contract terms and provided AEICS until June 28, 2011 to cure. On June 20, 2011, AEICS requested an extension to the cure date, and while the Authority was not legally required to grant the extension, agreed to the extension based upon AEICS' representation that it could complete all outstanding items by July 29, 2011. On July 29, 2011, AEICS had not cured all of the outstanding items and continued in default. On August 4, 2011, the Airport Authority terminated the Contract for cause. AEICS has filed claims under the contract alleging that the termination is improper. No lawsuit has been filed. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

## **San Diego County Regional Airport Authority**

### **Notes to Financial Statements**

---

#### **Note 12. Commitments and Contingencies (Continued)**

##### **West-Tech Contracting, Inc. v. San Diego County Regional Airport Authority (San Diego Superior Court Case No. 37-2010-00106565CU-BC-CTL)**

In April 2008, the Airport Authority entered into a public works contract with West-Tech for Project No. 103044-NTC Landfill Remediation-Phase 2 (the Landfill Contract) for the remediation of burn ash and other material at the old Naval Training Center. On June 25, 2010, West-Tech Contracting, Inc. (West-Tech) filed a claim pursuant to Government Code §910 alleging damages in the amount of approximately \$1,500,000 resulting from an alleged breach of contract by the Airport Authority. West-Tech alleges that the Airport Authority breached the Landfill Contract because: (1) it refused to allow West-Tech to use a landfill that West-Tech believed met the specifications set forth in the Landfill Contract and (2) the estimated amount of burn ash identified in the Landfill Contract as requiring removal was grossly underestimated; (3) West Tech was owed interest on late payments; (4) West Tech was owed attorneys fees on retention. On December 22, 2010, West Tech filed a lawsuit for breach of contract and declaratory relief. The claims in the lawsuit mirror the claims set forth in the claim filed pursuant to the Government Code. The Authority disputes all allegations. The Authority answered the complaint and filed a cross-complaint against West Tech for violations of the False Claims Act. The court has set a trial date of January 13, 2012. The Authority filed a Motion for Summary Adjudication/Motion for Summary Judgment seeking dismissal of the claims. The parties are engaged in discovery. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

##### **Theresa M. Hopkins, Warren B. Hopkins, Carl W. Hopkins**

On June 9, 2011, the Airport Authority received a claim pursuant to Government Code §910 alleging damages arising from the death of Wayne Hopkins. Wayne Hopkins was employed by the Airport Authority from April 1, 2005 until December 10, 2010. While employed by the Airport Authority, Mr. Hopkins' office was located on the TDY site from April 2008 until December 2010. Before being employed by the Airport Authority, Mr. Hopkins worked for the Port District and Teledyne Ryan where his office was located on the TDY site. Mr. Hopkins worked for TDY for approximately 30 years. The claim alleges that Wayne Hopkins was wrongfully exposed to toxic material while he worked at the Teledyne Ryan Aeronautical Facility located at 2701 North Harbor Drive. As a result of the exposure, he developed Non-Hodgkin's Lymphoma which caused his death on December 12, 2010. The claim seeks damages exceeding \$3 million. The Airport Authority Board denied the claim on July 7, 2011. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

## **San Diego County Regional Airport Authority**

### **Notes to Schedule of Expenditures of Federal Awards**

---

#### **Note 1. Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) presents the activity of all federal award programs of the San Diego County Regional Airport Authority (the Airport Authority) for the year ended June 30, 2011. The Schedule includes federal awards received directly from federal agencies. The information in this Schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the Airport Authority, it is not intended to, and does not, present the financial position, changes in net assets or cash flows of the Airport Authority. The Airport Authority's reporting entity is defined in Note 1 to the Airport Authority's basic financial statements.

#### **Note 2. Summary of Significant Accounting Policies**

Expenditures reported on the accompanying Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

#### **Note 3. Subrecipients**

Of the federal expenditures presented in the Schedule, the Airport Authority did not provide any federal awards to subrecipients for the fiscal year ended June 30, 2011.

**Independent Auditor's Report on Internal Control Over Financial  
Reporting and on Compliance and Other Matters Based on an  
Audit of Financial Statements Performed in Accordance  
With Government Auditing Standards**

Members of the Board  
San Diego County Regional Airport Authority  
San Diego, CA

We have audited the financial statements of the San Diego County Regional Airport Authority (the Airport Authority) as of and for the year ended June 30, 2011, and have issued our report thereon dated October 14, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

Management of the Airport Authority is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Airport Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Airport Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Airport Authority's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Airport Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board, management of the Airport Authority and federal awarding agencies, and is not intended to be, and should not be, used by anyone other than those specified parties.

*McGladrey & Pullen, LLP*

San Diego, CA  
October 14, 2011

**Independent Auditor's Report on Compliance With Requirements That Could  
Have a Direct and Material Effect on Each Major Program and Internal Control  
Over Compliance in Accordance With OMB Circular A-133, and on the  
Schedule of Expenditures of Federal Awards**

Members of the Board  
San Diego County Regional Airport Authority  
San Diego, CA

**Compliance**

We have audited the San Diego County Regional Airport Authority's (the Airport Authority) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on the Airport Authority's major federal programs for the year ended June 30, 2011. The Airport Authority's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Airport Authority's management. Our responsibility is to express an opinion on the Airport Authority's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Airport Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Airport Authority's compliance with those requirements.

In our opinion, the Airport Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

**Internal Control Over Compliance**

Management of the Airport Authority is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Airport Authority's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Airport Authority's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

#### **Schedule of Expenditures of Federal Awards**

We have audited the basic financial statements of the Airport Authority as of and for the year ended June 30, 2011, and have issued our report thereon dated October 14, 2011. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Directors, management and federal awarding agencies, and is not intended to be, and should not be, used by anyone other than these specified parties.

