

SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY **AUDIT COMMITTEE**

ltem No. 3

Meeting Date: NOVEMBER 19, 2012

Subject:

Review of the Comprehensive Annual Financial Report (CAFR) for the Fiscal Year Ended June 30, 2012

Recommendation:

Staff recommends that the Audit Committee forward this item to the Board for information.

Background/Justification:

The Comprehensive Annual Financial Report (CAFR) is used as a preferred financial reporting document for governmental agencies. It is prepared as a more thorough report when compared to the audited financial statements. The CAFR includes three major sections: the introductory section, which provides general information on the Airport's organization structure; the financial section, which includes the Airport's audited financial statements, and the statistical section, which provides data trends. The CAFR for the Fiscal Year Ended June 30, 2012, is submitted as Attachment A.

Fiscal Impact:

None

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

Community	Customer	Employee	🛛 Financial	Operations
Strategy	Strategy	Strategy	Strategy	Strategy

Environmental Review:

1. This Board action, as an administrative action, is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act (CEQA), as amended. 14 Cal. Code Regs. §15378. This Board action is not a "project" subject to CEQA, Cal. Pub. Res. Code §21065.

Page 2 of 2

2. This Board action is not a "development" as defined by the California Coastal Act. Cal. Pub. Res. Code §30106.

Equal Opportunity Program:

Not applicable

INTRODUCTORY

SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY

P.O. BOX 82776, SAN DIEGO, CA 92138-2776 619.400.2400 WWW.SAN.ORG

October 16, 2012

To the Public:

The Comprehensive Annual Financial Report (the "CAFR") of the San Diego County Regional Airport Authority ("SDCRAA" or the "Airport Authority") for the fiscal year ended June 30, 2012 is submitted herewith. The Airport Authority's Accounting Department prepared this report. Responsibility for the accuracy, completeness and fairness of the presented data, including all disclosures, rests with the Airport Authority. To the best of our knowledge and belief, this report fairly presents and fully discloses the Airport Authority's financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America (referred to as "GAAP"). The independent auditor's report on the financial statements is included on page 1.

GAAP requires that management provide a narrative overview and analysis to accompany the financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal should be read in conjunction with the MD&A, which can be found immediately following the report of the independent auditor in the Financial Section of this report.

PROFILE OF THE AIRPORT AUTHORITY AND ORGANIZATIONAL STRUCTURE

The Airport Authority was established pursuant to California State Act AB 93, which was signed into California State law in October 2001. The Act established the Airport Authority effective January 1, 2003, as a local agency of regional government with jurisdiction throughout the County of San Diego (the "County"). The Airport Authority is vested with five principal responsibilities: (1) the operation of San Diego International Airport ("SDIA" or the "Airport"), (2) the planning and operation of any future airport that could be developed as a supplement to or replacement for SDIA, (3) the development of a comprehensive land use plan for the entire County, (4) to serve as the region's Airport Land Use Commission, and (5) to prepare a Regional Aviation Strategic Plan.

The Airport Authority is governed by an appointed Board of Directors of nine members representing all areas of San Diego County and three additional members serving as non-voting, ex-officio Board members. Three Board members serve as the Executive Committee, consisting of one Board member from each of the following defined jurisdictions: the city of San Diego, the county of San Diego, and one Board member from among the east county cities, south county cities, or north county inland cities. The Board members serve three-year terms in accordance with California Senate Bill 10.

The management and operations of the Airport Authority are carried out by a staff headed by the President/Chief Executive Officer, who is appointed by and reports directly to the Airport Authority Board members.

SAN DIEGO INTERNATIONAL AIRPORT

ii

ECONOMIC CONDITION

The Air Trade Area for the airport includes San Diego County and portions of neighboring Orange and Riverside Counties and Baja California del Norte, Mexico. The U.S. Census Bureau estimates that as of July 1, 2010, San Diego County is the second most populous county in California, just behind Los Angeles County, and the fifth largest county in the United States, with a population of 3.1 million. The county's population has grown at an average rate of 0.5% in the past five years. The majority of the County's population is concentrated in the western portion. The largest cities in the County are San Diego (45%), Chula Vista (8%), Oceanside (6%), Escondido (5%), El Cajon (3%), Vista (3%) and Encinitas (2%). The combined San Diego/Tijuana metropolitan population exceeds five million inhabitants.

Typically, San Diego County has enjoyed a stable economic climate during the past seven years, with unemployment rates lower than those of the State of California. The recession continues to affect San Diego County, though slightly less than compared to the rest of the state. There also appears to be a slight improvement in comparing 2012 to 2011. In June 2012, the County's unemployment rate was 9.3% compared to June 2011, at 10.4%. This compares with an unadjusted unemployment rate of 10.7% in 2012 and 12.4% in 2011 for California and 8.2% in 2012 compared to 9.1% for the nation as of June 2011. The region's economy is diversified and provides an attractive mix of leisure and business sectors. The County is home to more than 150 publicly traded companies.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

<u>Expanding Flight Services</u> – During fiscal year 2012, San Diego increased its international service when the Mexican carrier Volaris began nonstop service between San Diego and two important destinations in Mexico: Mexico City and Guadalajara.

Additionally in fiscal 2013, Japan Airlines (JAL) will launch new nonstop service between Tokyo and San Diego beginning December 2, 2012. JAL will fly four times weekly using the new Boeing 787-8 Dreamliner. This is the first nonstop service between San Diego and Asia, connecting San Diego to destinations throughout Asia, including Hong Kong, Singapore, Manila and Taipei.

Fiscal year 2012 experienced a 1.6% increase in enplanements due to the gradual improvement in the economy. Passenger enplanements totaled 8.58 million, compared to 8.44 million in fiscal year 2011. See the Management's Discussion and Analysis section in the Financial Section of this report for further discussion of the current year activity.

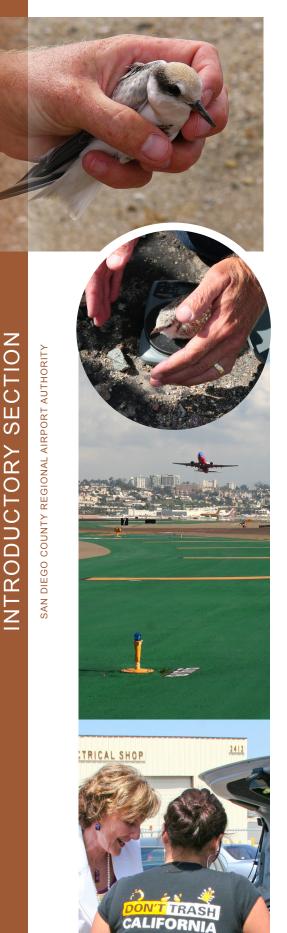

Additional domestic service during fiscal year 2012 included US Airways nonstop flights to Washington's Reagan National; United Express flights to Mammoth Lakes, California; Spirit Airlines service to Las Vegas; and Alaska Airlines service to Honolulu.

FINANCIAL TREND

iii

Airport Authority Hosted the 20th Annual Airports Council International-North America

(ACI-NA) – In October 2011 at the San Diego Convention Center, the Airport Authority welcomed nearly 3,000 international leaders in aviation to attend the ACI-NA conference that contributed nearly \$2 million to the regional economy. The ACI-NA Annual Conference is the largest gathering of airport professionals in the world. The four-day conference attendees represented more than 300 airports throughout the U.S. and Canada. ACI-NA represents local, regional and state governing bodies that own and operate commercial airports in the U.S. and Canada. ACI-NA's members enplane more that 95 percent of the domestic and virtually all of the international airline passenger and cargo traffic in North America. The mission of ACI-NA is to advocate policies and provide services that strengthen the ability of commercial airports to service their passengers, customers and communities. ACI-NA is the largest of the five worldwide regions of ACI.

<u>Sustainability</u> – SDIA is one of the first airports in the country to develop a sustainability policy, pledging to be a role model for sustainability in the industry. As a direct expression of that commitment, the Airport Authority staff became involved in developing the industry reporting guidelines for the Global Reporting Initiative (GRI). The Airport Authority launched its first comprehensive sustainability report in February 2012. The report complies with the rigorous international standards of the GRI, and SDIA is the first airport in the country to issue such a report.

In addition to the more traditional environmental topics, the sustainability report covers issues that relate to the community and sustainable business practices-everything from wildlife management to customer service initiatives. The annual report can be found at http://sustain.san.org. The Airport Authority will continue to report on an annual basis; moving forward, additional topics and performance indicators will be reported.

Further evidence of the Airport Authority's commitment to sustainability was demonstrated when the Airport Authority won an award for energy efficiency for an airfield lighting project. The American Society of Civil Engineers (ASCE) recognized the Airport Authority for its efforts in sustainable technology. The Airport Authority was awarded the statewide Region 9 Outstanding Energy Project Award for its successful installation of energy-efficient airfield signage, taxiway lights and runway guard lights.

Over the course of the project, the Airport Authority replaced 119 less energy-efficient airfield signs and 410 taxiway edge lights with a new generation of energy-efficient Light-Emitting Diodes (LEDs). SDIA was the first commercial airport in the nation to install and utilize energy-efficient LEDs throughout the airfield. The new lights help to prevent runway incursions, reduce the Airport Authority's carbon footprint, lower operating and maintenance costs, and improve operational safety.

Another example of its commitment to sustainability is the first "green" taxis that have come to SDIA. The Airport Authority vehicle rebate program has provided rebates and incentives for hybrid cabs. Approximately 30 hybrid vehicles are readied for this program, including the first commercial use of the new Prius V in the nation. It is estimated that taxi operators

FINANCIAL TREND

iv

This is the first time in the Airport Authority's history that its financial team utilized a third-party developer for construction of an airport facility. AFCO CRDC SAN LLC, owned by Aviation Facilities Company, Inc., will finance and build the facility, and Bradford Airport Logistics, Ltd. will operate the center upon completion. By applying the third-party developer concept, the Airport Authority will be able to acquire an essential facility without using its bonding capacity, which is necessary for The Green Build.

The cost to build is approximately \$8.4 million, and it is expected to be operational by December 2012.

The Green Build Construction Reached Halfway Point - In 2009 the Airport Authority Board authorized design, construction and funding for The Green Build Terminal 2 West expansion program. The program will enhance the travelers' experience and the airport's safety and efficiency. This is the largest expansion in SDIA's 82-year history. The Board decision included approval of the budget for The Green Build at approximately \$1 billion. The expansion of Terminal 2 West will include:

10 new gates at Terminal 2 West

switching to hybrids will save \$1,000 to \$1,500 per month on miles driven. The program is the result of a unique public-private partnership among the Airport Authority, California Center for Sustainable Energy, a local Toyota dealership, taxi operators and the San Diego Metropolitan Transit System. The Airport Vehicle Rebate Program provides a combination of vehicle rebates, reduced taxi permit fees and a special financing and maintenance package.

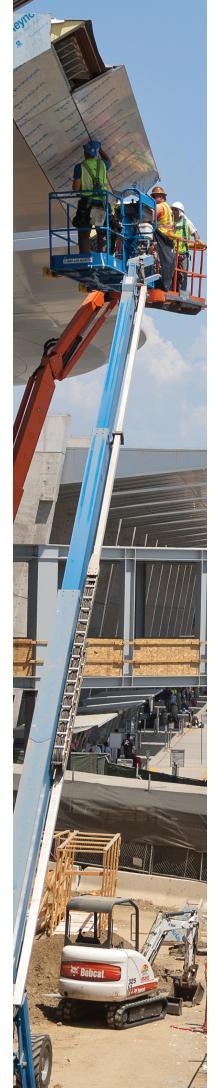

Airport Authority to Build Receiving and Distribution Center – In July 2011, the Airport Authority Board approved the selection of companies to both build and operate a Receiving and Distribution Center (RDC) for SDIA. When complete, the RDC will eliminate the need for box truck and semi-truck deliveries to the terminals. The RDC is a key component of the Airport Authority's new concession development program. The 21,000 square-foot facility will be located on the north side of the airport with primary access from Pacific Highway and Washington Street. Utilizing state-of-the-art technology that integrates the entire terminal complex, products will be received, vetted and consolidated into environmentally friendly delivery trucks that will use the service road on the airfield to distribute items to the secure side of the terminals. This procedure is expected to remove 50 to 70 truck trips per day on Harbor Drive and Laurel Street. When completed, the RDC will add more dock space, increase safety by keeping unnecessary vehicles off the airfield and accommodate future Transportation Security Administration screening of incoming goods. The new center will also be built to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) standards; the Airport Authority is seeking at least Silver certification. Construction began in fiscal year 2012.

• Taxiway improvements to enhance the flow of aircraft traffic

• New, expanded dining and shopping options

FINANCIAL TREND

- More comfortable holding areas at the gates
- More and improved security checkpoints
- A dual-level roadway at Terminal 2, featuring an arrivals curb on Level One and a departures curb on Level Two, to relieve current curbside congestion, and smart curb technology that allows travelers to check in for their flight even before entering the terminal
- Additional parking for remain-overnight aircraft to eliminate the need for aircraft to taxi across the runway
- Public art integrated throughout the terminal expansion and outside area

The project is on schedule and within budget, moving toward a summer 2013 opening date.

Construction crews are working on the dual-level roadway, which will relieve curb-front congestion in front of the existing Terminal 2 when completed. Concrete decks have been poured, and two new pedestrian bridges are installed, reaching from the roadway to the terminal.

The completion of the installation of the floor-to-ceiling windows in the concession area called Sunset Cove created a spectacular glass architectural feature of the Terminal 2 expansion. Sunset Cove will be home to a wide variety of new dining options when open in the summer of 2013. The wall of windows features a dramatic view of the airfield.

