**SECTION 2.08 - PROHIBITED CONFLICTS OF INTEREST**

---

(a) The Authority is required to adopt a Conflict of Interest Code pursuant to Section 87300 of the California Political Reform Act. The Authority's Conflict of Interest Code is contained in Authority Code Section No. 2.30. The Conflict of Interest Code incorporates many of the provisions of the California Political Reform Act pertaining to conflicts of interest.

(b) This Ethics Code incorporates and makes applicable to the Board members and employees of the Authority: (1) the Authority's Conflict of Interest Code; and (2) the provisions of the California Political Reform Act and the regulations of the Fair Political Practices Commission pertaining to conflicts of interest, including, but not limited to, Government Code Section 84308, which governs any Board member who is running or has run for elective office. In some instances, the provisions of this Ethics Code may be more restrictive than the provisions of the California Political Reform Act or the regulations of the Fair Political Practices Commission. The provisions of this Ethics Code shall apply in such cases.

(c) By way of summary, a conflict of interest occurs when a Board member or employee, acting in an official capacity, makes, participates in making or in any way attempts to use his or her official position to influence a decision of the Authority in which he or she knows or has reason to know that he or she has a financial interest. Financial interests include:

(1) A business entity in which a Board member or employee or an immediate family member has an investment or holds a management position;

(d) Notwithstanding a conflict of interest, certain exceptions contained within the California Political Reform Act and the regulations of the Fair Political Practices Commission may result in the official or employee not being disqualified.

(e) If a disqualifying conflict exists, the Board member or employee must be disqualified from making, participating in making or attempting to use his or her official position in any way to influence the Authority's decision which involves that financial interest.

(f) Every Board member and employee of the Authority is responsible for knowing the conflict of interest rules and knowing when he or she has a disqualifying conflict of interest. However, Board members and employees may consult the Authority's Ethics Officer or such other authorized individual designated by the Authority (the "**Ethics Officer**") when faced with conflict of interest issues. As soon as a Board member or employee has a disqualifying conflict of interest, he or she shall:

- (1) Promptly file with the Ethics Officer a signed statement disclosing the nature and extent of the conflict of interest;
- (2) Immediately stop participating further in the matter;
- (3) If an employee, notify his or her supervisor about the disqualification; and
- (4) If a Board member, set forth the disqualification in the official record of the Authority.

(g) The Authority may prepare supplementary material regarding the applicable conflict of interest rules and distribute such material to Authority officials and employees.

United States and that substantially satisfies the requirements for tax exempt status under Section 501(c)(3) of the Internal Revenue Code.

(11) Travel expenses that are reasonably necessary in connection with a bona fide business, trade or profession and that satisfies the criteria for federal income tax deduction for business expenses in Sections 162 and 274 of the Internal Revenue Code, unless the sole or predominant activity of the business, trade or profession is making speeches, although such travel expenses may be reportable on the Board member's or employee's statement of economic interests;

(12) Income received as a payment for a comedic, dramatic, musical or other similar artistic performance; and payments received for the publication of books, plays or screenplays, although such income may be reportable on the Board member's or employee's statement of economic interest;

(13) Income earned for the Board member's or employee's personal services if the services are provided in connection with a bona fide business, trade or profession — such as teaching, practicing law, medicine, insurance, real estate, banking or building contracting — and the services are customarily provided in connection with the business, trade or profession, although such income may be reportable on the Board member or employee's statement of economic interests; and

(14) Any exception in this section applicable to a Board member or employee attending an event in his or her official capacity shall apply equally to any Board member or employee attending an event in his or her official capacity as an elected or appointed official of another public agency.

ARTICLE	8	-	GENERAL OPERATIONS
PART	8.7	-	STORM WATER CONTROL
SECTION	8.70	-	GENERAL PROVISIONS

---

(a) General. Sections 8.70 to 8.80 of this Code shall be known as the “**San Diego County Regional Airport Authority Storm Water Management and Discharge Control**” and the “**Storm Water Code**” and may be so cited. Capitalized terms not otherwise defined in this Section are defined in Section 8.71 of the Storm Water Code.