**Independent Auditor's Report on the  
Supplementary Schedule of Passenger Facility Charge  
Collections and Expenditures**

To the Members of the Board  
San Diego County Regional Airport Authority  
San Diego, CA

We have submitted, under separate cover, the basic financial statements of the San Diego County Regional Airport Authority for the year ended June 30, 2011, and our report thereon, dated October 14, 2011, is as follows:

We have audited the accompanying basic financial statements of the San Diego County Regional Airport Authority (the Airport Authority), as of and for the years ended June 30, 2011 and 2010, as listed in the table of contents. These financial statements are the responsibility of the Airport Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Airport Authority as of June 30, 2011 and 2010, and the changes in its financial position and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2011 on our consideration of the Airport Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis, as listed in the table of contents, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Passenger Facility Charge Collections and Expenditures, prepared on a modified cash basis, is presented for purposes of additional analysis, as specified in the *Passenger Facility Charge Audit Guide for Public Agencies* issued by the Federal Aviation Administration, and is not a required part of the basic financial statements. It provides relevant information that is not provided by the basic financial statements, and is not intended to be a presentation in conformity with accounting principles generally accepted in the United States of America or a complete presentation in accordance with the accounting basis used for modified cash basis purposes. Under the modified cash basis, passenger facility charge collections are recognized when received rather than when earned, and expenditures are recognized when the obligation is incurred. Such supplemental modified cash basis information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

## **San Diego County Regional Airport Authority**

### **Note to Schedule of Passenger Facility Charge Collections and Expenditures**

---

#### **Note 1. Basis of Presentation**

The accompanying Schedule of Passenger Facility Charge (PFC) Collections and Expenditures includes the PFC activity of the San Diego County Regional Airport Authority and is presented on the modified cash basis of accounting. The information in this schedule is presented for purposes of additional analysis as specified in the *Passenger Facility Charge Audit Guide for Public Agencies* issued by the Federal Aviation Administration. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in preparation of, the basic financial statements.

PFC expenditures may consist of direct project costs, administrative costs, debt service costs and bond financing costs, if requested in the application. Eligible expenditures not requested or approved in the application are not applied against PFCs collected. The accompanying Schedule of Passenger Facility Charge Collections and Expenditures includes the eligible expenditures that have been applied against PFCs collected as of June 30, 2011.

**Independent Auditor's Report on Compliance With Requirements That  
Could Have a Direct and Material Effect on its Passenger Facility Charge  
Program and Internal Control Over Compliance**

To the Members of the Board  
San Diego County Regional Airport Authority  
San Diego, CA

**Compliance**

We have audited the San Diego County Regional Airport Authority's (the Airport Authority) compliance with the compliance requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies* (the Guide), issued by the Federal Aviation Administration, for its passenger facility charge program for the year ended June 30, 2011. Compliance with the requirements of laws and regulations applicable to its passenger facility charge program is the responsibility of the Airport Authority's management. Our responsibility is to express an opinion on the Airport Authority's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the Guide. Those standards and the Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the passenger facility charge program occurred. An audit includes examining, on a test basis, evidence about the Airport Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Airport Authority's compliance with those requirements.

In our opinion, the Airport Authority complied, in all material respects, with the requirements referred to above that could have a direct and material effect on its passenger facility charge program for the year ended June 30, 2011.

**Internal Control Over Compliance**

Management of the Airport Authority is responsible for establishing and maintaining effective internal control over compliance with requirements of laws and regulations applicable to the passenger facility charge program. In planning and performing our audit, we considered the Airport Authority's internal control over compliance with requirements that could have a direct and material effect on the passenger facility charge program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Airport Authority's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a passenger facility charge program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a passenger facility charge program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board, management of the Airport Authority and federal awarding agencies, and is not intended to be, and should not be, used by anyone other than these specified parties.

**Independent Auditor's Report on the  
Supplementary Schedule of Customer Facility Charge  
Collections and Expenditures**

To the Members of the Board  
San Diego County Regional Airport Authority  
San Diego, CA

We have submitted, under separate cover, the basic financial statements of the San Diego County Regional Airport Authority for the year ended June 30, 2011, and our report thereon, dated October 14, 2011, is as follows:

We have audited the accompanying basic financial statements of the San Diego County Regional Airport Authority (the Airport Authority) as of and for the years ended June 30, 2011 and 2010, as listed in the table of contents. These financial statements are the responsibility of the Airport Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Airport Authority as of June 30, 2011 and 2010, and the changes in its financial position and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2011 on our consideration of the Airport Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis, as listed in the table of contents, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Customer Facility Charge (CFC) Collections and Expenditures, prepared on a modified cash basis, is presented for purposes of additional analysis, as specified in California Civil Code Section 1936, and is not a required part of the basic financial statements. It provides relevant information that is not provided by the basic financial statements, and is not intended to be a presentation in conformity with accounting principles generally accepted in the United States of America or a complete presentation in accordance with the accounting basis used for modified cash basis purposes. Under the modified cash basis, CFC collections are recognized when received rather than when earned, and expenditures are recognized when the obligation is incurred. Such supplemental modified cash basis information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

See Notes to Schedule of Customer Facility Charge (CFC) Collections and Expenditures.

## **San Diego County Regional Airport Authority**

### **Notes to Schedule of Customer Facility Charge Collections and Expenditures**

---

#### **Note 1. General**

In May 2009, Assembly Bill 491 of the 2001-2002 California Legislature (codified in California Civil Code Section 1936 et seq.) authorized the Airport Authority to impose a \$10 customer facility charge (CFC) per contract on rental cars at San Diego International Airport.

In accordance with the program, the CFC revenue must be used to pay allowable costs for approved capital projects. The capital project the Airport Authority is utilizing CFC revenue for is the development of a consolidated rental car facility plan. The primary objectives of this project are to reduce vehicle traffic volume on terminal curb fronts and Harbor Drive, provide a long-term rental car facility and site for airport passengers and rental car concessionaires, and to implement a common-use busing system.