The Green Build will help meet near-term demand at SDIA and make the travel experience more comfortable and enjoyable for all airport users. At peak construction, The Green Build has provided nearly 1,000 construction-related jobs. Sustainability and environmental sensitivity are hallmarks of the program. The project has incorporated sustainable construction and design principles with the goal of meeting LEED Silver certification standards.

Public information about the airport improvements is available at www.san.org/greenbuild.

<u>Quieter Home Program</u> – The Quieter Home Program is an ongoing program that provides acoustical attenuation to homes located in SDIA's noise impacted area. To date, the Quieter Home Program has sound-attenuated over 2,400 homes. In fiscal year 2012, the Airport Authority was awarded an additional \$9 million of grants to continue funding the program. Also in 2012, the program celebrated the completion of 2,000 homes with a milestone celebration in the community. More information can be found at www.guieterhome.org.

Airport Land Use Compatibility Plan - The Airport Authority Board serves as the Airport Land Use Commission (ALUC) for San Diego County. By state law, ALUCs have two specific duties:

FINANCIAL TREND

vi

The ALUCPs provide guidance to local jurisdictions and property owners about the types of new land uses that are appropriate around airports. These plans also promote the safety and general welfare of people, property and aircraft on the ground and in the air in the vicinity of the airports, and they protect airports from encroachment by new incompatible land uses that could restrict their operations.

The airport will bring even more color to its terminals as part of The Green Build expansion program. When completed in 2013, The Green Build will contain more than \$6 million in art.

FINANCIAL INFORMATION

The Board sets the policy that provides for appropriate internal controls and provides oversight to ensure that the assets of the Airport Authority are protected from loss, theft or

SECTION

INTRODUCTORY

• To prepare and adopt Airport Land Use Compatibility Plans (ALUCP) for the County's 16 public-use and military airports

• To review certain land use actions of local agencies and airport plans for consistency with their respective airport compatibility plans

In 2010 the Airport Authority adopted ALUCPs for five urban airports in San Diego County, which was the culmination of a four-year public process. That same year, the SDCRAA, in its role as the Airport Land Use Commission (ALUC) for San Diego County, initiated the planning and public involvement phases of updating the ALUCP for SDIA. This included a public workshop in January 2011 and related public involvement. In fiscal year 2012, staff is developing a draft plan for review by the ALUC. After an extensive environmental review process, it is anticipated that a final plan will be adopted in late 2013.

Public Art – The Airport Art Program provides enhanced customer service by presenting artwork and programming that engage travelers in innovative and memorable experiences. It has grown to promote creative programs that directly impact customer service by enhancing airport facilities and also airport operations. Through the exhibition and production of art from individual artists and cultural institutions, the program contributes to the airport's mission to promote regional prosperity. This positions the airport to serve not only the traveling public, but also the greater San Diego region by way of directly supporting cultural tourism through the three art program components: Temporary and Rotating Exhibits, Performing Art and Public Art.

In fiscal year 2012, the International magazine *Passenger Terminal World* named SDIA one of the Most Noteworthy Airports in its annual Showcase edition. Singled out for its art program, the magazine noted that SDIA has an "impressive" program that has "transformed the visual and passenger experience in the terminals." SDIA was one of only three U.S. airports to make the list.

misuse, and to ensure that adequate accounting data is compiled to allow for preparation of financial statements in conformity with GAAP. Internal controls are designed to provide reasonable but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgments by management.

INDEPENDENT AUDIT

The financial records of the Airport Authority are audited annually by independent public accountants. McGladrey LLP performed the audit for the current fiscal year ended June 30, 2012. Their report on the financial statements is presented in this report.

AWARDS AND ACKNOWLEDGEMENTS

The Airport Authority has been the recipient of numerous awards. A few of the recognitions presented to the Airport Authority during the fiscal year ended June 30, 2012, were as follows:

The Government Finance Officers Association of the United States and Canada (GFOA) Certificate of Achievement for Excellence in Financial Reporting – This recognition is for the CAFR for the fiscal year ended June 30, 2011. This was the ninth year in a row that the Airport Authority has received this award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we will submit it to the GFOA to determine its eligibility for another certificate.

The GFOA Distinguished Budget Presentation Award – The achievement of this award is based on a governmental entity's preparation and issuance of budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting. This is the seventh year that the Airport Authority has received this award.

Airport Authority President/CEO, Thella F. Bowens, Named Chair of International Aviation *Industry Association* – Thella Bowens assumed one of the aviation industry's leading roles worldwide. She has led ACI-NA as advocate for its member airports before government, industry and the public. Prior to taking on the associations' primary leadership role, Ms. Bowens served three three-year terms on the Board of ACI-NA. Her term as Chair was one year. Ms. Bowens has served as President/CEO of the Airport Authority, the owner and operator of SDIA, since 2003. Ms. Bowens is a member of the boards of ACI World, the San Diego World Trade Center, the San Diego Regional Economic Development Corporation,

<u>Airport Authority Received Advocate of the Year Award</u> – The Airport Authority received the Procurement Advocate of the Year Award during fiscal year 2012 from the San Diego County Hispanic Chamber of Commerce. The Procurement Advocate of the Year Award recognizes outstanding organizations that have shown a commitment to working with local minority and Hispanic-owned businesses within San Diego County. The Airport Authority was selected to receive the award for its commitment to outreach and partner with local, small and disadvantaged businesses for the new concessions program. Of the 16 packages solicited by the Airport Authority for new concessions, 34 percent of the contracts were awarded to historically under-utilized businesses, which include businesses owned by women and minorities.

the San Diego Regional Chamber of Commerce, and the American Association of Airport **Executives Policy Review Committee.**

The preparation of the CAFR was made possible by the dedicated service and efforts of the Airport Authority's Accounting Department. We sincerely appreciate everyone's efforts in preparing this report.

Respectfully submitted,

GFOA Certificate of Achievement in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the San Diego County Regional Airport Authority (California) for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2011. This is the ninth consecutive year that the Airport Authority has achieved this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine itseligibility for another certificate.

Certificate of Achievement for Excellence in Financial Reporting

Presented to

San Diego County **Regional Airport Authority** California

For its Comprehensive Annual **Financial Report** for the Fiscal Year Ended June 30, 2011

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

Independent Auditor's Report

To the Members of the Board San Diego County Regional Airport Authority San Diego, CA

We have audited the accompanying basic financial statements of the San Diego County Regional Airport Authority (the Airport Authority) as of and for the years ended June 30, 2012 and 2011, as listed in the table of contents. These financial statements are the responsibility of the Airport Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Airport Authority as of June 30, 2012 and 2011, and the changes in its financial position and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

U.S. GAAP requires that the Management Discussion and Analysis listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Airport Authority's basic financial statements. The accompanying introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Management's Discussion and Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE PERIOD JULY 1, 2011 TO JUNE 30, 2012

INTRODUCTION

The San Diego County Regional Airport Authority (the Airport Authority) was established on January 1, 2002 as an independent agency. On January 1, 2003, the operations and assets of the San Diego International Airport (SDIA) transferred from the San Diego Unified Port District (the District) to the Airport Authority. The Airport Authority adopted a June 30 fiscal year-end and produced its first audited financial statements for the six months ended June 30, 2003.

The Airport Authority is a self-sustaining entity receiving most of its revenues through airline user charges and rents from the concessionaires operating at or near SDIA. Since the Airport Authority is not funded by tax revenues, accounts are maintained in an enterprise fund on the accrual basis of accounting. Under accrual accounting, revenues are recognized as soon as they are earned, and expenses are recognized as soon as a liability is incurred, regardless of the timing of related cash inflows and outflows. Users of SDIA's facilities provide most of the revenues to operate, maintain and acquire necessary services and facilities.

SAN DIEGO INTERNATIONAL AIRPORT

History of Ownership

The public policy decision to transfer responsibility for SDIA from the District to the newly created Airport Authority emanated from recommendations made by the San Diego Regional Efficiency Commission (the Commission). The Commission was established to evaluate regional governance in San Diego County and report to the California State Legislature on measures to improve it.

Because of the significant regional consequences of airport development and operations, the Commission concluded that a regional decision-making process should address the future development of airport facilities in San Diego County. In October 2001, the enabling legislation, Assembly Bill 93 (AB 93) established the composition and jurisdiction of the Airport Authority's governing body in a manner that is designed to reflect the collective interests of the entire San Diego region.

The policymakers recognized the complexity of transferring a commercial airport to a newly created entity. To ensure a smooth transition, the Airport Authority was vested with the responsibility to develop and execute an Airport Transition Plan with the complete support and cooperation of the District, the Federal Aviation Administration (FAA) and the State of California.

Legislative Background

AB 93 was signed into California State law in October 2001. The Act established the Airport Authority on January 1, 2002 as a local agency of regional government, with jurisdiction throughout the County of San Diego. Subsequent legislative changes to AB 93 were introduced and passed in California Senate Bill 1896 (the Act). The amendment addresses several points pertaining to the transfer of aviation employees, date of transfer, property leases, property acquisition and purchase of services from the District.

ACCOUNTING DEPARTMENT

From Left to Right: Janie Gilmore Jackie Van Dyne Joan Ward Garth Myres Thuy Hoang-Ton Liz Stewart Kathy Kiefer Vernon Evans Marnie Dale Maureen Farrell-Jacobs Teresa Almario

On January 1, 2008, Senate Bill 10 (SB 10), the San Diego County Regional Airport Authority Reform Act, was enacted into law, expanding the responsibilities of the Airport Authority. The Airport Authority is vested with five principal responsibilities:

- (1) Operation of SDIA.
- (2) Planning and operation of any future airport that could be developed as a supplement or replacement to SDIA.
- (3) Development of comprehensive airport land use plans for the airports in the county.
- (4) Serving as the region's Airport Land Use Commission.
- (5) Additionally, with SB 10, a Regional Aviation Strategic Plan, which was completed in fiscal year 2011.

Transfer of Assets and Liabilities/Joint Audit

The Airport Authority and the District collaboratively developed a financial Memorandum of Understanding (MOU) outlining the essential aspects of the Airport Transfer, including the timely transfer and identification of assets and liabilities relating specifically to the transfer of SDIA's asset and operations transfer on January 1, 2003. The MOU addresses the transfer process, litigation matters, utility obligations and treatment of employees.

The Airport Authority and the District commissioned a joint audit in accordance with the Act. Independent auditors, McGladrey LLP, issued an independent auditor's report, dated June 13, 2003, on the Airport Authority's balance sheet as of January 1, 2003. In addition, they issued an independent auditor's report, dated October 17, 2003, on the Airport Authority's finances for the first six months of operation ended June 30, 2003.

Airport Activities Highlights

The Airport Authority experienced growth in all areas in fiscal year 2012 after two years of decline in fiscal years 2011 and 2010. This was common with almost all commercial airports across the country due to the downturn in the economy.

The changes in SDIA's major activities for the current and prior three fiscal years are as follows:

	FY 2010 FY 2011		FY 2012
Enplaned Passengers	8,453,886	8,441,120	8,582,069
% increase (decrease)	(1.0) %	(0.2) %	1.7 %
Total Passengers	16,917,595	16,868,732	17,149,969
% increase (decrease)	(0.9) %	(0.3) %	1.7 %
Aircraft Operations	194,508	186,181	186,196
% increase (decrease)	(5.9) %	(4.3) %	0.0 %
Freight and Mail (in tons)	125,513	129,961	132,493
% increase (decrease)	3.9 %	3.5 %	1.9 %
Landed Weight (in thousands)	10,893	10,606	10,820
% increase (decrease)	(3.4) %	(2.6) %	2.0 %

Overall, it appears that the declines in aircraft operations are reversing at SDIA. Freight and mail increased by 1.9 percent and landed weight increased by 2.0 percent in fiscal year 2012. Most of these gradual increases are attributed to a slow economic improvement.

Statement of Revenues, Expenses and Change in Net Assets (in thousands)

The metric Change in Net Assets is an indicator of whether the Airport Authority's overall financial condition has improved or deteriorated during the fiscal year. Net assets consistently increased from a healthy 9.2 percent in 2010 to 8.3 percent in 2011 and to another healthy increase of 9.6 percent for the year ended June 30, 2012. Following is a summary of the statements of revenues, expenses and change in net assets (in thousands):

Operat Opera Nonop Capital Increas Net as Net as

Detailed descriptions of the components of operating revenues and expenses, and nonoperating revenues and expenses are described in the sections that follow.

Operating Revenues (in thousands)

Airport Activities Highlights (Continued)

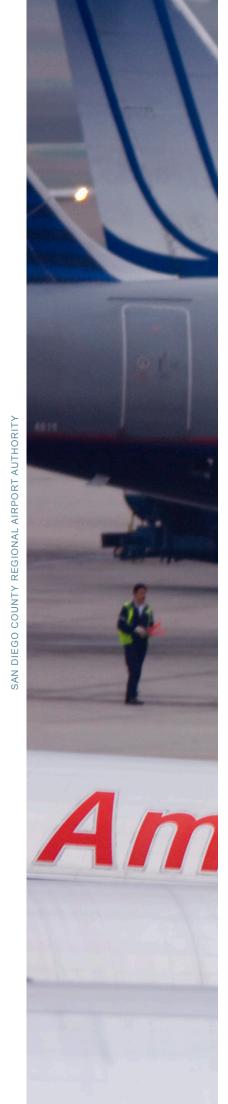

SDIA is a destination airport and is not a hub for any airlines. Further, there is a balanced mixture of SDIA travelers, comprising approximately 50 percent leisure and 50 percent business. These factors generally add to the stability of SDIA enplanements in comparison to most airports. In fiscal year 2010, enplanements declined slightly by 1 percent and by only 0.2 percent in 2011, and increased in fiscal year 2012 by 1.7 percent.

