Pursuant to Airport Authority Policy 8.30 and acting in its delegated capacity as the Airport Land Use Commission (ALUC) for San Diego County, Airport Authority staff has issued the following consistency determinations per their respective Airport Land Use Compatibility Plans (ALUCPs). Authority Policy 8.30(3)(f)(2) states that any determination made by Authority staff in its delegated capacity shall be placed on the ALUC agenda for the next available meeting and shall be considered final if no further action is taken by the ALUC.

#### Gillespie Field ALUCP:

##### **Construction of Warehouse at 9520 Pathway Street, City of Santee**

Deemed Complete and Consistent on April 3, 2025

Description of Project: The project involves the construction of a warehouse of 1,152 square feet on a property of 9,499 square feet with an existing 8,347 square foot office, warehouse and distribution building to remain.

Noise Contours: The proposed project lies within the 65-70 decibel Community Noise Equivalent Level (dB CNEL) noise exposure contour. The ALUCP identifies warehouse uses located within the 65-70 dB CNEL noise contour as compatible with airport uses.

Airspace Protection Surfaces: The maximum height of the proposed project structure will be approximately 375 feet above mean sea level (20 feet above ground level). The proposed project is in compliance with the ALUCP airspace protection surfaces because the project sponsor has certified that notice of construction is not required to the Federal Aviation Administration (FAA) because the project is located within an urbanized area, is substantially shielded by existing structures or natural terrain, and cannot reasonably have an adverse effect on air navigation.

Safety Zones: The proposed project is located within Safety Zone 2. The ALUCP identifies warehouse uses located within Safety Zone 2 as compatible with airport uses.

Overflight Notification: The proposed project is located within the overflight notification area but does not involve any new residential use subject to overflight notification requirements.

Interest Disclosure: The property is owned by Kore Essentials, Inc. of Santee, whose contact is disclosed as Karl Kozak. The architect is Matthew Ellis of San Diego. The civil engineer is Excel Engineering of Escondido. The certified pre-engineered building systems is Empire Steel Buildings of Salem, Oregon. The electrical engineer is Summit Electrical, Inc., of San Diego.

## **Establishment of Office and Outdoor Equipment Sales and Rental Yard at 10527 Prospect Avenue, City of Santee**

Deemed Complete and Consistent on April 3, 2025

Description of Project: The project involves the establishment of an outdoor equipment sales and rental yard and the conversion of an existing garage to an office of 608 square feet on a property of 0.56 acres.

Noise Contours: The proposed project lies within the 60-65 decibel Community Noise Equivalent Level (dB CNEL) noise exposure contour. The ALUCP identifies office and outdoor storage uses located within the 60-65 dB CNEL noise contour as compatible with airport uses.

Airspace Protection Surfaces: The maximum height of the proposed project structure will be approximately 395 feet above mean sea level (12 feet above ground level). The proposed project is in compliance with the ALUCP airspace protection surfaces because the project sponsor has certified that notice of construction is not required to the Federal Aviation Administration (FAA) because the project is located within an urbanized area, is substantially shielded by existing structures or natural terrain, and cannot reasonably have an adverse effect on air navigation.

Safety Zones: The proposed project is located within Safety Zone 6. The ALUCP identifies office and low-intensity or outdoor-oriented retail or wholesale trade uses located within Safety Zone 6 as compatible with airport uses.

Meeting Date: May 1, 2025

Overflight Notification: The proposed project is located within the overflight notification area but does not involve any new residential use subject to overflight notification requirements.

Interest Disclosure: The property is owned by Wellsprospective LLC, whose owner is disclosed as Jared Wells. The architect is Coston Architects Incorporated of La Mesa. The tenant is Aerco of San Diego. The landscape architect is Wynn-Smith Landscape Architecture of Poway.

## **Construction of Residential Unit at 8765 Via de Victoria, City of Santee**

Deemed Complete and Conditionally Consistent on April 3, 2025

Description of Project: The project involves the construction of an attached accessory dwelling unit with the existing residence to remain.

Noise Contours: The proposed project lies within the 60-65 decibel Community Noise Equivalent Level (dB CNEL) noise exposure contour. The ALUCP identifies residential uses located within the 60-65 dB CNEL noise contour as conditionally compatible with airport uses, provided that the accessory dwelling unit is sound attenuated to 45 dB CNEL interior noise level. Therefore, as a condition of project approval, the accessory dwelling unit must be sound attenuated to 45 dB CNEL interior noise level.

Airspace Protection Surfaces: The maximum height of the proposed project structure will be approximately 376 feet above mean sea level (16 feet above ground level). The proposed project is in compliance with the ALUCP airspace protection surfaces because the project sponsor has certified that notice of construction is not required to the Federal Aviation Administration (FAA) because the project is located within an urbanized area, is substantially shielded by existing structures or natural terrain, and cannot reasonably have an adverse effect on air navigation.

Safety Zones: The proposed project is located within Safety Zone 6. The ALUCP identifies residential uses located within Safety Zone 6 as compatible with airport uses.

Overflight Notification: The proposed project is located within the overflight notification area. The ALUCP requires that a means of overflight notification be provided for new residential land uses.