#### **Note 2. Basis of Presentation**

The accompanying Schedule of Customer Facility Charge Collections and Expenditures includes the CFC activity of the San Diego County Regional Airport Authority and is presented on the modified cash basis of accounting. The information in this schedule is presented for purposes of additional analysis, as specified in California Civil Code Section 1936. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

CFC expenditures may consist of direct project costs, administrative costs, debt service costs and bond financing costs. The accompanying Schedule of Customer Facility Charge Collections and Expenditures includes the eligible expenditures that have been applied against CFCs collected as of June 30, 2011.

**Independent Auditor's Report on Compliance With Requirements That  
Could Have a Direct and Material Effect on its Customer Facility  
Charge Program and Internal Control Over Compliance**

To the Members of the Board  
San Diego County Regional Airport Authority  
San Diego, CA

**Compliance**

We have audited the San Diego County Regional Airport Authority's (the Airport Authority) compliance with the compliance requirements described in the California Civil Code Section 1936, for its customer facility charge (CFC) program for the year ended June 30, 2011. Compliance with the requirements of laws and regulations applicable to its CFC program is the responsibility of the Airport Authority's management. Our responsibility is to express an opinion on the Airport Authority's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the CFC program occurred. An audit includes examining, on a test basis, evidence about the Airport Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Airport Authority's compliance with those requirements.

In our opinion, the Airport Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its CFC program for the year ended June 30, 2011.

**Internal Control Over Compliance**

Management of the Airport Authority is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to the CFC program. In planning and performing our audit, we considered the Airport Authority's internal control over compliance with requirements that could have a direct and material effect on the CFC program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Airport Authority's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a

federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board, management of the Airport Authority, and the California State Controller's Office, and is not intended to be, and should not be, used by anyone other than those specified parties.

## **Report to the Audit Committee**

November 14, 2011

November 14, 2011

Members of the Audit Committee  
San Diego County Regional Airport Authority  
San Diego, CA

Attention: Mr. Tom Smisek, Audit Committee Chair

We are pleased to present this report related to our audit of the financial statements and compliance of San Diego County Regional Airport Authority (the Airport Authority) for the year ended June 30, 2011. This report summarizes certain matters required by professional standards to be communicated to you in your oversight responsibility for San Diego County Regional Airport Authority's financial and compliance reporting process.

This report is intended solely for the information and use of the Audit Committee, Board of Trustees and management, and is not intended to be, and should not be, used by anyone other than these specified parties. It will be our pleasure to respond to any questions you have regarding this report. We appreciate the opportunity to continue to be of service to the San Diego County Regional Airport Authority.

## Required Communications

Statement on Auditing Standards No. 114 requires the auditor to communicate certain matters to keep those charged with governance adequately informed about matters related to the financial statement audit that are, in our professional judgment, significant and relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. The following summarizes these communications:

Area	Comments
<b>Auditor's Responsibility Under Professional Standards</b>	<p>Our responsibility under auditing standards generally accepted in the United States of America and Government Auditing Standards, issued by the Comptroller General of the United States, has been described to you in our arrangement letter dated July 25, 2011.</p>
<b>Accounting Practices</b>	<p><b>Adoption of, or Change in, Accounting Policies</b></p> <p>Management has the ultimate responsibility for the appropriateness of the accounting policies used by the Airport Authority. Following is a description of significant accounting policies or their application that were either initially selected or changed during the year:</p> <ul style="list-style-type: none"><li>• <b>GASB Statement No. 59</b>, <i>Financial Instruments Omnibus</i>, was issued in June 2010 and implemented by the Airport Authority for the year ended June 30, 2011. This Statement updates and improves existing standards regarding financial reporting of certain financial instruments and external investment pools.</li></ul> <p><b>Significant or Unusual Transactions</b></p> <p>We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.</p> <p><b>Alternative Treatments Discussed With Management</b></p> <p>We did not discuss with management any alternative treatments within generally accepted accounting principles for accounting policies and practices related to material items during the current audit period.</p>
<b>Management's Judgments and Accounting Estimates</b>	<p>Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached Summary of Accounting Estimates.</p>

Area	Comments
<b>Financial Statement Disclosures</b>	<p>In our meeting with you on November 14, 2011, we will discuss with you the following items as they relate to the neutrality, consistency and clarity of the disclosures in the financial statements:</p> <ul style="list-style-type: none"> <li>• Subordinate 2010 Series Bond</li> <li>• Identified Major Programs: <ul style="list-style-type: none"> <li>○ Airport Improvement Program</li> <li>○ TSA Checked Baggage Inspection System Program – (ARRA):</li> </ul> </li> </ul>
<b>Audit Adjustments</b>	<p>Audit adjustments recorded by San Diego County Regional Airport Authority are shown on the attached Summary of Recorded Audit Adjustments.</p>
<b>Uncorrected Misstatements</b>	<p>Uncorrected misstatements are summarized in the attached Summaries of Uncorrected Misstatements included within Exhibit A.</p>
<b>Disagreements With Management</b>	<p>We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit, or significant disclosures to be included in the financial statements.</p>
<b>Consultations With Other Accountants</b>	<p>We are not aware of any consultations management had with other accountants about accounting or auditing matters.</p>
<b>Significant Issues Discussed With Management</b>	<p>No significant issues arising from the audit were discussed or were the subject of correspondence with management.</p>
<b>Difficulties Encountered in Performing the Audit</b>	<p>We did not encounter any difficulties in dealing with management during the audit.</p>
<b>Letter Communicating Significant Deficiencies and Material Weaknesses</b>	<p>We did not identify any significant deficiencies or material weaknesses, nor any noncompliance during our audit of the financial statements and major awards that is required to be communicated in accordance with <i>Government Auditing Standards</i> and OMB Circular A-133.</p>
<b>Certain Written Communications Between Management and Our Firm</b>	<p>Copies of certain written communications between our firm and the management of the Airport Authority are attached as Exhibit A.</p>