Other operating revenue	1,829		1,640		(189)	(10.3) %		
Total operating revenue	\$ 133,695	\$	144,007	\$	10,312	7.7 %		

Fiscal year 2012 compared to 2011: The increase in total airline revenue is primarily due to the revenue billed to the airlines on a progressive cost recovery system, which was slightly higher in fiscal year 2012, in comparison to 2011, due to the graduated rate increase from 55 percent to 60 percent for building rentals and 70 percent to 85 percent for security surcharge. The decrease in landing fees is due to rebates given to airlines for new routes, primarily Volaris. Aircraft parking fees are slightly higher primarily due to the increased costs associated with the airfield. Concession revenue increased by \$3.3 million due to slightly higher enplanements and higher per-enplanement sales. Parking revenues decreased slightly by \$175 thousand in 2012 due to the temporary closing of Terminal 2 parking to facilitate the construction of the Green Build. Ground rentals revenue was less in 2012 by \$651 thousand due to the finalization of new lease agreements with FedEx, Southwest and UPS, which provided over one year of retroactive billing in fiscal year 2011. Other operating revenue was also less by \$461 thousand due to the completion of the planning grant revenue for the Regional Aviation Strategic Plan in 2011.

Fiscal year 2011 compared to 2010: Airline revenue billed to the airlines on a progressive cost recovery system was slightly higher in fiscal year 2011, in comparison to 2010, by approximately \$6.4 million due to the graduated rate increase from 50 percent to 55 percent for building rentals and 55 percent to 70 percent for the security surcharge. Parking revenues increased by approximately \$1.3 million for 2011 due to rate increases for short-term parking effective July 2010 and rate increases for long-term parking in two locations in April 2011. Ground rentals increased by \$1.9 million due to new lease agreements with FedEx, Southwest and UPS.

Total operating expenses	\$	159,712	\$	166,979	\$	7,267	4.5 %

Fiscal year 2012 compared to 2011: Fiscal year 2012 operating expenses before depreciation and amortization expense increased by \$1.3 million, or 1.1 percent, from \$117.8 million to \$119.2 million when compared to 2011. Contributing to this increase were the following: increased contractual services, \$793 thousand, primarily due to higher parking management expenses; safety and security, \$1.3 million, due to increased Harbor Police salaries and benefits expense and a proposed overhead allocation plan; space rental, \$508 thousand, due to the 2011 completed amortized deferred rent benefit; utilities, \$261 thousand, higher usage due to expansion and rate increases; and maintenance, \$323 thousand, due to increasing support of aging systems and equipment such as elevators, HVAC and escalators.

Offsetting this increase were the following decreases: salaries and benefits, \$1 million, primarily due to the pension plan rate reduction from 16.6 percent in fiscal year 2011 to 14.54 percent in 2012; equipment and systems, \$167 thousand, due to five-year replacement schedule; insurance, \$302 thousand, due to lower liability policy; employee development and support, \$125 thousand, due to reduced travel and seminars; and business development, \$182 thousand, due to lower advertising and marketing expenses compared to 2011, which included expenses associated with British Airways flight.

Total operating expenses decreased \$2.2 million from \$166.9 million to \$164.8 million, or 1.3 percent, primarily due to a reduction in depreciation and amortization expenses of \$3.5 million. In fiscal year 2012, the reduced depreciation expense was primarily due to fully depreciated assets of approximately \$54 million, which included aircraft fuel storage, fire life safety system and runway joint sealants.

Fiscal year 2011 compared to 2010: Fiscal year 2011 operating expenses before depreciation and amortization expense are only slightly higher, growing \$553 thousand, 0.5 percent, from \$117.3 million to \$117.8 million when compared to 2010. Contributing to this increase were the following: increased salaries and benefits expense, \$2.9 million, primarily due to increased costs of medical and retirement benefits; increased security and safety, \$1.2 million, due to utilization of emergency services reflecting the increased costs of salaries and benefits; and business development, \$242 thousand, due to marketing and promotions for the new British Airways daily international flight.

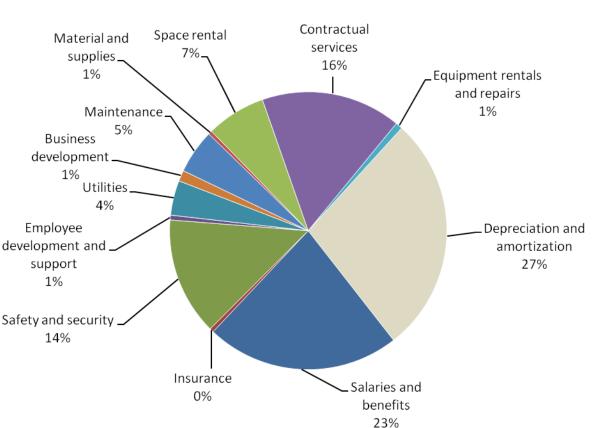

MANAGEMENT'S DISCUSSION AND ANALYSIS

10

Operating Expenses (in thousands) (Continued)

This small increase is due to continued cost containment and also reflects a decrease in contractual services by \$1.9 million primarily due to the decreased service consultants for airport planning; decreased utilities by \$458 thousand due to the implementation of energy and efficiency modifications to existing equipment; decreased maintenance by \$1.1 million due to decreased elevator and escalators expenses; decreased equipment and systems by \$321 thousand due to replacement schedule of computers and small equipment replaced in 2010; and decreased insurance expense by \$100 thousand due to negotiated premium savings.

Total operating expenses increased \$7.3 million from \$159.7 million to \$167.0 million, or 4.5 percent, primarily due to depreciation and amortization expense of \$6.7 million. In fiscal year 2011, \$51.3 million of capital projects were completed and placed in service. They consisted of \$32 million in Taxiway C improvements, \$5 million in airfield signs, \$4 million in parking improvements, \$2 million in roadway access improvements, \$1 million in waterline fire suppression improvements and many smaller projects.

Passenger Facility Charges (PFC): PFCs were established by Congress in 1990 as part of the Aviation Safety and Capacity Expansion Act of 1990. The Airport Authority collects a \$4.50 PFC from revenue from enplaned passengers to pay for the cost to design and construct eligible Airport capital projects or to repay debt service issued to build such projects. PFCs are collected by the air carriers when passengers purchase their tickets and are remitted to the Airport Authority the month following collection, less a \$0.11 administration fee.

Customer Facility Charges (CFC): In May 2009, the Airport Authority began collecting a \$10 fee per contract CFC on rental cars, which is authorized under Section 1936 of the California Civil Code and approved by legislation under Senate Bill 1510. The revenues collected will be used to plan and construct a consolidated rental car facility and improved transportation system. The rental car agencies remit to the Airport Authority collection of the fee monthly.

Quieter Home Program: This program includes sound attenuation construction improvements at all eligible single-family and multifamily dwellings with six or fewer units located in the Year 2000 65 dB Community Noise Equivalent Level contour. The project is eligible for the Airport Improvement Program (AIP). From inception to June 30, 2012, the Airport Authority has spent \$133.0 million and received reimbursement for \$107.1 million.

Interest expense: Interest expense includes interest paid and accrued on the 2005 and 2010 Series Bonds and Commercial Paper Series A, B and C. This is netted with the capitalization of bond interest to the construction in progress assets that the debt finances. The capitalized interest in the fiscal years ended June 30, 2012 and 2011 was \$31.6 million and \$7.6 million, respectively.

The Airport Authority receives AIP entitlement and discretionary grants through the FAA and other federal and state organizations. These funds are recognized as revenue as the work is completed on the eligible projects. Variances relate to the amount of work completed on eligible projects during the fiscal year.

Fiscal year 2012 compared to 2011: Nonoperating revenue (net) increased by \$4.2 million or 5.5 percent. This is primarily due to the net effect of debt interest expense and capitalization of interest expense, \$5.7 million. Additionally, the increased PFC, \$641 thousand, increased CFCs, \$500 thousand, due from increased enplanements. Interest income also has contributed to the increase by \$387 thousand due to a full year of Build America Bond interest subsidy in fiscal year 2012.

Offsetting the increase is primarily the other nonoperating income (expenses) net by \$2.9 million. In 2012 \$3.6 million in net book value of assets was written off due to the construction of the Green Build. These assets were parking lots, sidewalks and partial roadways that will be replaced upon completion in fiscal year 2013. The Quieter Home Program also contributed to the decrease by \$206 thousand, due to the timing of when invoices were paid to become eligible for FAA grant reimbursement.

Fiscal year 2011 compared to 2010: Nonoperating revenue (net) decreased by \$2.5 million or 5.5 percent. This is primarily due to the Quieter Home Program, which decreased \$1.7 million due to the timing of when invoices were paid to become eligible for FAA grant reimbursement. Interest expense increased \$5.4 million due to the \$573 million 2010 bond issuance in October 2010. Offsetting the decrease was the \$203 thousand increase in CFCs, \$116 thousand decrease in Joint Studies, \$3.4 million increase in interest income on the Build America Bonds rebate on the 2010 Series B bonds issued October 2010, and \$911 thousand increase in other nonoperating expenses.

Nonoperating Revenues and Expenses (in thousands) (Continued)

Interest income: Interest income is derived from interest earned by the Airport Authority on investments. commercial paper reserves, bond reserves and notes receivable from the District. Also included in interest income are the Series C Bonds that were issued as Build America Bonds and include a cash subsidy from the U.S. Treasury equal to 35 percent of the interest payable. The interest subsidy for the fiscal years ended June 30, 2012 and 2011 was \$4.9 million and \$3.7 million, respectively.

Other nonoperating income (expenses): Other nonoperating income (expenses) includes proceeds and expenses for legal settlements, gain (loss) on the sale of assets, unrealized gain (loss) on investments, and other miscellaneous revenue and expenses.

As of June 30, 2012, the Airport Authority's assets exceeded liabilities by \$665 million, a \$58 million increase over June 30, 2011 and, comparing 2011 to 2010, another \$47 million increase over June 30, 2010. The largest portion of the Airport Authority's net assets represents its investment in capital assets, less the amount of associated debt outstanding. The Airport Authority uses these capital assets to provide services to its passengers and other users of SDIA; consequently, these assets cannot be sold or otherwise liquidated. Although the Airport Authority's investment in its capital assets is reported net of related debt, it is noted that the funds required to repay this debt must be provided annually from operations. The remaining unrestricted net assets of \$75 million as of June 30, 2012, \$102 million as of 2011 and \$145 million as of 2010 may be used to meet any of the Airport Authority's ongoing obligations. As of June 30, 2012, 2011 and 2010, management has designated unrestricted funds in the amount of \$16 million, \$16 million and \$21 million, respectively, for capital contract commitments funded by Airport Authority cash, earthquake insurance, net pension asset and operating contingency.

Capital Asset and Capital Improvement Program

The funds used for capital improvements or to expand SDIA's facilities are derived from several sources, including the FAA, Transportation Security Administration and AIP grants, PFCs, CFCs, debt and SDIA funds. In fiscal year 2012, SDIA's \$1.5 billion capital improvement program (CIP) was funded under two debt options. A pay-as-you-go approach utilizing commercial paper for short-term and long-term funding needs included 2010 Airport Revenue Bonds to be used for the \$864 million Terminal Development Program/ The Green Build. An additional airport revenue bond issuance is planned in fiscal year 2013 to complete the funding of The Green Build project. The Green Build is projected to be completed by 2013. The current CIP, which includes projects through 2017, consists of \$115.9 million for airside projects, \$385.8 million for landside projects, \$88.3 million for terminal projects, and \$6.2 million for administrative projects. The current SDIA CIP does not include noise reduction and related projects.

The Series 2005 Bonds are payable solely from and secured by Pledged Revenues. Pledged Revenues are defined as all revenues and other cash receipts of the Airport Authority's airport operations, reduced by operation and maintenance expenses. Pledged Revenues do not include cash received from PFCs or federal grants.

As of June 30, 2012, \$37.9 million in bonds were outstanding. The ratings of the Series 2005 Bonds as of June 30, 2012 and 2011 are rated A+/A1/A+ by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively. As senior lien bonds, the Series 2005 Bonds require that charges for services be set each fiscal year at rates sufficient to produce Pledged Revenues at least 125 percent times the senior debt service for that year. In addition, the Series 2005 Bonds require the Airport Authority to maintain a reserve account with the bond Trustee and to reserve certain amounts in the Airport Authority's books.

Capital Improvement Program Projects by Type

Additional information of the Airport Authority's capital assets can be found in Note 4 to the financial statements on pages 42-43 of this report.

Capital Financing and Debt Management

In October 2005, the Airport Authority sold \$56.3 million of San Diego County Regional Airport Authority Airport Revenue Refunding Bonds Series 2005. This refunded the outstanding Series 1995 Airport Revenue Bonds that were issued by the District in 1995 through the California Maritime Infrastructure Authority for the expansion of Terminal 2. The Series 2005 Bonds were issued in the aggregate principal amount of \$56.3 million and were structured as serial bonds that bear interest at rates ranging from 4.5 percent to 5.25 percent, maturing in fiscal years 2007 to 2021. Interest on the bonds is payable semiannually on January 1 and July 1 of each year.

SECTION

FINANCIAL

Capital Financing and Debt Management (Continued)

On October 5, 2010, the Airport Authority issued \$572.6 million of Subordinate Airport Revenue Bonds Series 2010 A, B and C. The bonds are rated A/A2/A by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively. The subordinate Series 2010 Bonds were issued to finance certain capital improvements at SDIA, fund a portion of the interest accruing on the subordinate Series 2010 Bonds through and including January 1, 2013, refund \$142.2 million of the Airport Authority's outstanding commercial paper notes (CP Notes), fund the subordinate bond reserve fund and pay the costs of issuance of the subordinate Series 2010 Bonds.

