- Notes:
- 1. Areas impacted by storm water run-on from surrounding areas include the eastern portion of Drainage Basin (DB) 1 and the northern portions of DB 5, 6, and 13.
 - 2. Most storage areas are under cover, apart from the boneyard area and some equipment storage areas outside some maintenance shops in DB 7.
 - 3. All areas are paved apart from the erodible areas, the Least Tern ovals, and the landscaped areas in the parking lots.
 - 4. Shipping and receiving areas are located at Bradford's facility (DB 6) and west of the Cargo Buildings in DB 8.
 - 5. Equipment maintenance/storage areas are mainly inside, and east of Cargo Buildings in DB 7. Minor maintenance is also performed in ramp areas.
 - 6. No significant spills or leaks have occurred at SAN in the last five years.
 - 7. Storm drain inlets are shown on map attached to SC01 in Appendix B.