(b) Objectives. The Storm Water Code sets forth uniform requirements and prohibitions for dischargers and places of discharge to the Storm Water Conveyance System, and the Receiving Waters, necessary to adequately enforce and administer all laws and lawful standards and orders or special orders, that provide for the protection, enhancement and restoration of water quality. Through a program employing watershed-based approaches that includes environmental and economic considerations, the San Diego County Regional Airport Authority (the “**Authority**”) seeks to reduce pollution entering San Diego Bay from Storm Water Discharges and to protect and promote the public health, safety and general prosperity of its tenants, the public and to protect the natural resources and environment with the attainment of the following objectives:

- (1) To reduce Storm Water Runoff pollution;
- (2) To reduce Non-Storm Water Discharge to the Storm Water Conveyance System and Receiving Waters to the Maximum Extent Practicable;
- (3) To comply with all federal and state laws, lawful standards and orders applicable to Storm Water and Urban Runoff pollution control;
- (4) To prohibit any discharge which may interfere with the operation of, or cause damage to the Storm Water Conveyance System, or contribute to the impairment of the beneficial use or violation of a water quality objective of the Receiving Waters;
- (5) To prohibit Illegal Discharges and illicit connections to the Storm Water Conveyance System and Receiving Waters; and
- (6) To develop and implement effective educational outreach programs designed to educate the public, Authority employees and tenants on issues of Storm Water and Urban Runoff pollution prevention.

(c) Scope. The Storm Water Code provides for the prevention, control, treatment,

diversion and regulation of Discharges to the Storm Water Conveyance System and Receiving Waters, through a program of education and enforcement of general and specific prohibitions and requirements. The Storm Water Code applies to all dischargers and places located on property within the Authority's jurisdiction that discharge Storm Water or non-Storm Water into any Storm Water Conveyance System or Receiving Waters. Except as otherwise provided herein, the Authority's Executive Director or his or her designee shall administer, implement and enforce the provisions of the Storm Water Code.

(d) Violations. Any person violating any of the provisions or failing to comply with the mandatory requirements of the Storm Water Code, shall be guilty of a misdemeanor unless such violation or failure is declared herein to be an infraction.

## CODES

ARTICLE 8	-	GENERAL OPERATIONS
PART 8.7	-	STORM WATER CONTROL
SECTION 8.71	-	DEFINITIONS AND ABBREVIATIONS

---

(a) For the purpose of Sections 8.70 to 8.80 of this Code (the “**Storm Water Code**”), the following words and phrases are defined and shall be construed as hereinafter set out, unless it is apparent from the context that they have a different meaning:

(1) “**Authority**” means the San Diego County Regional Airport Authority, a local entity of regional government.

(2) “**Basin Plan**” means the Comprehensive Water Quality Control Plan for the San Diego Basin, adopted by the California Regional Water Quality Control Board, San Diego Region in September 1994, and all subsequent amendments.

(3) “**Best Management Practices**” (BMPs) means schedules of activities, prohibition of practices, general good housekeeping practices, pollution prevention and educational practices, maintenance procedures, structural or hardscape features that detoxify and remove pollutants or reduce flow, and other management practices to prevent or reduce to the Maximum Extent Practicable (MEP) the discharge of pollutants directly or indirectly to waters of the United States. BMPs also include treatment requirements, operating procedures, and practices to control plant site runoff, spillage and leaks, sludge or waste disposal, or drainage from raw materials storage.

(4) “**Clean Water Act**” (CWA) means the Federal Water Pollution Control Act enacted in 1972 by Public Law 92-500 and amended by the Water Quality Act of 1987. The Clean Water Act prohibits the discharge of pollutants to waters of the United States unless said discharge is in accordance with a NPDES Permit.

(5) “**Commercial Activity**” means any public or private activity involved in the storage, transportation, distribution, exchange or sale of goods and/or commodities or providing professional and/or non-professional services.