The Series A and Series B Bonds were structured as serial bonds that bear interest at rates ranging from 2 percent to 5 percent and mature in fiscal years 2012 to 2041. The Series C Bonds were issued as Build America Bonds and include a cash subsidy payment from the U.S. Treasury equal to 35 percent of interest payable. The interest rate on the Series C bonds, net of subsidy, is 4.31 percent and the bonds mature in fiscal year 2041.

The subordinate Series 2010 Bonds are special obligations of the Airport Authority, payable from and secured by (a) a pledge of subordinate net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system and all amounts necessary to pay debt service on and fund the reserves for the senior bonds; and (b) certain funds and accounts held by the subordinate Trustee under the subordinate indenture. The subordinate Series 2010 Bonds were issued with a pledge of and lien on subordinate net revenues on parity with the Airport Authority's subordinate CP Notes. In addition, the Airport Authority has irrevocably committed a portion of the PFCs it has received and expects to receive through 2016. The amounts of irrevocably committed PFCs are \$14.7 million for fiscal year 2013 and \$19 million annually for fiscal years 2014 through 2016. As of June 30, 2012, the principal balance on the subordinate Series 2010 Bonds was \$571.8 million.

As of June 30, 2012, \$20.7 million in commercial paper was outstanding. The commercial paper program was established in 1997 to fund the then-approved CIP and related Terminal 2 expansion projects. The Airport Authority's outstanding commercial paper, Series A (non AMT), Series B (AMT) and Series C (taxable), is secured by a pledge of airport revenues, subordinated to the pledge of net airport revenues securing the payment of the Series 2005 Bonds. The authorized program provides for borrowings up to \$250 million through September 1, 2027. Each commercial paper note matures at the end of a period not to exceed 270 days and can be continually rolled into another issuance until the earlier of September 10, 2014 or five days prior to the date. At that time, the total outstanding principal becomes due. The CP Notes require that the charges for services be set each year at rates sufficient to produce Pledged Revenues of at least 1.10 times the debt service on subordinate obligations, including the CP Notes, for that year.

Each series of notes are additionally secured by an irrevocable letter of credit issued by Lloyds TSB Bank plc and is rated A-1 by Standard & Poor's and P-1 by Moody's Investors Service. The letter of credit expires on September 10, 2014. Interest on the notes is paid at a rate based on the market for similar CP Notes.

Additional information of the Airport Authority's long-term debt can be found in Note 5 to the financial statements on pages 44-48 of this report.

FAA entitlement and discretionary grants are awarded on a federal fiscal year running October 1 through September 30. The Airport Authority has received approximately \$14.0 million in grant awards for the federal fiscal year ended September 30, 2012 and \$19.4 million in 2011. Grant awards are recognized as income/contributions as eligible expenses are incurred.

REQUEST FOR INFORMATION

The SDIA's PFC program was established in 1994 and currently authorizes the imposition of a \$4.50 fee on enplaning passengers. There are currently three active applications that provide collection authority through November 1, 2037.

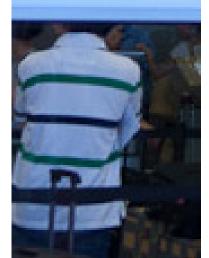

This financial report is designed to provide a general overview of the Airport Authority's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed in writing to the Accounting Department, P.O. Box 82776, San Diego, CA 92138. The Accounting Department can also be reached at (619) 400-2807. A copy of the financial report is available at www.san.org.

San Diego County Regional Airport Authority

Statements of Cash Flows (Continued) Years Ended June 30, 2012 and 2011

Reporting entity: The San Diego County Regional Airport Authority (the Airport Authority), an autonomous public agency, was established as a result of legislation, Assembly Bill 93 (2001), as modified by Senate Bill 1896 (2002), which together comprise the San Diego County Regional Airport Authority Act (the Act). The Act required, among other things, the transfer of the assets and operations of the San Diego International Airport (SDIA) from the San Diego Unified Port District (the District) to the Airport Authority. Effective January 1, 2003 (inception), the District transferred all airport operations and certain related assets and liabilities to the Airport Authority, pursuant to the Act and the Memorandum of Understanding (MOU) dated as of December 31, 2002, between the Airport Authority and the District, which implemented the Act.

Senate Bill 10, the San Diego County Regional Airport Authority Reform Act, was effective January 1, 2008. Responsibilities of the Airport Authority include, among other things, the operation, maintenance, development, management and regulation of SDIA and its facilities. In addition, the Airport Authority has the responsibility to plan or to expand the existing SDIA. Under one of the requirements of Senate Bill 10, the Airport Authority completed a Regional Aviation Strategic Plan, and by December 31, 2013, the Airport Authority will prepare and adopt an Airport Multimodal Accessibility Plan. In addition, the Airport Authority acts as the Airport Land Use Commission within San Diego County.

In accordance with the Codification of Governmental Accounting and Financial Reporting Standards, the basic financial statements include all organizations, agencies, boards, commissions and authorities for which the Airport Authority is financially accountable. The Airport Authority has also considered all other potential organizations for which the nature and significance of their relationships with the Airport Authority are such that exclusion would cause the Airport Authority's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing the majority of an organization's governing body and (1) the ability of the Airport Authority to impose its will on that organization or (2) the potential for that organization to provide specific benefits to, or impose specific financial burdens on, the Airport Authority. Based on these criteria, there are no other organizations or agencies that should be included in these basic financial statements.

Measurement focus and basis of accounting: The accounting policies of the Airport Authority conform to accounting principles generally accepted in the United States of America (U.S. GAAP) applicable to state and local government agencies, and as such, the Airport Authority is accounted for as a proprietary fund. The basic financial statements presented are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. This measurement focus emphasizes the determination of the change in Airport Authority net assets. The Airport Authority generally follows private sector standards of accounting and financial reporting issued prior to December 1, 1989 to the extent that those standards do not conflict with or contradict guidance of the GASB. The Airport Authority also has the option of following subsequent private sector guidance for its activities subject to the same limitation. The Airport Authority has elected to follow the standards set by the GASB, as opposed to subsequently issued private sector guidance.

The financial statements are presented in accordance with GASB Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, and related GASB pronouncements.

Ο ECT ഗ NANCIA

Notes to Financial Statements

Note 1. Nature of Organization and Summary of Significant Accounting Policies

Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

Evaluation of long-lived assets: The Airport Authority accounts for long-lived assets under GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries.* The Airport Authority's capital assets include property, equipment and infrastructure assets. A capital asset is considered impaired if both the decline in service utility of the capital asset is large in magnitude and the event or change in circumstances is outside the normal life cycle of the capital asset. The Airport Authority is required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Common indicators of impairment include evidence of physical damage where restoration efforts are needed to restore service utility, enactment or approval of laws or regulations setting standards that the capital asset would not be able to meet, technological development or evidence of obsolescence, a change in the manner or expected duration of use of a capital asset or construction stoppage. This Statement requires the Airport Authority to report the effects of capital asset impairments in its financial statements when they occur and to account for insurance recoveries in the same manner. The Airport Authority's management has determined that no impairment of capital assets currently exists.

Use of estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments: Investments in the state and county investment pools are recorded at fair value based upon the Airport Authority's pro rata share of the fair value provided by the state and county investment pools for the entire respective pool. Guaranteed investment contracts are recorded at contract value. All other investments are stated at fair market value based on guoted market prices.

Tenant lease receivables: Tenant lease receivables are carried at the original invoice amount for fixedrent tenants and at estimated invoice amount for concession (variable) tenants, less an estimate made for doubtful receivables for both fixed-rent and concession tenants, based on a review of all outstanding amounts. Management determines the allowance for doubtful accounts by evaluating individual tenant receivables and considering a tenant's financial condition and credit history and current economic conditions. Tenant lease receivables are written off when deemed uncollectible. Recoveries of tenant lease receivables previously written off are recorded when received.

Restricted assets: Funds are set aside as restricted, and they are not available for current expenses, when constraints placed on their use are legally enforceable due to either:

- Externally imposed requirements by creditors (such as through debt covenants), grantors or contributors.
- Laws or regulations of other governments.
- Constitutional provisions or enabling legislation.

The Airport Authority's policy is to use restricted resources before unrestricted resources for expenses incurred, for which both restricted and unrestricted net assets are available.

Designated assets: The Airport Authority's management designates funds for capital projects and other specific commitments; these funds would otherwise be available for operations. At June 30, 2012 and 2011, management had designated funds for specific approved capital projects, unspent commercial paper draws and other commitments totaling \$9,062,504 and \$8,148,558, respectively.

BASIC FINANCIAL STATEMENTS

Notes to Financial Statements

Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

Capital assets: Capital assets are recorded at cost, except for property contributed by third parties, which is recorded at fair market value at the date of contribution, less an allowance for accumulated depreciation. The Airport Authority capitalizes incremental overhead costs and interest cost associated with the construction of capital assets.

Capital assets are defined by the Airport Authority as assets with an initial, individual cost of more than \$5,000 and an initial useful life of one year or greater. Depreciation is computed by use of the straight-line method over the following estimated useful lives:

Land improvements	30 to 40 years
Runways, taxiways, roads and parking areas	5 to 30 years
Buildings, structures and improvements	5 to 30 years
Machinery and equipment	3 to 10 years

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as construction in process as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed. For the fiscal years ended June 30, 2012 and 2011, the Airport Authority capitalized interest of \$31,663,105 and \$17,946,856, respectively.

Net pension asset: The Airport Authority budgets for a 90 percent funding ratio with respect to its defined pension plan, which results in additional contributions to the plan over its annual required contribution (ARC). The difference between the Airport Authority's actual contributions and ARCs results in a net pension asset.

Airport Improvement Program: The District initially received approval from the Federal Aviation Administration (FAA) for Airport Improvement Program (AIP) grants. These grants transferred to the Airport Authority effective January 1, 2003. AIP grants are authorized and disbursed by the FAA under the Airway Improvement Act of 1982, as amended, which provides funding for airport planning and development projects at airports included in the National Plan of Integrated Airport Systems. As such, the AIP grants must be used to pay for the allowable costs of approved projects. Receipts from federal programs are subject to audit to determine if the funds were used in accordance with the applicable regulations. The Airport Authority believes that no significant liabilities to the Airport Authority would result from such an audit.

Passenger facility charges: The District initially received approval from the FAA to impose a passenger facility charge (PFC) at SDIA. The approval for the PFC was transferred by the FAA to the Airport Authority, effective January 1, 2003. The PFC program is authorized by the Aviation Safety and Capacity Expansion Act of 1990 (the Expansion Act). In accordance with the Expansion Act, the Airport Authority's AIP Passenger Entitlement Apportionment is reduced by certain percentages, dependent upon the level of PFCs received by the Airport Authority.

In accordance with the program, the PFC revenue must be used to pay allowable costs for approved capital projects. As of June 30, 2012 and 2011, accrued PFC receivables totaled \$4,412,287 and \$5,121,210, respectively, and there was \$74,369,877 and \$54,819,295, respectively, in PFC amounts collected but not yet applied for approved capital projects.

apital projects and other commitments (Note 12)	1,120,518	924,568
	\$ 16,266,959	\$ 15,909,325

Revenue classifications: Revenue is recognized when earned. The Airport Authority will classify revenues as operating or nonoperating based on the following criteria:

Operating revenues are from the revenue sources that constitute the principal ongoing activities of the Airport Authority's operations. The major components of the Airport Authority's operating revenue sources consist of landing fees and terminal building and ground rentals, concession and parking fees, and other miscellaneous fees and charges. Landing fees and terminal building rates are charged on the basis of recovery of actual costs for operating and maintaining the SDIA airfield and terminal areas. Ground rentals consist mainly of rent received for leased cargo facilities. Concession fees are determined as a percentage of gross monthly revenues generated by each concession lessee's monthly operations. Parking fees are generated from the airport parking lots.

Nonoperating revenues are from revenue sources related to financing activities and other activities, which do not constitute the principal ongoing activities of the Airport Authority's operations. The major components of the nonoperating revenue sources are interest income from cash and investments, certain legal settlement income, PFCs, CFCs and grant revenue related to the Quieter Home Program.

BASIC FINANCIAL STATEMENTS

Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

Concentrations: A significant portion of the Airport Authority's earnings and revenues are directly or indirectly attributed to the activity of a number of major airlines. The Airport Authority's earnings and revenues could be materially and adversely affected should any of these major airlines discontinue operations and should the Airport Authority be unable to replace those airlines with similar activity. The level of operations is determined based upon the relative share of enplaned passengers. The major airlines are as follows:

	FY2012	FY2011	
Southwest Airlines	37.9%	38.8%	
Delta Airlines	10.9%	10.9%	

Expense classifications: The Airport Authority will classify expenses as operating or nonoperating based on the following criteria:

Operating expenses relate to the principal ongoing activities of the Airport Authority's operations. The major components of the Airport Authority's operating expense sources consist of salaries and benefits, contractual services, space rental, utilities, maintenance, equipment and systems, materials and supplies, insurance, employee development and support, business development, and equipment rentals and repairs.

Nonoperating expenses relate to financing, investing and other activities that do not constitute the principal ongoing activities of the Airport Authority's operations. The major components of nonoperating expenses sources are expenditures for the Quieter Home program, interest expense and other nonoperating expenses such as unrealized loss on investments.

Federal grants: The Airport Authority recognizes nonoperating revenue or capital grant contributions and any related grant receivable when all federal eligibility requirements are met.