**San Diego County Regional Airport Authority**  
**Summary of Accounting Estimates**  
**Year Ended June 30, 2011**

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses its knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to compute and record these accounting estimates. The following describes the significant accounting estimates reflected in the Airport Authority's June 30, 2011, financial statements:

<b>Area</b>	<b>Accounting Policy</b>	<b>Estimation Process</b>	<b>Comments</b>
<b>Tenant Lease Receivables</b>	Record accounts receivable net of the allowance for estimated uncollectible accounts.	In estimating the Airport Authority's allowance for doubtful accounts, management specifically identifies receivables that it believes to be uncollectible based on relevant facts, such as bankruptcy filings and customers' financial outlooks.	We tested the propriety of information underlying management's estimate. Based on our procedures, we concluded that management's approach is reasonable. The change in allowance is supported by the accounts receivable records.
<b>Useful Lives of Long-Lived Assets</b>	The estimated useful lives of assets generally have the following ranges: land improvements, 30 to 40 years; runways, taxiways, roads and parking areas, five to 30 years; buildings, structures and improvements, five to 30 years; and machinery and equipment, three to 10 years. These assets are depreciated using the straight-line method. Land is not depreciated, and construction in progress is not depreciated until ready for service and capitalized.	Management reviews for changes in the useful lives of long-lived assets by evaluating prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset is considered impaired if both the decline in service utility of the capital asset is large in magnitude and the event or change in circumstance is outside the normal life cycle of the capital asset. Common indicators of impairment include: evidence of physical damage where restoration efforts are	We tested the reasonableness of information underlying management's estimate. Based on our procedures, we concluded that assigned useful lives of long-lived assets are reasonable.

Area	Accounting Policy	Estimation Process	Comments
<b>Useful Lives of Long-Lived Assets, Continued</b>		needed to restore service utility, enactment or approval of laws or regulations setting standards that the capital asset would not be able to meet, technological development or evidence of obsolescence, a change in the manner or expected duration of use of a capital asset, or construction stoppage.	
<b>Pension Obligations and Postemployment Benefits Other Than Pensions</b>	Record pension and postemployment benefits cost based on an estimated annual contribution rate.	<p>For postemployment benefits other than pensions, management utilizes an actuarial consulting firm to perform an evaluation using the entry-age-actuarial-cost method. Management reviewed and approved the actuarial assumptions and calculations used to determine the postemployment benefit costs.</p> <p>For pension obligations, management utilizes City of San Diego Employees' Retirement System (CERS) actuaries for its defined benefit plan. Management reviewed and approved the actuarial assumptions and calculations used to determine the pension costs.</p>	We tested the reasonableness of the information underlying the actuarial evaluations. Based on our procedures, we concluded that the costs recorded are reasonable.

<b>Area</b>	<b>Accounting Policy</b>	<b>Estimation Process</b>	<b>Comments</b>
<b>Construction in Progress and Related Accrued Liabilities</b>	Record construction in progress, a component of capital assets, based on construction progress and estimated cost to complete. Record corresponding accrued liabilities at period-end for costs that have been incurred through the period-end but not yet paid as of the period-end.	Management estimates construction in progress and the related liabilities based on review of the construction progress, discussions with the contractors conducting the work and review of invoices received after year-end.	We tested the reasonableness of the estimates through capital asset and accrued liability testing. Based on our procedures, we concluded that the costs recorded are reasonable.

# SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY

P.O. BOX 82776, SAN DIEGO, CA 92138-2776  
619.400.2400 WWW.SAN.ORG

October 14, 2011

McGladrey & Pullen, LLP  
1455 Frazee Road, Suite 600  
San Diego, California 92108-4307

In connection with your audits of the basic financial statements of San Diego County Regional Airport Authority (the Airport Authority) as of and for the years ended June 30, 2011 and 2010, we confirm that we are responsible for the fair presentation in the financial statements of financial position, changes in financial position, and cash flows in conformity with accounting principles generally accepted in the United States of America.

We confirm to the best of our knowledge and belief, as of October 14, 2011, the following representations made to you during your audits.

1. The financial statements referred to above are fairly presented in conformity with accounting principles generally accepted in the United States of America.
2. There are no organizations that are a part of this reporting entity or with which we have a relationship, as these organizations are defined in Section 2100 of the Governmental Accounting Standards Board's Codification of Governmental Accounting and Financial Reporting Standards, that are:
  - a. Component units.
  - b. Other organizations for which the nature and significance of their relationship with the Airport Authority are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.
  - c. Jointly governed organizations in which we participated.
3. We have indicated to you that the Airport Authority operates as a single proprietary fund.
4. We have properly classified all activities.
5. We are responsible for compliance with laws and regulations applicable to the Airport Authority including adopting, approving, and amending budgets.
6. We have identified and disclosed to you all laws and regulations that have a direct and material effect on the determination of financial statement amounts including legal and contractual provisions for reporting specific activities.
7. We have made available to you:
  - a. All financial records and related data of all activities in existence at any time during the period covered by your audit.
  - b. All minutes of the meetings of the governing board and committees of board members or summaries of actions of recent meetings for which minutes have not yet been prepared.

