Facility Description and Activities

1. Aircraft loading/unloading occurs at four gates on the North Ramp area.

2. Menzies Aviation fuels aircraft, vehicles and equipment.

3. One trash dumpster and one recycling dumpster utilized by FedEx's office are managed by EDCO and located outside of the parking lot.

4. Three above ground storage tanks are outside FedEx's office, two contain drinking water and one contains waste water. Palomar Water delivers potable water and United services the waste water regularly.

5. A spill kit is located at the new sort facility. It contains absorbent litter, mats, and sox.

6. Minor vehicle maintenance is conducted outdoors in designated vehicle maintenance area. Maintenance area is covered and has a spill protection area.

7. Hazardous waste and waste oil are stored in covered storage containers, on pallets, and inside sheds southeast of FedEx's offices.

8. Significant materials are stored in covered storage containers on pallets inside the sheds southeast of FedEx's offices.

9. Safety Kleen is contracted to pick up hazardous wastes and clean up any hazardous material spills that may occur.

10. Vehicles are parked in front of and northwest of FedEx's offices.

11. Cargo loading and unloading equipment is staged in designated areas throughout the ramp. The old sort facility is used for documents. Other operations are performed at the new sort facility under the new covered area.

12. GAT performs lavatory and potable water services as needed. This rarely occurs.

13. FedEx has a wash water management plan approved by Planning and Environmental Affairs. Fleetwash washes some of the equipment and stains on the ramp. They utilize a system that captures the wash water and dispose of it offsite. The equipment does not utilize cleaning agents, only highly pressurized water for cleaning. They typically wash ground service equipment once a quarter. Aircrafts are not washed at SAN.

14. Interstate recycles all used batteries.

15. RCL, a third party contractor, refurbishes FedEx's GSE equipment at SANR.

16. Western Towing is only used occasionally when towing is necessary.
