### Facility Description and Activities

\*\*Compass is contracted to fly planes for Delta. Compass does not hold lease space; however, they land airplanes at the San Diego Airport.

1. WFS handles cargo for Delta.
2. DAL Global Services (DGS) is Delta's subtenant for GSE maintenance. DGS operates the GSE maintenance shop located at the cargo loading/unloading building. DGS performs vehicle and GSE maintenance for Delta. Maintenance is only performed inside the GSE maintenance shop, none is performed on the ramp. In addition to maintenance, DGS provides ground handling and baggage services.
3. Ground support equipment, cargo containers, dollies, and other items are stored behind the cargo building and the DGS maintenance shop and west ramp.
4. Delta's own technicians perform aircraft maintenance at the gates. Pacific Aircraft Maintenance has a contract with Delta as backup to Delta's technicians.
5. Vehicles and GSE are washed at Menzies' wash rack.
6. Spill kits are located at every gate with a larger cart on west ramp.
7. Delta/DGS each performs regular inspections of vehicles/GSE and aircraft during fueling operations.
8. All fueling is performed by Menzies.
9. Flushing of potable water lines is not performed.
10. Hazardous wastes are collected by Nexeo Solutions LLC (formerly Ashland), who does liquid waste recycling.
11. Tenant has a Corporate Storm Water Pollution Prevention Plan, a Hazardous Waste Emergency Plan, a Hazardous Waste Management Plan, and a FOD Plan.
12. Gate 38 and 37 are preferred gates. Gate 46 and 47 are out of service due to construction until 2019.
13. A Hazardous Materials locker is in a roll up cage outside at Gate 47.