Cash and cash equivalents: For purposes of the statements of cash flows, cash and cash equivalents includes unrestricted and designated cash on hand, demand deposits, commercial paper and repurchase agreements collateralized by the U.S. government or agency obligations with original maturities of three months or less from the date of acquisition.

Debt-related amortizations: Initial-issue bond premiums and bond issuance costs are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest rate method. The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the lives of the refunding debt or remaining life of the refunded debt. Bonds payable are reported net of the unamortized portion of applicable premium or deferred amount on refunding. Bond issuance costs, including underwriters' discount, are reported as deferred bond issuance costs. Amortization of bond premiums and deferred amounts on refunding are included in interest expense.

Pronouncements issued, but not yet effective: The GASB issued pronouncements that may impact future financial presentations. Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements of the Airport Authority:

• GASB Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements, effective for the Airport Authority's fiscal year 2013.

BASIC FINANCIAL STATEMENTS

Investments authorized by debt agreements: Investments held by the bond Trustee are governed by the provisions of the debt agreement, in addition to the general provisions of the California Government Code and the Airport Authority's investment policy. The table below identifies the investment types that are authorized for investments held by the bond Trustee, according to the Master Trust Indenture. In the event of a conflict between the Airport Authority's investment policy and permitted investments associated with any Airport Authority debt issuance, the debt agreement shall control. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk and concentration of credit risk.

The primary objective of the Airport Authority's investment policy is to invest public funds in a manner that will provide the highest security of the funds under management while meeting the daily cash flow demands of the Airport Authority. Assets of the Airport Authority that are not bond proceeds, which are invested in securities as permitted in the bond indenture, are described in the preceding table. In addition, there are various credit criteria as defined in the Airport Authority's investment policy as depicted in the previous section entitled "Investments authorized in accordance with California Government Code Section 53601 and under the provisions of the Airport Authority's investment policy."

Investments held by Trustee: The Airport Authority has monies held by Trustees pledged for the security and payment of certain debt instruments as required by the debt agreements. The Series 2005 Bonds require the Airport Authority to maintain reserve accounts with a bond Trustee for security and the payment of the bonds. At June 30, 2012 and 2011, the investments held by the Trustee were \$9,927,818 and \$9,705,222, respectively, which included the July 1 payment. The subordinate Series 2010 Bonds require the Airport Authority maintain a reserve account and deposit all unused bond proceeds with the bond Trustee. At June 30, 2012 and 2011, the amount held by the Trustee was \$166,189,732 and \$387,197,644, respectively, which included the July 1 payment. The commercial paper notes (CP Notes) require the Airport Authority to maintain an interest reserve account with the note Trustee. The commercial paper interest held by the Trustee at June 30, 2012 and 2011 was \$12,906 and \$12,855, respectively.

NANCIA

Cash and Investments (Continued) Note 2.

Disclosures related to interest rate risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, investments with longer maturities have greater fair value sensitivity to changes in market interest rates. One of the ways the Airport Authority manages its exposure to interest rate risk is by purchasing a combination of shorter-term and longer-term investments and by timing cash flows from maturities. These staggered maturities also provide consistent cash flow and fulfill liquidity needs for operations. The Airport Authority monitors interest rate risk inherent in its portfolio by measuring the segmented time distribution of its portfolio. The Airport Authority has no specific limitations with respect to this metric.

Information about the sensitivity of the fair values of the Airport Authority's investments (including investments held by bond Trustee) to market rate fluctuations is provided by the following table, which shows the distribution of the entity's investments by maturity as of June 30, 2012:

Investment Type	Total	12 Months or Less	13 to 24 Months	25 to 60 Months	More Than 60 Months
Investments subject to interest					
rate risk:

	\$ 427,617,906	_			

Custodial credit risk (deposits): Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Airport Authority maintains deposits at several institutions in order to minimize custodial credit risk. These deposits are collateralized by various instruments such as U.S. government securities (guaranteed) or U.S. agency securities (government sponsored). California Government Code requires a minimum of 105 percent collateralization of these deposits, which are authorized by the Airport Authority's investment policy. Insurance through the Federal Deposit Insurance Corporation (FDIC) may be applicable to the first \$250,000 of institutional deposit accounts, with any balance above this amount covered by the collateralization requirement.

Custodial credit risk (investments): Custodial credit risk for investments is the risk that the Airport Authority will not be able to recover the value of its investments in the event of a counterparty failure. The Airport Authority uses third-party banks' custody and safekeeping services for its registered investment securities. Securities are held in custody at third-party banks registered in the name of the Airport Authority and are segregated from securities owned by those institutions or held in custody by those institutions. Certificates of deposit held by the Airport Authority's third-party custodians are fully insured by the FDIC, as the individual amounts do not exceed the FDIC-insured limits, or collateralized in accordance with the California Government Code.

Disclosures related to credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of an investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of June 30, 2012 for each investment type:

Concentration of credit risk: The investment policy of the Airport Authority contains no limitations on the amount that can be invested by any one issuer beyond that stated above. Concentration of credit risk does not apply to the Airport Authority's external investment pools, including the Local Agency Investment Fund (LAIF) and the San Diego County Investment Pool (SDCIP), and does not include investments in money market funds. Investments that represent 5 percent or more of the Airport Authority's investments as of June 30, 2012 are as follows:

suer	Туре	Fair Value	Percentage of Portfolio
ederal National Mortgage Assoc.	U.S. agency securities	\$ 38,124,890	8.40%

BASIC FINANCIAL STATEMENTS

Note 2. Cash and Investments (Continued)

Investment in state investment pools: The Airport Authority is a voluntary participant in LAIF, which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The Airport Authority's investment in this pool is reported in the accompanying financial statements at fair value based upon the Airport Authority's pro rata share of the amortized cost basis provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of each portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF.

Investment in county investment pool: The Airport Authority is a voluntary participant in SDCIP, which is regulated by California Government Code Section 16429 under the oversight of the County Treasurer of San Diego. The Airport Authority's investment in this pool is reported in the accompanying financial statements at fair value based upon the Airport Authority's pro rata share of the amortized cost basis provided by SDCIP for the entire SDCIP portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by SDCIP.

Investment in California Asset Management Program Pool: The Airport Authority is a voluntary participant in the California Asset Management Program Pool (CAMP or the Pool), which was established under provisions of the California Joint Exercise of Powers Act to provide California Public Agencies with comprehensive investment management services. The Airport Authority's investment in the Pool is reported in the accompanying financial statements at the net asset value per share as provided by CAMP.

CAMP is exempt from registration with the Securities and Exchange Commission (SEC) under the Investment Company Act of 1940, but operates in a manner consistent with SEC Rule 2a-7, "Money Market Funds," of that Act. Accordingly, the Pool meets the definition of a "2a-7 like pool" set forth in GASB Statement No. 31. Accounting and Financial Reporting for Certain Investments and for External Investment Pools. While the Pool itself is exempt from SEC registration, the Pool's investment advisor and administrator, PFM Asset Management LLC, is registered with the SEC as an investment advisor under the Investors Advisors Act of 1940. PFM Asset Management LLC has filed with the California Department of Corporations, as well as various other states, as an investment advisor under the state security laws. In addition, CAMP also meets the definition of "Municipal Fund Security" outlined by Municipal Rulemaking Board (MSRB) Rule 0-12; therefore, contacts with prospective investors relating to shares of the pool are conducted through PFM Asset Management LLC's wholly owned subsidiary. PFMAM, Inc., a broker/dealer that is registered with the SEC and MSRB, and is a member of the Financial Industry Regulatory Authority. CAMP files an income tax return annually with the Internal Revenue Service, though the net income of the Pool is generally exempt from federal income tax.

Investment in certificates of deposit: The Airport Authority has established a \$2,000,000 line of credit with Union Bank, which is collateralized with a certificate of deposit. This line will be utilized to issue letters of credit to surety companies who are partnering with the Airport Authority to provide bonding assistance to contractors accepted into the bonding assistance program. Both the Airport Authority and the sureties participate in the risk under this program. The objective of this program is to ensure that local small, disadvantaged, disabled veteran and other business enterprises have every opportunity to do business with the Airport Authority.

BASIC FINANCIAL STATEMENTS

As part of the transfer of airport operations, pursuant to the Act, the District reimbursed the Airport Authority for the fair market value of the Pond 20 property. The District is required to pay the Airport Authority monthly principal and interest payments over a 10-year period at a 5.25 percent interest rate. A receivable for the Pond 20 property was recorded by the Airport Authority at January 1, 2003 at the District's preliminary appraised value of \$2,378,000. Pursuant to the settlement agreement with the District, the negotiated appraised value was \$3,329,000. Repayment terms remain unchanged. At June 30, 2012 and 2011, the note receivable was recorded at a value of \$211,060 and \$616,954, respectively. The current portion for the years ended June 30, 2012 and 2011 was \$211,060 and \$405,893, respectively.

Note 3. Notes Receivable

As part of the transfer of airport operations, pursuant to the MOU, the District issued a \$50,000,000 unsecured promissory note to the Airport Authority. Pursuant to an agreement with the District that commenced on January 1, 2006, the note will be amortized over 25 years and will mature on December 31, 2030, subordinate to all bond indebtedness of the District, at a fixed interest rate of 5.5 percent per annum. At June 30, 2012 and 2011, the balance of the note receivable was \$42,703,301 and \$43,993,521, respectively. The current portion recorded on the note for the years ended June 30, 2012 and 2011 was \$1,369,637 and \$1,290,520, respectively.

The required principal payments owed from the District for notes receivable for the fiscal years ending June 30 are as follows:

ears Ending June 30,	Amount
013	\$ 1,581,000
)14	1,447,000
015	1,529,000
016	1,609,000
)17	1,705,000
018-2022	10,079,000
023-2027	13,262,000
028-2031	11,702,000
	\$ 42,914,000

On October 6, 2010 and October 13, 2010, the Airport Authority refinanced \$115,776,000 and \$26,400,000, respectively, of Series A, B and C commercial paper with proceeds from the sale of subordinated Series 2010 Bonds.

At June 30, 2011, the principal amount of CP Notes outstanding was \$21,509,000, carrying an interest rate of 0.25 percent.

Commercial paper interest expense for the years ended June 30, 2012 and 2011 amounted to \$56,199 and \$108,732, respectively, including accrued interest of \$3,447 and \$63,115, respectively.

As subordinate obligations, the CP Notes require that the charges for services be set each year at rates sufficient to produce pledged revenues at least 110 percent times the subordinate debt service for that year. In addition, the CP Notes require the Airport Authority to maintain an interest reserve account with the note Trustee and to reserve a certain amount in the Airport Authority's books. At June 30, 2012 and 2011, the amount held by the Trustee was \$12,906 and \$12,855, respectively, and the amount reserved by the Airport Authority was \$3,447 and \$63,115, respectively.

The required debt service payments for the CP Notes, assuming an interest rate of 0.26 percent, for the fiscal years ending June 30 are as follows:

BASIC FINANCIAL STATEMENTS

42

Commercial paper Series A, B and C: On September 6, 2007, the Board authorized issuance of subordinate CP Notes with up to \$250,000,000 of principal outstanding at any time. The CP Notes may be issued from time to time and proceeds from the issuance of the CP Notes are to be used, among other things, to finance improvements to SDIA. Subordinate obligations issued or incurred under the program secured by a pledge of airport revenues, subordinated to the pledge of net airport revenues securing ment of the senior lien Series 2005 Bonds with parity to the subordinate Series 2010 Bonds revenue. ch CP Note matures at the end of a period not to exceed 270 days. Each issuance can be rolled into other issuance. The CP Notes are also secured by an irrevocable letter of credit provided by Lloyds B Bank that expires no later than September 10, 2014. Accordingly, the CP Notes are classified as q-term liabilities in the Airport Authority's financial statements.

At June 30, 2012, the principal amount outstanding of the CP Notes was \$20,729,000, carrying an interest rate of 0.26 percent.

ears Ending June 30,	Principal		Interest		Total	
13	\$	805,000	\$	51,802	\$	856,802
)14		960,000		49,306		1,009,306

	\$	20,729,000	\$	110,834	\$	20,839,834

Debt (Continued) Note 5.

Senior lien Series 2005 Airport Revenue Bonds: On November 9, 2005, the Airport Authority issued \$56,270,000 of senior lien Series 2005 Bonds to refund all of the then-outstanding Series 1995 Bonds, fund a debt service reserve account and pay cost of issuance. The Series 2005 Bonds were structured as serial bonds that bear interest at rates ranging from 4.5 percent to 5.25 percent and mature in fiscal years 2007 to 2021. Interest on the bonds is payable semiannually on January 1 and July 1 of each year. Interest expense for the years ended June 30, 2012 and 2011 amounted to \$1,925,975 and \$2,089,225, respectively, including accrued interest of \$962,988 and \$1,044,613, respectively. The principal balance on the Series 2005 Bonds as of June 30, 2012 and 2011 was \$37,960,000 and \$41,225,000, respectively.

The Series 2005 Bonds are payable solely from and secured by pledged revenues. Pledged revenues are generally defined as all revenues and other cash receipts of the Airport Authority's airport operations, reduced by operation and maintenance expenses. Pledged revenues do not include cash received from CFC, PFCs or federal grants.

