Airport Land Use Commission Staff Report

Meeting Date: April 2, 2026

Report of Determinations of Consistency with Airport Land Use Compatibility Plans

Pursuant to Airport Authority Policy 8.30 and acting in its delegated capacity as the Airport Land Use Commission (ALUC) for San Diego County, Airport Authority staff has issued the following consistency determinations per their respective Airport Land Use Compatibility Plans (ALUCPs). Authority Policy 8.30(3)(f)(2) states that any determination made by Authority staff in its delegated capacity shall be placed on the ALUC agenda for the next available meeting and shall be considered final if no further action is taken by the ALUC.

Gillespie Field ALUCP:

Construction of Eating & Drinking Establishment at 9207 Mission Gorge Road, City of Santee

Deemed Complete and Consistent on March 13, 2026

Description of Project: The project involves the construction of an eating and drinking establishment of 1,898 square feet on a property of 2.02 acres with an existing single-family dwelling at the rear of the property to remain.

Noise Contours: The proposed project lies within the 60-65 decibel Community Noise Equivalent Level (dB CNEL) noise exposure contour. The ALUCP identifies eating and drinking establishment uses located within the 60-65 dB CNEL noise contour as compatible with airport uses.

Airspace Protection Surfaces: The maximum height of the proposed project structure will be approximately 350 feet above mean sea level (20 feet above ground level). The proposed project is in compliance with the ALUCP airspace protection surfaces because the online prescreening tool of the Federal Aviation Administration (FAA) indicates that the project sponsor is not required to file notice to the FAA.

Safety Zones: The proposed project is located within Safety Zone 6. The ALUCP identifies small eating and drinking establishment uses of less than 50 people total capacity at approximately 60 square feet per person located within Safety Zone 6 as compatible with airport uses.

Overflight Notification: The proposed project is located within the overflight notification area but does not involve any new residential use subject to overflight notification requirements.

Interests Disclosure: The property is owned by Primo Developers LLC, with its partners disclosed as Lawrence Rafou and Mark Namou of Spring Valley. The architect is Hagman & Associates of San Diego. The landscape architect is Angelina Sotelo of San Diego. The civil engineer is K & S Engineering of San Diego. The geotechnical engineer is GeoCon Inc. of San Diego. The photometric engineer is Uno Design of Chula Vista. The biological consultant is Blue Consulting Group of San Diego. The environmental consultant is Helix Environmental Planning of La Mesa.