SAN DIEGO  
INTERNATIONAL  
AIRPORT

8. We have no knowledge of fraud or suspected fraud affecting the Airport Authority involving:
  - a. Management
  - b. Employees who have significant roles in the internal control.
  - c. Others where the fraud could have a material effect on the financial statements.
9. We acknowledge our responsibility for the design and implementation of programs and controls to provide reasonable assurance that fraud is prevented and detected.
10. We have no knowledge of any allegations of fraud or suspected fraud affecting the Airport Authority received in communications from employees, former employees, analysts, regulators, or others.
11. We are aware of no significant deficiencies, including material weaknesses, in the design or operation of internal controls that could adversely affect the entity's ability to record, process, summarize, and report financial data.
12. There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
13. We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
14. The following have been properly recorded and/or disclosed in the financial statements:
  - a. Security agreements in effect under the Uniform Commercial Code.
  - b. Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances.
  - c. Any other liens or encumbrances on assets or revenues or any assets or revenues which were pledged as collateral for any liability or which were subordinated in any way.
  - d. The fair value of investments.
  - e. Amounts of contractual obligations for construction and purchase of real property or equipment not included in the liabilities or encumbrances recorded on the books.
  - f. Any liabilities which are subordinated in any way to any other actual or possible liabilities.
  - g. Debt issue repurchase options or agreements, or sinking fund debt repurchase ordinance requirements.
  - h. Debt issue provisions.
  - i. All leases and material amounts of rental obligations under long-term leases.
  - j. All significant estimates and material concentrations known to management which are required to be disclosed in accordance with the AICPA's Statement of Position No. 94-6, *Disclosure of Certain Significant Risks and Uncertainties*. Significant estimates are estimates at the balance sheet date which could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets for which events could occur which would significantly disrupt normal finances within the next year.
  - k. Authorized but unissued Commercial Paper Series A, B and C, or any other bonds or notes.
  - l. Risk financing activities.
  - n. The effect which has not been determined on the financial statements of GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*; GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*; GASB Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*; GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*; GASB Statement No.

63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*; and GASB Statement No. 64, *Derivative Instruments: Application of Hedge Accounting Termination Provisions—an amendment of GASB Statement No. 53* which have been issued, but which we have not yet adopted.

- o. Deposits and investment securities categories of risks.
  - p. Arbitrage rebate liabilities.
  - q. Environmental clean-up obligations.
  - r. Pension obligations, post-retirement benefits other than pensions and deferred compensation agreements attributable to employee services rendered through June 30, 2011.
  - s. Defined pension plan disclosures.
  - t. Board designated unrestricted net assets.
15. We are responsible for making the accounting estimates included in the financial statements. Those estimates reflect our judgment based on our knowledge and experience about past and current events and our assumptions about conditions we expect to exist and courses of action we expect to take. In that regard, adequate provisions have been made:
- a. To reduce receivables to their estimated net collectable amounts.
  - b. For post-retirement benefits other than pensions attributable to employee services rendered through June 30, 2011.
16. There are no:
- a. Communications from grantors, lenders, other funding sources, or regulatory agencies concerning noncompliance with:
    - (1) Statutory, regulatory, or contractual provisions or requirements.
    - (2) Financial reporting practices that could have a material effect on the financial statements.
  - b. Related party transactions as defined in Section 2100 of the Governmental Accounting Standards Board's Codification of Governmental Accounting and Financial Reporting Standards.
  - c. Guarantees, whether written or oral, under which the Airport Authority is contingently liable.
  - e. Line of credit or similar arrangements.
  - f. Agreements to repurchase assets previously sold.
  - g. Derivative financial instruments.
  - h. Special and extraordinary items.
  - i. Impairment of capital assets.
  - j. Obsolete, damaged, or excess inventories.
  - k. Investments, intangibles, or other assets which have permanently declined in value.
  - l. Material losses to be sustained in the fulfillment of, or from the inability to fulfill, any service commitments.
  - m. Material losses to be sustained as a result of purchase commitments.
  - n. Material transactions that have not been properly recorded in the accounting records underlying the financial statements.

- o. Uninsured losses or loss retentions (deductibles) attributable to events occurring through June 30, 2011 and/or for expected retroactive insurance premium adjustments applicable to periods through June 30, 2011.
- p. Violations or possible violations of laws or regulations whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency. In that regard, we specifically represent that we have not been designated as, or alleged to be, a "potentially responsible party" by the Federal Environmental Protection Agency or any equivalent state agencies in connection with any environmental contamination.
- q. Other material liabilities or gain or loss contingencies that are required to be accrued or disclosed by Statement of Financial Accounting Standards No. 5 and/or GASB Statement No. 10, other than as disclosed in the footnotes to the basic financial statements as follows:

**Teledyne Ryan Industries, Inc. (TDY)/Allegheny Technologies Inc. and San Diego Unified Port District**

The former TDY property consists of approximately 44 acres of property located at 2701 N. Harbor Drive, San Diego, California. During 2004 the Airport Authority initiated litigation against the District. The litigation (State Court Case 779490 and Federal Case 3:03CV1146) has concluded and resulted in a comprehensive settlement agreement between the District, the Airport Authority and TDY. The property is still the subject of a Cleanup and Abatement Order (CAO) that names TDY as the only responsible party for the contamination on the site.

**Clean Up and Abatement Order (CAO) No. R9-2004-0258** This action is ongoing and involves an order by the California Regional Water Quality Control Board, San Diego Region, entitled Cleanup and Abatement Order (CAO) No. R9-2004-0258, Code No. ICU:02-0381.05 for TDY Industries, Inc., TDY Holdings, LLC, Teledyne Ryan Aeronautical Company and Allegheny Technologies Incorporated, 2701 North Harbor Drive, San Diego, California, dated October 4, 2004, ordering the cleanup and abatement of the Property pursuant to California Water Code Section 13304. The demolition of the buildings and improvements currently located on the property are the joint financial responsibility of the District and the Airport Authority. The Airport Authority's share of the cost is estimated to be \$7 million and will result in the creation of a long-term capital asset. As a result, the Airport Authority will capitalize its share of the demolition costs as these costs are incurred.