(6) “**Construction Activity**” is defined as clearing, grading or excavation that results in soil disturbance. Construction activity does not include routine maintenance to maintain original line and grade, hydraulic capacity or the original purpose of the facility, nor does it include emergency construction activities required to immediately protect public health and/or safety.

(7) “**Control**” means to minimize, reduce or eliminate by technological, legal,

contractual or other means, the discharge of pollutants from an activity or activities.

(8) **“Discharge”** means any release, spill, leak, pump, flow, escape, dumping, or disposal of any liquid, semi-solid or solid substance.

(9) **“Executive Director”** means the Executive Director of the Authority or his duly authorized representative(s) designated to administer, implement and enforce the provisions of the Storm Water Code.

(10) **“Hazardous Material(s)”** means any material(s) defined as hazardous by Division 20, Chapter 6.95 of the California Health and Safety Code.

(11) **“Illegal Discharge”** means any Discharge to the Storm Water Conveyance System that is prohibited under federal, state or local statutes, ordinances, codes or regulations or degrades the quality of Receiving Waters. Illegal Discharges include all Non-Storm Water Discharges except Discharges pursuant to an NPDES Permit or Discharges that are exempted or conditionally exempted by such NPDES Permit or granted as a special waiver or exemption by the Regional Water Quality Control Board.

(12) **“Illicit Connection”** means any man-made conveyance that is connected directly to the Storm Water Conveyance System or Receiving Waters, excluding roof-drains and other similar connections, that serves as a pathway for any Illegal Discharge.

(13) **“Impervious Surface”** means any man-made or modified surface that prevents or significantly reduces the entry of water into the underlying soil, resulting in runoff from the surface in greater quantities and/or at an increased rate, when compared to natural conditions prior to development. Examples of places that commonly exhibit impervious surfaces include parking lots, driveways, roadways, storage areas and rooftops. The imperviousness of these areas commonly results from paving, compacted gravel, compacted earth and oiled earth.

(14) **“Industrial Activity”** means any public or private activity which is associated with any of the 11 categories of activities defined in 40 CFR 122.26(b)(14) and required to obtain a NPDES Permit.

(15) **“Industrial/Commercial Facility”** means any facility involved and/or used in either the production, manufacture, storage, transportation, distribution, exchange or sale of goods and/or commodities, and any facility involved and/or used in providing professional or non-professional services. This category of facility includes, but is not limited to, any facility defined by the Standard Industrial Classifications (SIC). Facility ownership (federal, state, municipal, private) and profit motive of the facility are not factors in this definition.

(16) **“Maximum Extent Practicable” (MEP)** means the standard for implementation of Storm Water management programs to reduce Pollutants in Storm Water. MEP refers to Storm Water management programs taken as a whole. It is the MEP taking into account equitable considerations and competing facts, including but not limited to, the gravity of the problem, public health risk, societal concern, environmental benefits, Pollutant removal effectiveness, regulatory compliance, public acceptance, ability to implement, cost and technical feasibility. Section 402(p) of the CWA requires that municipal permits “. . . shall require controls

to reduce the discharge of Pollutants to the MEP, including management practices, control techniques and systems, design and engineering methods, and such other provisions as the Administrator of the United States Environmental Protection Agency or the state determines appropriate for the control of said Pollutants.”

(17) **“NPDES Permit”** means a permit relating to the National Pollutant Discharge Elimination System issued by the U.S. EPA, State Water Resources Control Board, or the California Regional Water Quality Control Board pursuant to the CWA that authorizes Discharges to waters of the United States and requires the reduction of Pollutants in the Discharge.

(18) **“Non-Storm Water Discharge”** means any Discharge to a municipal Storm Water Conveyance System or Receiving Waters that is not composed entirely of Storm Water.