As senior lien bonds, the Series 2005 Bonds require that charges for services be set each fiscal year at rates sufficient to produce pledged revenues at least 125 percent times the senior debt service for that year. In addition, the Series 2005 Bonds require the Airport Authority to maintain a reserve account with the bond trustee and to reserve certain amounts in the Airport Authority's books, as shown in Note 2. At the fiscal years ended June 30, 2012 and 2011, the amount held by the trustee was \$5,394,063 and \$5,394,063, respectively. An additional amount of \$4,392,988 and \$4,309,613 was held at June 30, 2012 and 2011, respectively, for the July 1 payments. As disclosed in Note 2, the amounts reserved for (1) operations and maintenance, (2) the operations and maintenance subaccount and (3) revenue and replacement totaled \$47,829,175 and \$45,098,156 for fiscal years 2012 and 2011, respectively. The public ratings of the Series 2005 Bonds as of June 30, 2012 and 2011 were A+/A1/A+ by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively.

The required debt service payments for the Series 2005 Bonds for the fiscal years ending June 30 are as follows:

Years Ending June 30,	 Principal		Interest	Total		
2013	\$ 3,430,000	\$	1,840,225	\$	5,270,225	
2014	3,610,000		1,664,225		5,274,225	
2015	3,790,000		1,479,225		5,269,225	
2016	3,985,000		1,299,794		5,284,794	
2017	4,160,000		1,105,913		5,265,913	
2018-2021	 18,985,000		2,058,656		21,043,656	
	\$ 37,960,000	\$	9,448,038	\$	47,408,038	

A cumulative rebate liability relating to arbitrage of the Series 2005 Bonds was recorded for \$94,796 and \$46,417 as of the fiscal years ended June 30, 2012 and 2011, respectively. Ninety percent of the cumulative rebate liability is due to the United States no later than 60 days after July 1, 2015. Additionally, should the bonds be retired prior to July 1, 2012, 100 percent of the accumulated rebate liability will be due and payable within 60 days of the retirement date.

BASIC FINANCIAL STATEMENTS

Subordinate lien Series 2010 Bonds: On October 5, 2010, the Airport Authority issued \$572,565,000 of Series A, B and C subordinate airport revenue bonds. The subordinate Series 2010 Bonds were issued to finance certain capital improvements at SDIA, fund a portion of the interest accruing on the subordinate Series 2010 Bonds through and including January 1, 2013, refund \$142,176,000 of the Airport Authority's outstanding CP Notes, fund the subordinate reserve fund and pay the costs of issuance of the subordinate Series 2010 Bonds.

The Series A and Series B bonds were structured as serial and term bonds that bear interest at rates ranging from 2.00 percent to 5.00 percent and mature in fiscal years 2012 to 2041. The Series C bonds were issued as taxable Build America Bonds, which benefit from periodic cash subsidy payments from the U.S. Treasury equal to 35 percent of interest payable. The Build America Bonds interest subsidy for the fiscal years ended June 30, 2012 and 2011 was \$4,995,921 and \$3,691,431, respectively. The interest rate on the Series C bonds, net of the subsidy, is 4.31 percent and the bonds mature in fiscal year 2041. The bonds were issued at a premium of \$26,154,344, which is being amortized over the life of the bonds. Interest on the subordinate Series 2010 Bonds is payable semiannually on January 1 and July 1 of each year. Interest expense for the fiscal years ended June 30, 2012 and 2011 amounted to \$31,755,098 and \$23,474,055, respectively, including accrued interest of \$15,877,549 and \$15,884,699, respectively. The principal balance on the subordinate Series 2010 Bonds as of June 30, 2012 and 2011 was \$571,850,000 and \$572,565,000, respectively.

The subordinate Series 2010 Bonds are special obligations of the Airport Authority, payable solely from and secured by (a) a pledge of subordinate net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system and all amounts necessary to pay debt service on and fund the reserves for the senior bonds; and (b) certain funds and accounts held by the subordinate Trustee under the subordinate indenture. The subordinate Series 2010 Bonds were issued with a pledge of and lien on subordinate net revenues on parity with the Airport Authority's subordinate CP Notes. In addition, the Airport Authority has irrevocably committed a portion of the PFCs it has received and expects to receive through 2016. The amounts of irrevocably committed PFCs are \$14,703,838, \$19,208,838, \$19,206,113 and \$19,209,388 for fiscal years 2013, 2014, 2015 and 2016, respectively.

The public ratings of the Series 2010 Bonds as of June 30, 2012 and 2011 are A/A2/A by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively.

Notes to Financial Statements

Debt (Continued) Note 5.

As subordinate lien bonds, the Series 2010 bonds require that charges for services be set each fiscal year at rates sufficient to produce pledged revenues at least 110 percent times the subordinate debt service for that year. In addition, the subordinate Series 2010 Bonds require the Airport Authority to maintain a reserve account with the bond Trustee. For the years ended June 30, 2012 and 2011, the amount held by the Trustee was \$166,189,732 and \$387,197,643, respectively, which included the July 1 payment, unspent project fund proceeds, the debt service reserve fund and a capitalized interest fund.

	\$ 571,850,000	\$ 6	648,518,630	\$1	1,220,368,630

Compensated absences: Employee vacation that vests is recorded when earned. Accumulated sick leave is not accrued because employee rights to receive compensation for the unused portion terminate upon severance of employment.

Line of credit: In 2009 the Airport Authority established a \$4.000.000 line of credit with Union Bank. which is collateralized with a certificate of deposit. This line is utilized to issue letters of credit to surety companies who are partnering with the Airport Authority to provide bonding assistance to contractors accepted into the bonding assistance program at the Airport Authority. On February 27, 2012, the Union Bank line of credit was reduced to \$2,000,000 at the Airport Authority's request. As of June 30, 2012, nothing had been drawn on the line of credit and five issued letters of credit were outstanding, totaling \$1,144,301 for projects in progress. One of the letters of credit expired on July 30, 2012, another is due to expire on December 26, 2012, and the remaining three will expire on February 27, 2013.

Defined-Benefit Plan Note 6.

Plan description: The Airport Authority's defined-benefit pension plan is separately administered by the City of San Diego's City Employees' Retirement System (CERS). The San Diego County Regional Airport Authority Retirement Plan and Trust provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. CERS is an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for the City of San Diego, the District and the Airport Authority, administered by the Retirement Board of Administration (the CERS Board). San Diego City Charter Section 144 and San Diego Municipal Code Sections 24.0100 et seg. assign the authority to establish and amend the benefit provisions of the plans that participate in CERS to the CERS Board. The Airport Authority contributes to the Federal Social Security Program. The CERS Board issues a publicly available financial report that includes financial statements and required supplementary information for CERS. The financial report may be obtained by writing to the San Diego City Employees' Retirement System, 401 B Street, Suite 400, San Diego, California 92101.

BASIC FINANCIAL STATEMENTS

Funding policy: The City of San Diego Municipal Code requires member contributions to be actuarially determined to provide a specific level of benefit. Member contribution rates, as a percentage of salary, vary according to age at entry, benefit tier level and certain negotiated contracts, which provide for the Airport Authority to pay a portion of the employees' contributions. The Airport Authority contribution rate, as determined through actuarial valuation, was 14.54 percent for 2012, 16.60 percent for 2011 and 12.08 percent for 2010, and is expressed as a percentage of covered payroll.

Notes to Financial Statements

Defined-Benefit Plan (Continued) Note 6.

Annual pension cost: For the years ended June 30, 2012, 2011 and 2010, the annual pension cost included in salaries and benefits was \$4,356,000, \$5,036,000 and \$3,736,000, respectively, for the CERS pension. Comparing 2011 to 2010, total membership increased by 2.7 percent. The increase was attributable to both the growth in inactive membership, terminated vested, disabled, retirees and beneficiaries. The active membership declined by 0.9 percent. Active member payroll decreased by 1.7 percent, which is well below the assumed payroll inflation of 4 percent. The actuarial liability increased by 9.9 percent, but the actuarial value of assets increased by 17.6 percent. The funding ratio increased from 96 percent as of June 30, 2010 to 102.7 percent as of June 30, 2011. CERS employs a commonly used actuarial smoothing method on the market value that dampens market volatility, so the actuarial value of assets did not increase as much as the market value (34.1 percent).

As of the June 30, 2011 actuarial valuation, significant actuarial assumptions are as follows:

- The rates of retirement were decreased and changed to be based on age and service as opposed to just the service of a member.
- The percent married assumption was increased to 55 percent for females, and the assumed age difference between husbands and wives was reduced to three years.
- The reciprocity assumption was reduced from 20 percent to 10 percent.
- Rates of termination were increased and changed to be based on service as opposed to the age of a member.
- Disability rates were decreased.
- Mortality rates for active Airport Authority members were decreased.
- Mortality rates for retired Airport Authority members were increased.
- The investment return assumption was lowered from 7.75 percent to 7.5 percent.
- The inflation assumption was lowered from 4.00 percent to 3.75 percent (following a two-year freeze assumption).
- Cost of living adjustment is assumed to be 2 percent.
- Actuarial funding method is entry age normal.
- Amortization method is level percent closed.
- · Asset valuation method is expected value method.

Note 6. Defined-Benefit Plan (Continued)	Note 6
 Remaining amortization period is 8.196 years. This includes 10 years for the outstanding balance of the 2007 unfunded actuarial liability (UAL), 15 years for experience gains and losses, 30 years for changes in methods and assumptions, and 20 years for benefit changes. 	Sched
 The rate of employer contributions to CERS is composed of the normal cost and an amortization of the UAL. The normal cost is a level percent of payroll cost which, along with the member contributions, will pay for projected benefits at retirement for the average plan participant. The actuarial liability is that portion of the present value of projected benefits that will not be paid by future employer normal costs or member contributions. The difference between this liability and the funds accumulated as of the same date is the UAL. 	Actual Valuat Date 6/30/0
On September 16, 2004, the Airport Authority made a contribution payment in the amount of \$3,900,000, in addition to the ARC, to reflect a desired funded ratio of 90 percent. On June 21, 2005, the Airport Authority made an additional contribution of \$1,000,000. During the year ended June 30, 2006, the Airport Authority made an additional contribution of \$513,627. On June 30, 2010, the Airport Authority made a	6/30/1 6/30/1
contribution of \$4,600,000 to increase the funded rate reported in the January 2010 CERS 2009 actuarial calculation from 86.9 percent to the desired funded ratio of 90 percent. At June 30, 2012, 2011 and 2010, the total contribution of \$10,013,627, less amortization of \$2,809,172, \$2,252,860 and \$1,696,547, respectively, is recorded as a net pension asset of \$7,204,455, \$7,760,767 and \$8,317,080, respectively. The contributions are being amortized over an 18-year period.	Three-
The Airport Authority's contribution for fiscal year 2013 measured as a percentage of membership payroll decreased from 14.54 percent to 10.91 percent. The required beginning-of-year contribution paid July 1, 2012 decreased by \$1,200,000.	Fisc Yea End 6/30/10
Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the ARCs of the employer are subject to continual revision as actual results are compared to past	6/30/11 6/30/12
expectations and new estimates are made about the future. Employees' Deferred Compensation Plan

rport Authority offers its employees a deferred compensation plan, which was created in ance with Internal Revenue Code (IRC) Section 457. The plan, which is available to all full-time Authority employees, permits them to defer a portion of their salary until future years. The deferred nsation is not available to employees until termination, retirement, total disability, death or seeable emergency.

an is administered by the Airport Authority and contracted to an unrelated financial institution. the terms of an IRC Section 457 deferred compensation plan, all deferred compensation and e attributable to the investment of the deferred compensation amounts held by the financial ion, until paid or made available to the employees or beneficiaries, are held in trust for employees.

ch, employee assets to be held in the IRC Section 457 plans are not the property of the Airport ity and are not subject to the claims of the Airport Authority's general creditors. In accordance with Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 red Compensation Plans—a rescission of GASB Statement No. 2 and an amendment of GASB Statement No. 31, employee assets are not reflected in the Airport Authority's financial statements.

Other Postemployment Benefits Note 8.

In addition to pension benefits as described in Notes 6 and 7, the Airport Authority provides other postemployment benefits (OPEB).

The Airport Authority provides medical, dental and \$10,000 life insurance postretirement benefits for nonunion employees hired prior to May 1, 2006 and union employees hired prior to October 1, 2008. The employees are eligible for these benefits if they retire from active employment after age 55 with 20 years of service or age 62 with five years of service.

Plan description: As of May 8, 2009, the Board approved entering into an agreement with the California Employer's Retiree Benefit Trust (CERBT) fund. The CERBT fund is a cost-sharing irrevocable Section 115 trust. This is managed by California Public Employees Retirement System (CalPERS). CalPERS administers pension and health benefits for approximately 1.5 million California public employees, retirees and their families. CalPERS was founded in 1932 and is the largest public pension fund in the United States, managing more than \$250 billion in assets for more than 2,500 California employers. In 1988 and 2007, enabling statutes and regulations were enacted that permitted CalPERS to form the CERBT fund, a Section 115 trust, for the purpose of receiving employer contributions that will prefund health and OPEB costs for retirees and their beneficiaries. Financial statements for CERBT may be obtained from CalPERS at P.O. Box 942709, Sacramento, CA 94229-2709.

Funding policy: CERBT requires a valuation of the liabilities and annual costs for benefits by an approved actuarial consulting firm. It is the Airport Authority's intent to budget and prefund the ARCs. As of May 9, 2009, the agreement with CERBT was approved.

Annual OPEB cost and actuarial methods and assumptions: The July 1, 2011 actuarial valuation for the ARC, net of the employer contribution, was \$2,165,000 for fiscal year 2012 and \$1,791,000 for fiscal year 2011. The ARC was determined as part of an actuarial evaluation using the entry-age-actuarial-cost method, with unfunded liabilities amortized over 30 years, which is the method utilized by CERBT. The actuarial assumptions used by CERBT include (a) a 7.61 percent investment rate of return (7.75 percent was used in the prior valuations), net of administrative expenses, and (b) projected salary increases of 3.25 percent. The inflation component ranged from 11 percent to 5 percent from one to seven years for medical and 7 percent to 5 percent for dental.