**Accurate Engineering Integrated Construction Services, Inc.**

Accurate Engineering Integrated Construction Services, Inc. ("AEICS") and the Airport Authority entered into a contract dated June 16, 2010 for work related to the Authority's Quieter Home Program ("QHP") - Project 380506 ("Contract"). On June 13, 2011, the Authority gave AEICS a "Notice of Default" for failure to comply with the Contract terms and provided AEICS until June 28, 2011 to cure. On June 20, 2011, AEICS requested an extension to the cure date, and while the Authority was not legally required to grant the extension agreed to the extension based upon AEICS' representation that it could complete all outstanding items by July 29, 2011. On July 29, 2011, AEICS had not cured all of the outstanding items and continued in default. On August 4, 2011, the Airport Authority terminated the Contract for cause. AEICS has filed claims under the contract alleging that the termination is improper. No lawsuit has been filed. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

### **West-Tech Contracting, Inc. – Project No. 103044 Landfill Remediation-Phase 2**

In April 2008, the Airport Authority entered into a public works contract with West-Tech for Project No. 103044-NTC Landfill Remediation-Phase 2 (Contract) for the remediation of burn ash and other material at the old Naval Training Center. On June 25, 2010, West-Tech Contracting, Inc. (West-Tech) filed a claim pursuant to Government Code §910 alleging damages in the amount of approximately \$1,500,000 resulting from an alleged breach of contract by the Airport Authority. West-Tech alleges that the Airport Authority breached the contract because: (1) it refused to allow West-Tech to use a landfill that West-Tech believed met the specifications set forth in the Contract and (2) the estimated amount of burn ash identified in the Contract as requiring removal was grossly underestimated; (3) West Tech was owed interest on late payments; (4) West Tech was owed attorneys fees on retention. On December 22, 2010, West Tech filed a lawsuit for breach of contract and declaratory relief. The claims in the lawsuit mirror the claims set forth in the claim filed pursuant to the Government Code. The Authority disputes all allegations. The Authority answered the complaint and filed a cross complaint against West Tech for violations of the False Claims Act. The court has set a trial date of January 13, 2012. The Authority filed a Motion for Summary Adjudication/Motion for Summary Judgment seeking dismissal of the claims. The parties are engaged in discovery. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

### **Theresa M. Hopkins, Warren B. Hopkins, Carl W. Hopkins**

On June 9, 2011, the Airport Authority received a claim pursuant to Government Code §910 alleging damages arising from the death of Wayne Hopkins. Wayne Hopkins was employed by the Airport Authority from April 1, 2005 until December 10, 2010. While employed by the Airport Authority, Mr. Hopkins' office was located on the TDY site from April 2008 until December 2010. Before being employed by the Airport Authority, Mr. Hopkins worked for the Port District and Teledyne Ryan where his office was located on the TDY site. Mr. Hopkins worked for TDY for approximately 30 years. The claim alleges that Wayne Hopkins was wrongfully exposed to toxic material while he worked at the Teledyne Ryan Aeronautical Facility located at 2701 North Harbor Drive. As a result of the exposure, he developed Non-Hodgkin's Lymphoma which caused his death on December 12, 2010. The claim seeks damages exceeding \$3 million. The Airport Authority Board denied the claim on July 7, 2011. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

17. There are no unasserted claims or assessments that our lawyer has advised us are probable of assertion and must be disclosed in accordance with Statement of Financial Accounting Standards No.5 and/or GASB Statement No.10.
18. We have satisfactory title to all owned assets.
19. We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
20. Net asset components (invested in capital assets, net of related debt; restricted; and unrestricted) are properly classified and, if applicable, approved.
21. Capital assets are properly capitalized, reported, and depreciated.
22. Required supplementary information is properly measured and presented.
23. We are responsible for and have reviewed and approved the proposed adjustments to the trial balance identified during the audit, which include recording and accruing expenses and capital expenditures in the proper period, reconciling net assets, accruing for additional concession revenue, recording the true-up of the airline rates, fees and charges to the actual expenses incurred by the Airport Authority, recording bond issuance costs and premiums for the 2010 Series Bonds per the effective interest rate method, and reversing gains not yet collected as of June 30, 2011. These adjustments were posted to the general ledger. We have reviewed, approved, and

are responsible for overseeing the preparation and completion of the basic financial statements and related notes.

24. The Airport Authority has developed a comprehensive Risk Management Program, which includes risk transfer, loss prevention, loss control and claims administration. The Authority has purchased excess liability, airport, workers' compensation and automotive insurance, in addition to property, machinery and other miscellaneous insurance coverage. The Authority also administers an owner-controller insurance program covering all projects in the Airport Capital Improvement Program. The Authority's coverage includes a variety of retentions or deductibles. A \$5,223,990 contingency reserve has been established, within unrestricted equity, by the Airport Authority's management. There are no amounts accrued for liabilities or unpaid claims against the Airport Authority at June 30, 2011.
25. Additionally, the Airport Authority relies upon the Federal Emergency Management Agency (FEMA) and the California Disaster Assistance Act (CDDA) which are designed to assist public entities such as the Airport Authority in the event of a catastrophe. FEMA will pay up to 75 percent of a loss and CDDA will pay at a minimum 25 percent of the balance for nationally declared disasters. Based on the status of these laws and the condition of the insurance market place, the Airport Authority previously removed the purchase of commercial earthquake insurance from the Risk Management program and increased reliance on the laws designed to assist public entities. As of June 30, 2011, the Authority has \$5,223,990 for earthquake contingency reserve. This reserve is intended to increase as deemed by management.
26. The Airport Authority incurs certain costs that relate to the construction of capital assets. The Airport Authority capitalizes only those costs that are incremental to the construction of capital assets.
27. We have properly accounted for the pollution remediation costs incurred on the Teledyne Ryan property and the Naval Training Center property under GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*.