(19) **“Pollutant”** means any “pollutant” defined in Section 502(6) of the CWA or incorporated into the California Water Code Section 13373. Pollutants may include, but are not limited to the following:

(A) Residential, commercial and industrial waste (such as fuels, solvents, detergents, plastic pellets, hazardous substances, fertilizers, pesticides, slag, ash and sludge);

(B) Metals such as cadmium, lead, zinc, silver, nickel, chromium, copper and non-metals such as phosphorous and arsenic;

(E) Animal wastes (such as discharge from confinement facilities, kennels, pens, recreational facilities, stables and show facilities; and

(F) Substances having characteristics such as pH less than six or greater than nine, or unusual coloration or turbidity, or excessive levels of fecal coliform, or fecal streptococcus, or enterococcus.

(20) **“Pollution Prevention”** means source reduction, preventing or reducing waste where it originates, at the source, including practices that conserve natural resources by reducing or eliminating pollutants through increased efficiency in the use of raw materials, energy, water and land.

(21) **“Receiving Waters”** means all surface bodies of water as described in NPDES Permit No. CA 0108758 of the California Regional Water Quality Control Board, San Diego Region, which serve as discharge points for the Storm Water Conveyance System,

including San Diego Bay, its tributaries and the Pacific Ocean.

(22) **“Regional Board”** means the California Regional Water Quality Control Board, San Diego Region.

(23) **“Storm Water”** or **“Stormwater”** means water that originates from atmospheric moisture (rainfall or snowfall) and that falls onto land, water or other surfaces. Without any change in its meaning, this term can be spelled or written as one word or two separate words.

**ARTICLE 8 - GENERAL OPERATIONS**  
**PART 8.7 - STORM WATER CONTROL**  
**SECTION 8.74 - REDUCTION OF POLLUTANTS IN STORM WATER**

---

To provide for the public health, safety and general welfare and to protect the natural resources, any person engaged in activities which will, or may, result in Pollutants entering Storm Water, Storm Water Conveyance System or Receiving Waters, shall undertake measures to reduce Pollutant Discharges to the MEP. Capitalized terms not defined in this Section are defined in Section 8.71 of this Code. The following minimal requirements shall apply:

(a) Pollutant Discharge, BMPs and Pollutant Discharge Prevention Procedures.

(1) Business Related Activities. All owners or operators of premises where Pollutants from business related activities may enter the Storm Water Conveyance System must reduce such Pollutants to the MEP. If the Executive Director determines that Pollutants are not reduced to the MEP, the Executive Director may require the business to develop and implement an SWPPP. Business activities that may require a SWPPP include maintenance, repair, storage, manufacturing, assembly, equipment operations, vehicle loading or fueling, or cleanup procedures which are carried out partially or wholly out of doors.

(2) Parking Lots and Impervious Surfaces. Persons owning or operating a parking lot or impervious surfaces used for similar purposes shall clean those structures frequently and thoroughly to prevent the Discharge of Pollutants to the Storm Water Conveyance System. Sweepings or cleaning residue from parking lots or other impervious surfaces shall not be swept or otherwise made or allowed to go into any gutter or roadway.

(3) New Development and Redevelopments. Any person performing construction work on property owned, leased, or controlled by the Authority shall, to the MEP, prevent Pollutants from entering the Storm Water Conveyance System by complying with all applicable local ordinances, the Standard Specifications for Public Works Construction when performing public work, and applicable provisions of any General Construction NPDES Permit issued by the State Water Resources Control Board and Municipal Storm Water NPDES Permit No. CA 0108758. The Executive Director may establish controls on the volume and rate of Storm Water runoff from new developments and redevelopments as may be reasonably necessary to minimize the Discharge and transport of Pollutants.

(4) Compliance with General Permits. Each industrial discharger, discharger associated with construction activity, or other discharger subject to any general or individual Storm Water NPDES Permit issued by the United States Environmental Protection Agency, the State Water Resources Control Board, or the Regional Board, shall comply with all the requirements of such permit.

(5) Compliance with Best Management Practices. Every person undertaking any activity or use of a premise which may cause or contribute to Storm Water pollution or contamination, illegal discharges or Non-Storm Water Discharges, shall comply with BMPs guidelines or pollution control requirements as may be reasonably established by the Executive Director.