The entry-age-normal method spreads plan costs for each participant from entry date to the expected retirement date. Under the entry-age-normal cost method, the plan's normal cost is developed as a level percentage of payroll spread over the participants' working lifetime. The AAL is the cumulative value, on the valuation date, of prior service costs. For retirees, the AAL is the present value of all projected benefits.

The plan costs are derived by making certain specific assumptions as to the rates of interest, mortality, turnover and the like, which are assumed to hold for many years into the future. Actual experience may differ somewhat from the assumptions and the effect of such differences is spread over all periods. Due to these differences, the costs determined by the valuation must be regarded as estimates of the true plan costs.

Risk Management Note 9.

The Airport Authority has developed a comprehensive Risk Management Program, which includes risk transfer, loss prevention, loss control and claims administration. The Airport Authority's insurance coverage includes property casualty, various liability policies, workers' compensation, and course of construction. The Airport Authority maintains \$500 million in limits for owners' and operators' general liability insurance with a War, Hijacking and Other Perils endorsement in the amount of \$150 million. The war endorsement may be terminated at any time by the underwriters and terminates automatically upon the outbreak of war (whether there has been a declaration of war or not) between any two or more of the following: France, the People's Republic of China, the Russian Federation, the United Kingdom or the United States, and certain provisions of the endorsement are terminated upon the hostile detonation of any weapon of war employing atomic or nuclear fission and/or fusion or other like reaction or radioactive force or matter. The Airport Authority's coverage includes a variety of retentions or deductibles.

Risk Management (Continued) Note 9.

The cost of earthquake coverage remains exorbitant and is not available in significant amounts. The Federal Emergency Management Agency (FEMA) and the California Disaster Assistance Act (CDDA) are designed to assist public entities such as the Airport Authority in the event of a catastrophe. FEMA will pay up to 75 percent of a loss and CDDA will pay a minimum of 25 percent of the balance for nationally declared disasters. In addition, the California legislature has paid any remaining loss costs for all declared disasters since 1989. In the past, the Airport Authority relied on these laws to pay loss costs beneath the attachment point for insurance coverage and above the coverage limit purchased. Effective July 1, 2007, based on the status of these laws and the condition of the insurance marketplace, the Airport Authority removed the purchase of commercial earthquake insurance from the Risk Management Program and increased reliance on the laws designed to assist public entities. As of June 30, 2012 and 2011, the Airport Authority designated \$5,941,986 and \$5,223,990 of unrestricted net assets, respectively, for insurance contingency. This designation of unrestricted net assets is intended to increase as deemed by management.

A \$2,000,000 contingency reserve has been established, within unrestricted net assets, by the Airport Authority's management to respond to uninsured and underinsured catastrophic losses. This fund is maintained pursuant to Board action only; there is no requirement that it be maintained.

The Airport Authority maintains a property insurance policy with limits of \$500 million, providing all risk and flood coverage on physical assets. During fiscal year 2012, there were no significant reductions in insurance coverage from the prior year. For each of the past three fiscal years, settlements have not exceeded insurance coverage.

The Airport Authority has an active loss prevention program, staffed by a full-time risk manager, a risk analyst, a safety manager and a safety analyst. In addition, insurer property and casualty loss control engineers conduct safety surveys on a periodic basis. Employees receive regular safety training and claims are monitored using a Web-based claims information system.

Note 10. Lease Revenues

The Airport Authority leases approximately 54 percent of its building and structures capital assets, such as loading bridges and building space, to signatory airlines and other tenants under operating leases. A majority of the lease payments are determined each year based upon actual costs of the airport. Such costs are allocated pro rata to each tenant based upon factors such as landed weights, enplanements, square footage, acres, etc. A majority of the Airport Authority's lease commitments are on a month-tomonth basis and accordingly are not reflected in the schedule below.

BASIC FINANCIAL STATEMENTS

Notes to Financial Statements

Note 10. Lease Revenues (Continued)

The minimum future lease payments to be received under the above operating lease agreements as of June 30 are as follows:

Years Ending June 30,	/	Amount
2013	\$	7,396,982
2014		5,552,412
2015		4,485,090
2016		2,640,169
2017		2,000,000
2018-2020		2,000,000
	\$	24,074,653

The Airport Authority entered into a five-year lease agreement on January 9, 2009 with the San Diego World Trade Center (World Trade Center) for office space, with a fair market value of \$440,000. In lieu of rental payments, the Airport Authority received a 40 percent ownership of the World Trade Center license, which has a fair market value of \$440,000. The license, an intangible asset with no expiration date, is included in nondepreciable assets in Note 4. As of June 30, 2012 and 2011, the Airport Authority recognized lease revenue of \$86,996 for each year under the World Trade Center lease.

Note 11. Lease Commitments

Capital Leases:

Office equipment leases: The Airport Authority entered into capital lease agreements for office equipment that require monthly lease payments of \$14,806.

The following is a schedule of future lease payments applicable to \$760,332 net book value of assets capitalized under lease agreements, and the net present value of the future lease payments as of June 30, 2012:

Years Ending June 30,	 Amount
2013	\$ 177,671
2014	177,671
2015	25,131
Total lease payments	 380,473
Less amount representing interest	(18,833)
Present value of future lease payments	\$ 361,640

Note 11. Lease Commitments (Continued)

Operating Leases:

General Dynamics lease: The Airport Authority is required, by legislation mandating the transfer of airport operations from the District, to lease from the District 89.75 acres of the former General Dynamics property on Pacific Highway adjacent to SDIA for 66 years commencing January 1, 2003. The lease agreement calls for predetermined rents through December 31, 2005, with future rents based upon a market rate established in late 2005 by an appraisal (or arbitration). The amended lease agreement calls for rent payments of \$6,750,000 annually through December 31, 2068. The Airport Authority received a credit for \$375,000 in reduced rent based on a previous lease agreement for the property in September 2006. The changes in terms for this lease were approved by the Airport Authority's Board on July 25, 2006. A portion of the land is leased to the District in the amount of \$186,360 annually through December 31, 2068 for employee parking for District administration building employees, and is leased back by the District at the same fair market value rent paid by the Airport Authority.

SDIA lease: The Airport Authority is leasing from the District 480 acres of land on North Harbor Drive for \$1 per year, for 66 years, through December 31, 2068.

Teledyne Ryan lease: The Airport Authority is leasing from the District 46.88 acres on North Harbor Drive referred to as the Teledyne Ryan lease that commenced on January 1, 2005 and expires December 31, 2068, with \$3 million in annual rent.

Other District leases: The Airport Authority leases from the District two additional properties adjacent to SDIA. These properties require monthly rentals of \$86,083 and \$12,521, respectively, and both leases expire in December 2013.

On July 24, 2006, the Airport Authority's Board approved a lease with the District for the property located at 2415 Winship Lane, known as the Sky Chef property. The term of the lease is 60 years with \$350,000 in annual rent and commenced September 1, 2006.

Under current law, in the event SDIA is relocated and the District leases are no longer used by the Airport Authority for airport purposes, all District leases will terminate and use of the property will revert to the District.

Building lease: The Airport Authority leased modular buildings from an unrelated third party that required monthly rental of \$1,366 through the expiration date of August 2013.

BASIC FINANCIAL STATEMENTS

The total rental expense charged to operations for the years ended June 30 consists of the following:

Re (De

Notes to Financial Statements

Note 11. Lease Commitments (Continued)

Deferred rent (benefit) liability: The Airport Authority accrues rent expense for its leases with predetermined escalating payments by the straight-line method over the respective lease terms. The accumulated benefit of the reduced scheduled payments of those leases is recorded as a deferred rent liability of \$0 and \$450,073 as of June 30, 2012 and 2011, respectively. The accumulated benefit (accrued liability) is expected to decrease gradually over the remaining 59 years. The future rental commitments under the above operating lease agreements as of June 30 are due as follows:

Years Ending June 30,		Amount
2013	\$	11,382,353
2014		10,741,176
2015		10,100,000
2016		10,100,000
2017		10,100,000
2018-2022		50,500,000
2023-2027		50,500,000
2028-2032		50,500,000
2033-2037		50,500,000
2038-2042		50,500,000
2043-2047		50,500,000

	2012	2011
ental payments made Decrease) in accumulated benefit of reduced rents	\$ 11,414,838 -	\$ 11,356,478 (450,073)
	\$ 11,414,838	\$ 10,906,405

Note 12. Commitments, Contingencies and Subsequent Event

Commitments: At June 30, 2012 and 2011, the Airport Authority had significant commitments for capital expenditures and other matters, as described below:

- i. The Airport Authority has funds that have been classified as noncurrent assets, primarily for the unpaid contractual portion of capital projects that are currently in progress, and will not be funded by grants or additional debt, but will be funded through Airport Authority cash. These amounts are for the estimated cost of capital projects that have been authorized by the Board for construction planning to proceed and for the contractual costs of upgrading certain major equipment. At June 30, 2012 and 2011, these funds totaled \$1,120,518 and \$924,568, respectively, and are classified on the accompanying balance sheets as cash and investments designated for specific capital projects and other commitments.
- Support services—As part of the MOU, services provided by the District Harbor Police are required to be purchased by the Airport Authority as long as SDIA continues to operate at Lindbergh Field. At the time of the transfer, the Airport Authority entered into a Master Services Agreement, a Police Services Agreement and a Communications Services Agreement with the District, which described the services that the Airport Authority could purchase and the manner of calculating the payments for such services. The largest amount that became payable under any of these agreements is under the Police Services Agreement, which is for Harbor Police services. The District provided monthly billings to the Airport Authority, with payment generally due 30 days after the date of the invoice, and provision of appropriate supporting documentation. During the years ended June 30, 2012 and 2011, the Airport Authority expensed \$15,351,370 and \$14,102,510, respectively, for these services.
- iii In addition, the Airport Authority has a profit sharing plan as defined under Section 401(a) of the IRC. Under the plan, eligible employees receive annual discretionary employer contributions. Airport Authority contributions are immediately vested by the participants. For fiscal years 2012 and 2011. \$165.000 and \$150.000 were deposited, respectively.
- iv. Major contracts—During 2006 the Airport Authority Board approved a contract with AECOM Aviation for \$37.8 million for program management and support services associated with the capital improvement program, major maintenance program and airport master plan program. The Board approved additional increases totaling \$43.9 million in fiscal years 2009 and 2010. In 2011 the Board approved \$45 million additional funds and approximately \$102.2 million has been spent to date. The remaining contract is due to be completed during fiscal year 2014. As of June 30, 2012, the Airport Authority's remaining commitment is approximately \$22.9 million.
- v. In 2009 the Board approved two design-build contracts for the Terminal Expansion Program, or "The Green Build." The program is estimated to cost \$864 million. The Green Build began in fiscal year 2010 and the projected completion date is 2013. The Green Build provides for 10 additional passenger gates, a new dual-level roadway at Terminal 2 and additional aircraft remain-overnight parking areas. The first Green Build contract was approved for the Terminal 2 West Building and Airside Expansion to Turner/PCL/FCI Joint Venture for \$14 million. Additional amounts were approved in fiscal years 2009, 2010 and 2011 for \$110.4 million, \$228 million and \$79 million, respectively. As of June 30, 2012, \$276.8 million had been spent and the contract is due to be completed during fiscal year 2013. As of June 30, 2012, the Airport Authority's remaining commitment is approximately \$168.1 million.

BASIC FINANCIAL STATEMENTS

The Airport Authority has leases and operating agreements with various tenants. These agreements typically include provisions requiring the tenant/operators to indemnify the Airport Authority for any damage to property or losses to the Airport Authority as a result of the tenant's operations. Also, the leases and operating agreements typically require the Airport Authority to be named as an additional insured under certain insurance policies of the tenants/operators. The Airport Authority also tenders these claims to its own insurers once they become asserted claims. Thus, according to the Airport Authority's legal counsel, when these types of claims are asserted against the Airport Authority, the Airport Authority not only vigorously opposes them but also vigorously seeks contribution and/or indemnity from all tenants/operators involved, from the tenants'/operators' insurers and from its own insurers. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to these matters, or the probability or remoteness of any outcome.

The former TDY property consists of approximately 44 acres of property located at 2701 N. Harbor Drive, San Diego, California. During 2004 the Airport Authority initiated litigation against the District. The litigation (State Court Case 779490 and Federal Case 3:03CV1146) has concluded and resulted in a comprehensive settlement agreement between the District, the Airport Authority and TDY. The property is still the subject of a Cleanup and Abatement Order (CAO) that names TDY as the only responsible party for the contamination on the site.

Notes to Financial Statements

Note 12. Commitments, Contingencies and Subsequent Event (Continued)

vi. The second contract awarded was for the Terminal 2 Landside Improvements with the Kiewit/Sundt Joint Venture for \$43.8 million approved in 2009 and additional approvals for \$76.2 million and \$135 million in 2010 and 2011, respectively. As of June 30, 2012, \$129.5 million had been spent for the Kiewit/Sundt Joint Venture contract. This contract is scheduled for completion in fiscal year 2013. As of June 30, 2012, the Airport Authority's remaining commitment is approximately \$82.1 million.

vii. In fiscal year 2012, the Board approved two contracts with Ace Parking Management Inc., one for the parking management services in the amount of \$29.7 million and the second for the airport shuttle services in the amount of \$28.8 million. The total amounts spent as of June 30, 2012 were \$2.04 million for parking management services and \$1.9 million for airport shuttle services. These contracts are scheduled for completion in 2017. As of June 30, 2012, the Airport Authority's remaining commitment is approximately \$26.9 million for the shuttle service contract and \$28.7 million for the parking management contract.