In connection with your audit, conducted in accordance with *Government Auditing Standards*, we confirm:

28. We are responsible for:
  - a. Compliance with the laws, regulations, and provisions of contracts and grant agreements applicable to the Airport Authority.
  - b. Establishing and maintaining effective internal control over financial reporting.
29. We have identified and disclosed to you all laws, regulations, and provisions of contracts and grant agreements that have a direct and material effect on the determinations of financial statement amounts or other financial data significant to audit objectives.
30. We have a process to track the status of audit findings and recommendations.
31. There have been no:
  - a. Violations (and possible violations) of laws, regulations, and provisions of contracts and grant agreements whose effects should be considered for disclosure in the auditor repository or noncompliance.
  - b. Fraud, illegal acts, violations of provisions of contracts or grant agreements, or abuse that has been reported.
  - c. Previous financial audits, attestation engagements, performance audits, or other studies related to the objectives of the audit being undertaken and the corrective action taken to address significant findings and recommendations.
  - d. Reported findings, conclusions, or recommendations, as well as our planned corrective actions for the report.

In connection with your audit of federal awards conducted in accordance with OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, we confirm:

32. We are responsible for complying, and have complied, with the requirements of Circular A-133.
33. We have prepared the schedule of expenditures of federal awards in accordance with Circular A-133 and have included expenditures made during the period being audited for all awards provided by federal agencies in the form of grants, federal cost-reimbursement contracts, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, direct appropriations, and other assistance.
34. We have prepared the schedule of Passenger Facility Charge (PFC) Collections and Expenditures in accordance with the PFC Audit Guide and have included expenditures made during the period being audited for all PFC revenues.
35. We have prepared the Schedule of Customer Facility Charge (CFC) Collections and Expenditures in accordance with our understanding of the requirements of the California Civil Code Section 1936.
36. The expenditures incurred through June 30, 2011, totaling \$1,151,113, are necessary expenditures for the purposes of designing, financing, constructing a potential consolidated rental car facility and common use transportation system.
37. The collections received through June 30, 2011 are not in excess of the reasonable amount of collections necessary to design, finance and construct a potential consolidated rental car facility and common use transportation system.
38. The Customer Facility Charge fee of \$10 per rental car contract has been consistently applied.
39. We are responsible for establishing and maintaining, and have established and maintained, effective internal control over compliance for federal programs that provides reasonable assurance that the Airport Authority is managing federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on our federal programs.
40. We are responsible for complying with the requirements of laws, regulations, and the provisions of contracts and grant agreements related to each of the Airport Authority's federal programs and have complied, in all material respects, with those requirements.
41. We have identified and disclosed to you the requirements of laws, regulations, and the provisions of contracts and grant agreements that are considered to have a direct and material effect on each major program.
42. We are not aware of any compliance requirements that have varying interpretations.
43. We have made available all contracts and grant agreements (including amendments, if any) and any other correspondence that has taken place with federal agencies or pass-through entities related to federal programs.
44. We have charged costs to federal awards in accordance with applicable cost principles.
45. We have made available to you all documentation related to the compliance requirements, including information related to federal program financial reports and claims for advances and reimbursements.
46. Federal program financial reports and claims for advances and reimbursements are supported by the books and records from which the basic financial statements have been prepared.
47. The copies of federal program financial reports provided to you are true copies of the reports submitted, or electronically transmitted, to the federal agency or pass-through entity, as applicable.
48. We are responsible for and have accurately prepared the summary schedule of prior audit findings to include all findings required to be included by Circular A-133.
49. We have accurately completed the appropriate sections of the data collection form.

50. We have disclosed all contracts or other agreements with service organizations.

51. There have been no:

- a. Amounts questioned or known noncompliance with the requirements of federal awards, including those resulting from other audits or program reviews.
- b. Subrecipients which receive pass-through assistance as outlined in Circular A-133.
- c. Prior audit findings by federal awarding agencies and pass-through entities, including all management decisions.
- d. Communications from service organizations relating to noncompliance at those organizations.
- e. Instances of known noncompliance occurring subsequent to the period for which compliance is audited.
- f. Changes in internal control over compliance or other factors that might significantly affect internal control, including any corrective action taken by management with regard to significant deficiencies (including material weaknesses), have occurred subsequent of the date as of which compliance is audited.

No events or transactions other than those disclosed in the basic financial statements have occurred subsequent to the balance sheet date that would require adjustment to, or disclosure in, the financial statements.

During the course of your audit, you may have accumulated records containing data which should be reflected in our books and records. All such data have been so reflected. Accordingly, copies of such records in your possession are no longer needed by us.

As of and for the Year Ended June 30, 2011

We believe that the effects of the uncorrected misstatements aggregated by you and summarized below are immaterial, both individually and in the aggregate to the financial statements taken as a whole. For purposes of this representation, we consider items to be material, regardless of their size, if they involve the misstatement or omission of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

# San Diego County Regional Airport Authority

## Financial and Compliance Audit for the year ended June 30, 2011

Presented By:

Christie Kubicek, Partner

Peter George, Director

McGladrey and Pullen, LLP

November 14, 2011

# Agenda

- Introduction
- Our audit responsibilities
- Communications to the Audit Committee
- Internal Controls and Management Comments
- Overview of Financial Statements
- Overview of Single Audit Report
- Overview of Passenger Facility Charge Report
- Overview of Customer Facility Charge Report
- Questions and Answers

# Auditor Responsibilities

- Perform an audit of the Airport Authority's financial statements as of and for the year ended June 30, 2011
- The objective of an audit of financial statements is to express an opinion that the financial statements are in accordance with generally accepted accounting principles (GAAP)
- The audit was performed in accordance with auditing standards generally accepted in the United States and *Government Auditing Standards*
- Those standards require that we plan and perform the audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement whether caused by error or fraud

# Auditor Responsibilities, Continued

## ■ Deliverables

- Unqualified opinion on the Airport Authority's basic financial statements
- Opinions on 1) internal control over financial reporting and on compliance and other matters 2) compliance with requirements applicable to each major program and Circular A-133 (Single Audit) for the Airport Authority
- Opinions on internal control and compliance relative to the Airport Authority's 1) Passenger Facility Charge program and 2) Customer Facility Charge program
- Communications to Audit Committee including summary of audit results