(6) Containment and Notification of Spills. Any person owning or occupying a premises who has knowledge of any significant release of Pollutants or Non-Storm Water from those premises which might enter the Storm Water Conveyance System shall immediately take all necessary action to contain the release and minimize any Non-Storm Water Discharge. Such person shall notify the Executive Director of the occurrence and/or San Diego County Department of Environmental Health, and any other appropriate agency, within 24 hours of the incident's occurrence.

(b) Identification and Reduction of Pollutant Discharge. Use of testing, monitoring, sampling, and mitigation procedures to identify and reduce Pollutant Discharge may be required by the Executive Director as follows:

(1) Testing, Monitoring and Mitigation. Testing, monitoring and/or mitigation (similar to State SWPPP requirements in the state construction and industrial permits) may be ordered if:

(A) Illegal Discharges have not been eliminated after written notice from an authorized representative of the Executive Director;

(B) Repeat violations have been documented by written notices from an authorized representative of the Executive Director; and/or

(C) The Executive Director determines there is a threat or potential threat to human health or the environment.

(2) Monitoring Elements. Monitoring ordered pursuant to this section may include the following:

(A) Routine visual monitoring of Non-Storm Water flows;

(B) Routine visual monitoring of premises for spills or Pollutant Discharges;

(C) Maintaining a log of monitoring dates, potential Pollutant sources and mitigation measures taken; and/or

(D) Reasonable laboratory monitoring for Pollutants, if determined to be necessary.

(3) Cessation of Monitoring. Required sampling, testing, monitoring and/or mitigation may be stopped after conditions requiring monitoring no longer exist and the Executive Director has been provided written notice at least 60 days prior to cessation. The

required activity may not cease if written notice to continue is issued by the Executive Director.

(4) Consistency with other Agencies. BMPs and other Pollutant reduction elements shall be compatible with other agency's programs and procedures. The Storm Water Code is not intended to duplicate, diminish or take precedence over other agency program requirements.

The President/CEO or his or her designee of the Authority may issue permits authorizing ground transportation service for the transportation of persons and baggage from or within the Airport. A valid permit is permission for the person to whom it is given, including said person's employee, driver or agent, to transport, by a vehicle to which a decal or trade dress is affixed, passengers and baggage over and upon the non-dedicated private streets within the Airport, in accordance with the rules, regulations, and standing time limits established and designated by the President/CEO from time to time.

(a) Vehicle Restrictions.

(1) Beginning July 1, 2012, the total number of authorized vehicle decals for Taxicab permits shall not exceed 450 for the Airport. A reserve list shall be retained and may be used by the President/CEO for possible replacements. The operating authority of vehicle decals for Taxicabs shall be restricted to two days every five days, not to exceed 180 authorized decals each day through the establishment of a numbered system.

(2) The total number of authorized Vehicle for Hire operators shall not exceed nine.

(3) The total number of authorized TNC permittees shall not exceed ten.

(4) No Vehicle for Hire operator may transfer a vehicle decal except as provided in Section 9.19 of this Code. Authorized Vehicle for Hire operators may increase the number of vehicle decals for their fleet each calendar year by the higher of two vehicles or 10% of their then existing fleet.

No Taxicab, Charter Vehicle, Vehicle for Hire, Courtesy Vehicle, or TNC Vehicle more than ten (10) years old shall be allowed to operate at the Airport.

(6) The Board reserves the right to increase or decrease the number of ground transportation service permits or otherwise further limit or restrict the days or times for operation of the Permit Holders as provided herein or as may be provided pursuant to a duly adopted resolution.

(b) Permit Terms and Fees.

A ground transportation service permit may be issued any time during the calendar year and shall not exceed the expiration date. Irrespective of the date of issuance of any permit, every ground transportation service permit shall expire at the end of the permit term period during which it was issued unless any such permit is sooner terminated, suspended, revoked or cancelled. No permit shall be extended nor shall any permit be renewed or transferred except as provided in this Code.

(1) Trip fees or any other fees and charges for a ground transportation service provider shall be set by resolution of the Board.