Contingencies: As of June 30, 2012, the Airport Authority is subject to contingencies arising from legal matters, as described below:

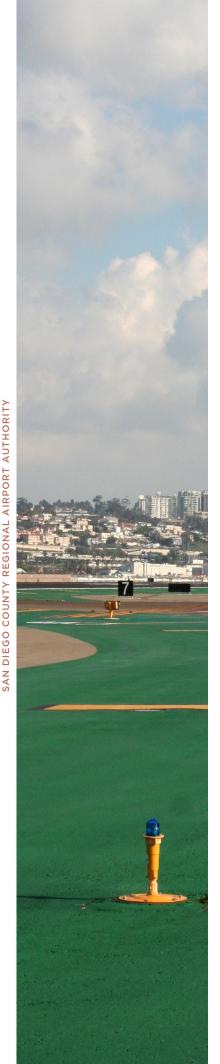

Teledyne Ryan Industries, Inc. (TDY)/Allegheny Technologies Incorporated and San Diego Unified Port District

CAO No. R9-2004-0258: This action is ongoing and involves an order by the California Regional Water Quality Control Board, San Diego Region, entitled CAO No. R9-2004-0258, Code No. ICU:02-0381.05, for TDY Industries, Inc., TDY Holdings, LLC, Teledyne Ryan Aeronautical Company and Allegheny Technologies Incorporated, 2701 North Harbor Drive, San Diego, California, dated October 4, 2004, ordering the cleanup and abatement of the Property pursuant to California Water Code Section 13304. The demolition of the buildings and improvements currently located on the property are the joint financial responsibility of the District and the Airport Authority. The Airport Authority's share of the cost is estimated to be \$7 million and will result in the creation of a long-term capital asset. As a result, the Airport Authority will capitalize its share of the demolition costs as these costs are incurred.

Note 12. Commitments, Contingencies and Subsequent Event (Continued)

<u>West-Tech Contracting, Inc. v. San Diego County Regional Airport Authority (San Diego Superior</u> <u>Court Case No. 37-2010-00106565CU-BC-CTL)</u>

In April 2008, the Airport Authority entered into a public works contract with West-Tech Contracting, Inc. (West-Tech) for Project No. 103044-NTC Landfill Remediation-Phase 2 (Contract) for the remediation of burn ash and other material at the old Naval Training Center. On June 25, 2010, West-Tech filed a claim pursuant to Government Code §910 alleging damages in the amount of approximately \$1,500,000. resulting from an alleged breach of contract by the Airport Authority. West-Tech alleges that the Airport Authority breached the contract because: (1) it refused to allow West-Tech to use a landfill that West-Tech believed met the specifications set forth in the Contract: (2) the estimated amount of burn ash identified in the Contract as requiring removal was grossly underestimated; (3) West-Tech was owed interest on late payments; and (4) West-Tech was owed attorney's fees on retention. On December 22, 2010, West-Tech filed a lawsuit for breach of contract and declaratory relief. The claims in the lawsuit mirror the claims set forth in the claim filed pursuant to the Government Code. The Airport Authority disputes all allegations. The Airport Authority answered the complaint and filed a cross-complaint against West-Tech for violations of the False Claims Act. On July 26, 2012, a jury verdict was rendered wherein the jury awarded West-Tech \$634,431 for breach of contract and \$13,347 for interest on late payments. The jury found in the Airport Authority's favor on the retention claim, which allows the Airport Authority to be awarded its own attorney's fees. On October 19, 2012, the court will hear cross-motions for attorney fees and costs, wherein the Airport Authority is seeking in excess of \$1.3 million and West-Tech is seeking approximately \$650,000. The Airport Authority plans to vigorously oppose the plaintiff's motions. Based on our present understanding of the motions, we are unable to determine the likelihood of an unfavorable outcome to the Airport Authority.

Theresa M. Hopkins, Warren B. Hopkins, Carl W. Hopkins

On June 9, 2011, the Airport Authority received a claim pursuant to Government Code §910 alleging damages arising from the death of Wayne Hopkins. Wayne Hopkins was employed by the Airport Authority from April 1, 2005 until December 10, 2010. While employed by the Airport Authority, Mr. Hopkins' office was located on the TDY site from April 2008 until December 2010. Before being employed by the Airport Authority, Mr. Hopkins worked for the Port District and Teledyne Ryan where his office was located on the TDY site. Mr. Hopkins worked for TDY for approximately 30 years. The claim alleges that Wayne Hopkins was wrongfully exposed to toxic material while he worked at the Teledyne Ryan Aeronautical Facility located at 2701 North Harbor Drive. As a result of the exposure, he developed non-Hodgkins Lymphoma, which allegedly caused his death on December 12, 2010. The claim seeks damages exceeding \$3 million. The Airport Authority Board denied the claim on July 7, 2011. On August 22, 2012, the District filed a claim pursuant to the California Tort Claims Act (Gov. Code §810, et seq.) seeking a defense and indemnity from the Airport Authority for expenses or damages the District incurs as a result of the wrongful death lawsuit filed by the surviving heirs of Wayne Hopkins against the District. The District bases its claim for defense and indemnity on the provisions contained in the Lease for the TDY property between the District and the Airport Authority. The Airport Authority disputes the claim that the lease requires provision of such a defense and indemnity. The Airport Authority Board will consider the District's claim at the Board meeting on October 4, 2012. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

Note 12. Commitments, Contingencies and Subsequent Event (Continued)

Accurate Engineering Integrated Construction Services, Inc.

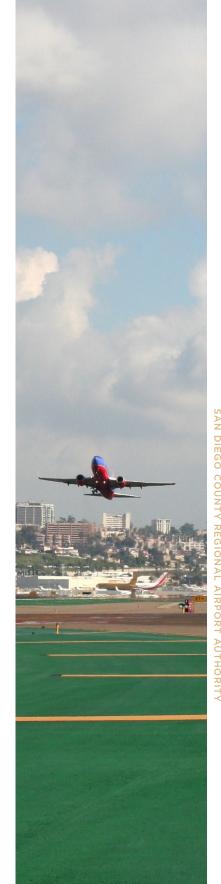

Accurate Engineering Integrated Construction Services, Inc. (AEICS) and the Airport Authority entered into a contract dated June 16, 2010 for work related to the Airport Authority's Quieter Home Program (QHP) - Project 380506 (Contract). On June 13, 2011, the Airport Authority gave AEICS a Notice of Default for failure to comply with the Contract terms and provided AEICS until June 28, 2011 to cure. On June 20, 2011, AEICS requested an extension to the cure date, and while the Airport Authority was not legally required to grant the extension, it agreed to the extension based upon AEICS' representation that it could complete all outstanding items by July 29, 2011. On July 29, 2011, AEICS had not cured all of the outstanding items and continued in default. On August 4, 2011, the Airport Authority terminated the Contract for cause. AEICS has filed claims under the contract alleging that the termination is improper. No lawsuit has been filed. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to this matter, or the probability or remoteness of any outcome.

Jacob Mojadam v. San Diego County Regional Airport Authority (San Diego Superior Court Case No. 37-2012-00098040-CU-MC-CTL)

On May 25, 2012, Jacob Mojadam, on behalf of himself and those similarly situated (Plaintiffs), filed a Complaint against the Airport Authority alleging that the Airport Authority improperly collected a taxicab trip fee from taxicab drivers using SDIA and seeking: (1) a declaratory judgment that the Airport Authority wrongfully collected trip fees from Plaintiffs without a right to do so; (2) injunctive relief preventing further collection of trip fees; (3) an accounting of the total amount of funds collected from the Plaintiffs; (4) return of any money that was improperly collected from Plaintiffs plus interest; (5) award of prejudgment interest; and (6) attorney's fees. The Airport Authority filed a demurrer to the First Amended Complaint, which the court sustained with leave to amend. Plaintiffs have filed a Second Amended Complaint to which the Airport Authority will respond. The Airport Authority's legal counsel cannot predict the exposure of the Airport Authority with respect to this matter, or the probability or remoteness of any outcome seeking damages.

Kelly Lancaster et al v. San Diego City Employees Retirement System (San Diego Superior Court Case No. 37-2011-00096238-CU-PO-CTL)

On August 12, 2011, Kelly Lancaster, on behalf of himself and those similarly situated (Plaintiffs), filed a Complaint against the San Diego CERS alleging causes of action for breach of common law, constitutional and fiduciary duties. The Complaint alleges that the Plaintiffs are beneficiaries of the pension fund of the Airport Authority, which is administered by CERS. The Complaint further alleges that Plaintiffs were allowed to purchase under the pension plan, and in fact did purchase, years of service credits at rates determined by CERS for up to five (5) years for time they did not work. The purchases were made during a window period of time (between August 15, 2003 and October 31, 2003) where the purchase price was below the cost as determined by CERS' actuary. The purchases occurred after the CERS Board delayed increasing the purchase price as recommended by the actuary and before the Board acted to increase the price as recommended by the actuary. The Airport Authority is not named as a defendant in the Complaint. The Airport Authority's legal counsel cannot predict the net exposure, if any, of the Airport Authority with respect to this matter, the likelihood that the lawsuit will have any financial effect on the Airport Authority, or the probability or remoteness of any outcome seeking damages.

Note 12. Commitments, Contingencies and Subsequent Event (Continued)

Draft Investigative Order No. R9-2012-0009—Downtown Anchorage Area in San Diego Bay

On or about November 2, 2011 the Airport Authority informally received information that the California Regional Water Quality Control Board (RWQCB) intended to issue for comment a Draft Investigative Order (IO) based on technical reports pertaining to two studies of bay sediments at the Downtown Anchorage Area in San Diego Bay. A copy of the IO was obtained. The IO describes the Downtown Anchorage Area as "a portion of the bay located south of Harbor Drive, immediately south of Solar Turbines, the San Diego County Regional Airport Authority and east of the U.S. Coast Guard Station." The IO alleges an unauthorized discharge of wastes has occurred as evidenced by the presence of PCBs, TPH, VOCs, PAHs, metals and pesticides in the bay sediments in the Downtown Anchorage Area. The IO names as parties responsible for the alleged unauthorized discharge the Airport Authority, Teledyne Ryan Industries, General Dynamics and Solar Turbines. The Airport Authority, along with the other named parties, provided comments to the RWQCB, *inter alia*, raising the following concerns about the IO: (1) the geographic extent of the Downtown Anchorage Area is not adequately defined; (2) the IO contains no sediment data demonstrating impacts to the bay were caused by the Airport Authority; (3) the RWQCB must name all responsible parties, including the District and the City of San Diego; and (4) the studies relied upon by the RWQCB predate the formation of the Airport Authority. The RWQCB has not issued a final IO. The Airport Authority's legal counsel cannot predict the net exposure of the Airport Authority with respect to this matter, or the probability or remoteness of any outcome seeking damages.

Subsequent event: On October 4, 2012, the Airport Authority Board of Directors approved an alternative CFC rate modification from the current \$10 CFC per contract to allow for the collection of sufficient CFC funds to cover the future costs of the anticipated consolidated rental car facility and centralized bussing system. Effective November 1, 2012, the CFC fee will be \$6 per day up to a maximum of five days.

BASIC FINANCIAL STATEMENTS

Statistical Section (Unaudited)

The Statistical Section is divided into five areas: financial trend data; revenue capacity data; operating information; demographic and economic information, and debt capacity data.

Financial Trend data which shows changes in the Authority's financial position since inception:

- Authority operating revenues and expenses
- Authority net assets by component
- Authority change in net assets
- Authority largest sources of revenue

Revenue Capacity data which shows the Authority's major revenue sources and changes in key rates and charges:

- Authority landing rate fee
- Terminal rates billed to airlines
- Airline cost per enplaned passenger

Operating Information shows how the airport is performing on an annual basis and within the airport market sector:

- Authority employee strength
- Aircraft operations
- Aircraft landed weights
- Aircraft landed weights by airline
- Passenger enplanements
- Enplanement market share by airline by fiscal year
- Growth in enplaned passengers, SDIA vs. US

Economic Information shows the major drivers of usage and how the airport service area is performing compared to the region and the nation:

- Population and per capita personal income
- Principal employers in San Diego County
- San Diego County employment by industry
- Labor force, employment, unemployment and unemployment rates

Debt Information shows how the Authority is performing meeting its debt obligations and the relative level of debt:

- Revenue bond debt service coverage
- Revenue bond debt per enplaned passenger
- Capital assets

Authority Revenues and O&M Expenses (\$000) Fiscal Years Ended June 30,

Source: San Diego County Regional Airport Authority

Information presented reflects those years that the Airport Authority was in operation.

* The increase in debt service requirements in 2006 was due to principal and interest payments required

on both the Airport Revenue Bonds, Series 1995 and the Airport Revenue Refunding Bonds, Series 2005.

** The increase in the 2011 debt service requirements is due to the a new bond issued October 2010.

Revenues are calculated pursuant to the provisions of the Master Senior Indenture and the Master Subordinate Indenture.

Net Revenues and Subordinate Net Revenues are calculated pursuant to the provisions of the Master Senior Indenture and Master Subordinate Indenture, as appropriate.

Debt service with respect to the Senior Bonds is calculated pursuant to the provisions of the Master Senior Indenture.

Subordinate Annual Debt Service is calculated pursuant to the provisions of the Master Subordinate Indenture.

Includes principal and interest.

SECTION

STATISTICAL

Information regarding Subordinate Obligations Debt Service Coverage provided in connection with the first fiscal year for which Subordinate Annual Debt Service was due with respect to the 2010 Bonds. Subordinate Annual Debt Service for prior years consisted of debt service on the Airport Authority's Subordinate Commercial Paper Notes and is not presented for fiscal years 2004-2010.