# Communications to the Audit Committee

- Auditor's responsibility under professional standards
- Accounting practices – adoption of or changes in accounting policies, alternative treatments
- There was 1 audit adjustment made to the financial statements
- There were no uncorrected misstatements
- There were no disagreements with management
- There were no consultations with other accountants
- There were no major issues or difficulties encountered during the audit
- We have provided copies of written communications with management

# Types of Deficiencies in Internal Control

- **Control deficiencies** — design or operation of a control does not allow management or employees in the normal course of performing their assigned functions to prevent or detect and correct misstatements on a timely basis
- **Material weaknesses** — a deficiency or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis
- **Significant deficiencies** — a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance

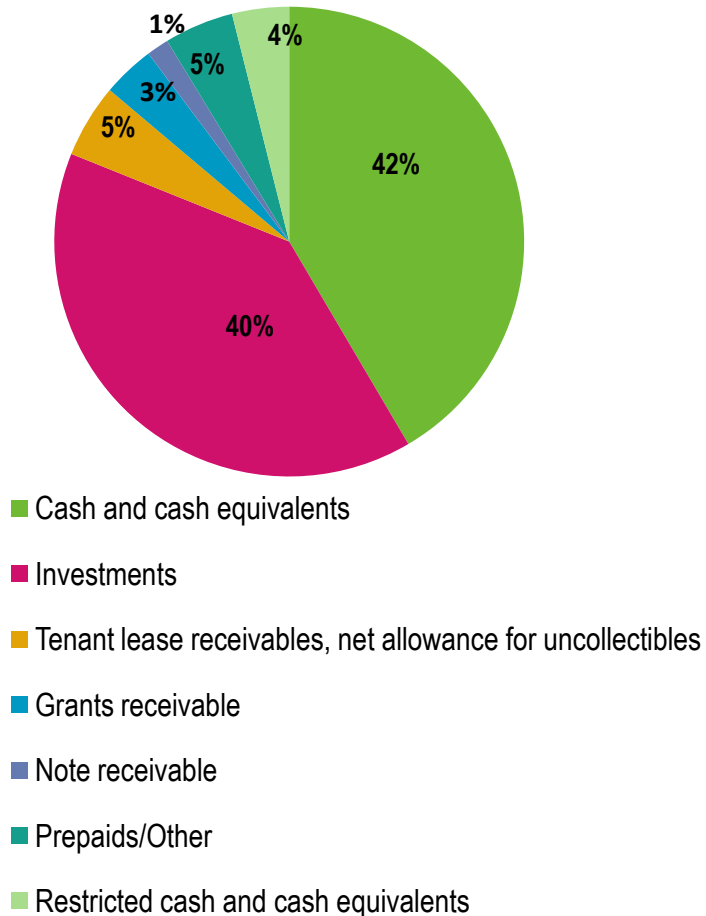

# Specific Findings Applicable to the Airport Authority

- No material weaknesses noted for FY 2011
- No significant deficiencies noted for FY 2011
- No control deficiencies or management comments noted for FY 2011 that are required to be communicated to the audit committee

# Current Assets as of June 30, 2011 and 2010

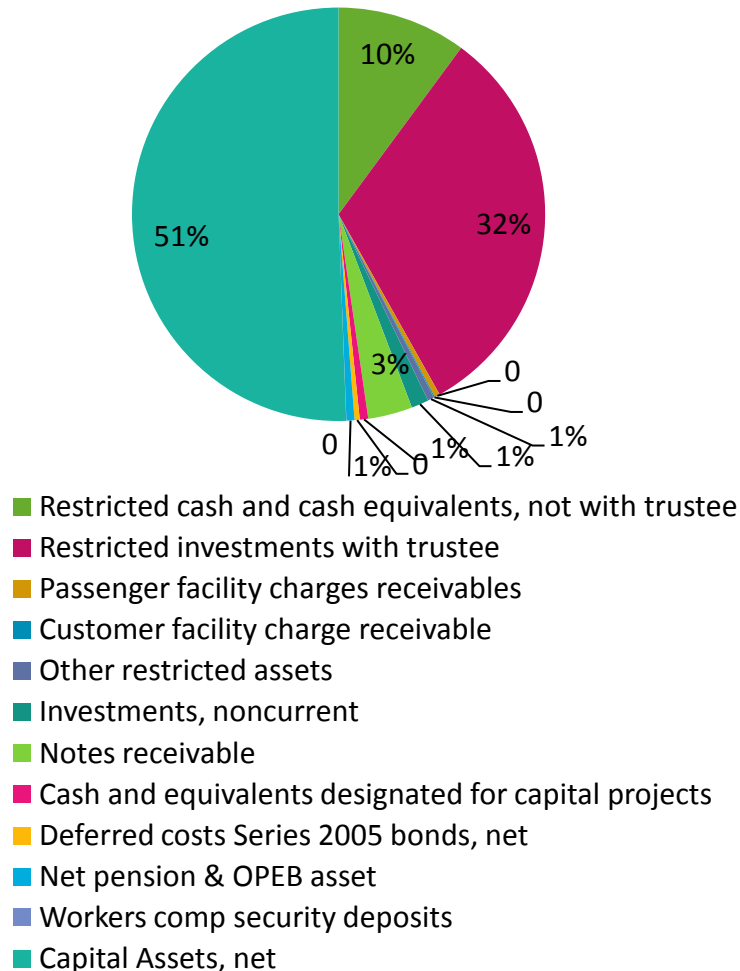

Current Assets as of 6/30/11

Description	6/30/2011	6/30/2010
Cash and cash equivalents	\$ 45,859	\$ 30,192
Investments	43,680	74,854
Tenant lease receivables, net of allowance for uncollectibles	5,593	6,134
Grants receivable	3,985	3,866
